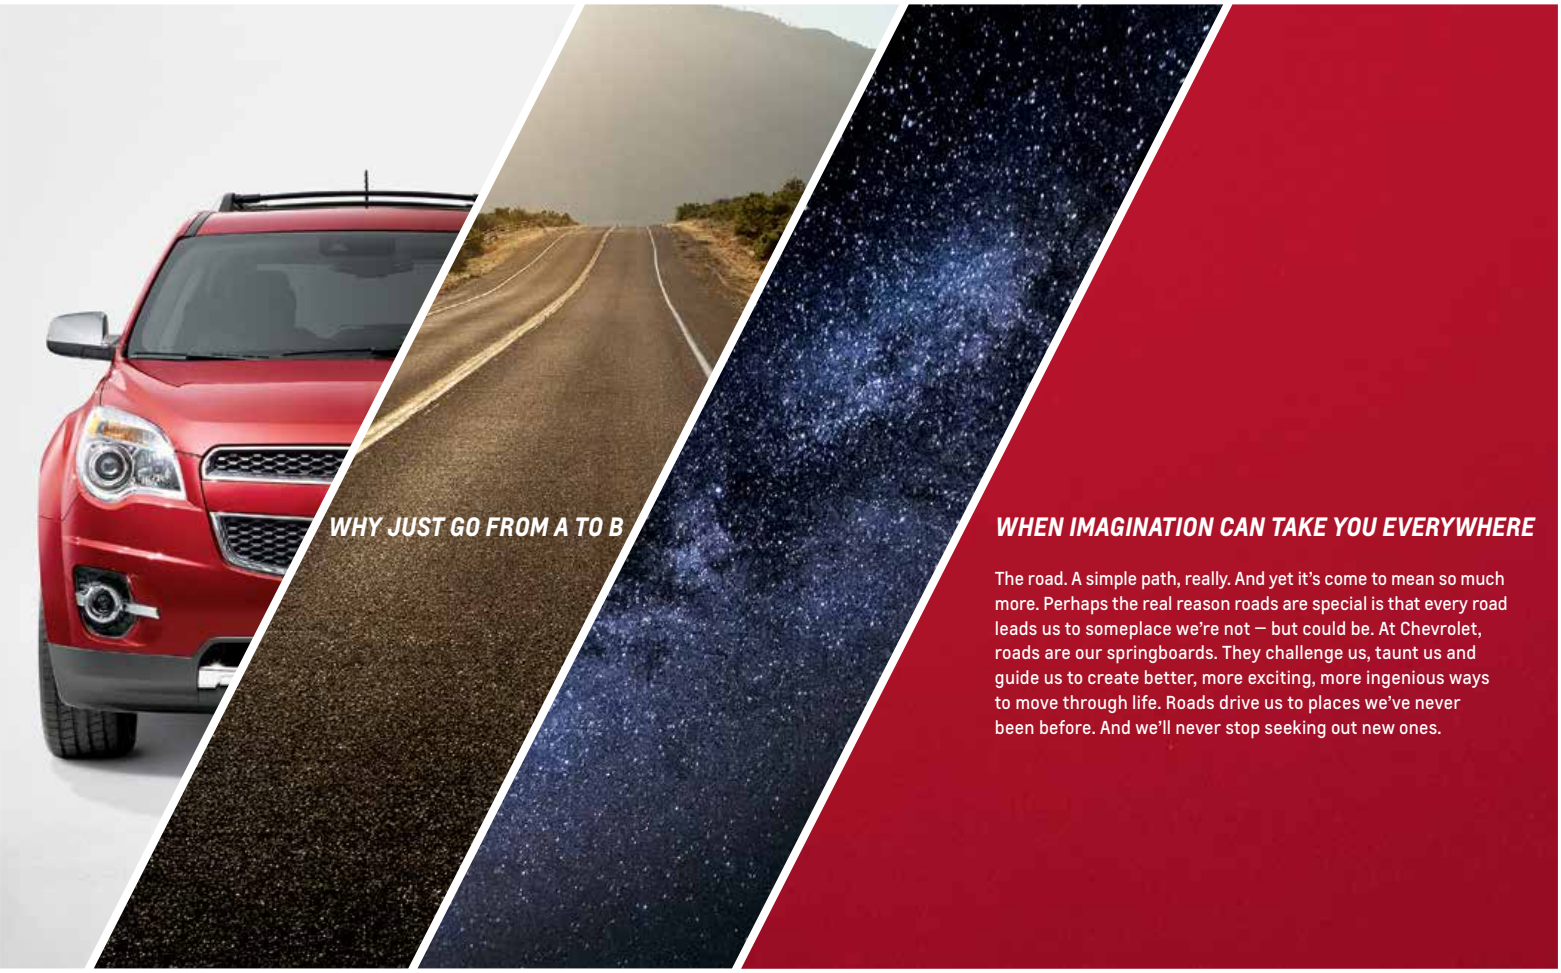
FIND NEW ROADS™



WHEN IMAGINATION CAN TAKE YOU EVERYWHERE

The road. A simple path, really. And yet it's come to mean so much more. Perhaps the real reason roads are special is that every road leads us to someplace we're not — but could be. At Chevrolet, roads are our springboards. They challenge us, taunt us and guide us to create better, more exciting, more ingenious ways to move through life. Roads drive us to places we've never been before. And we'll never stop seeking out new ones.

STABILITRAK® ELECTRONIC STABILITY CONTROL SYSTEM This system improves vehicle stability on most road surfaces, especially during emergency maneuvers and difficult driving conditions.

SIX STANDARD AIR BAGS[1] Should a moderate to severe collision occur, sensors determine which of the six air bags (including head-curtain side-impact air bags) to deploy to minimize impact. Front safety belt pretensioners also respond while the LATCH (Lower Anchors and Top tethers for CHildren) system helps keep child safety seats secure.

ONSTAR AUTOMATIC CRASH RESPONSE[2] In many crashes, built-in sensors in your Equinox can automatically alert an OnStar® Advisor who is immediately connected into your vehicle and can use GPS technology to pinpoint your exact location and request immediate assistance, even if you can't respond.

1 Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and the child safety seat instructions for more safety information. 2 Visit onstar.com for vehicle availability, details and system limitations.
