Check accessories kit

All models

Situation:

Since February 1996, a cross-department standardisation programme has been in force for the small parts previously supplied loose in the vehicle accessory packs.

The small parts are now wrapped in a clear plastic cover and stored in the luggage compartment.

The vehicle key is also wrapped in a clear plastic cover in the glove compartment.

The door/ignition key (master key) is secured by the wiper switch.

The composition of the accessories kit depends on the level of equipment fitted to the vehicle and is stored in the vehicle as follows:

1. In the luggage compartment, wrapped in a clear plastic cover:

- Torch
- Aerial rod for radio
- Aerial rod for telephone
- Cigarette lighter
- Magazine for CD changer
- Magazine with CD for navigation system
- Number plate mount
- Leather wallet
- Remote key for auxiliary heater
- On-board literature (Owner's Handbook, Supplementary Owner's Handbook, Radio Operating Instructions, Service Booklet, Dealer Index)
- Bumper cover with lashing eyes fitted
- Luggage compartment wall plugs for optional equipment 818 without through-loading system
- Spark plugs for M models
- Vehicle hoist securing point E36 (optional)

2. In luggage compartment, loose:

- Wiper blades for driver and front passenger side, only for vehicles destined for overseas with disposable wiper blades
- Hubcaps
- Floor mats
- Footrest, US version only
- Rear footrests

- Removable trailer tow hitch head
- Vehicle hoist securing point (national-market version 807, 810, 812 and 838 in additional clear plastic cover)

3. In the spare wheel recess:

- Adapter for wheel stud cover
- Vehicle hoist securing point E36 (optional)

Procedure:

The accessories pack in each vehicle received must be checked for the contents listed above. The clear plastic cover for the parts listed under Points 1 and 2 must be undamaged.

Note:

Damaged or missing parts from the accessories pack are claimed from the insurance or billed to the shipping company responsible. The shipping company is only liable for missing parts if the clear plastic cover is ripped open.
