Removing and installing radio and A/C control panel (for vehicles equipped with CID)

Special tools required:

- [00 9 325](#)

Note:

The following repair instructions apply in the case of vehicles not equipped with CID:

- Removing and installing the [control panel of the heating and air conditioning system](#)
- Removing and installing the [radio receiver](#)

Important!

Risk of damage!

A hard disk is installed in the Car Information Computer (CIC).
Carry out mechanical work on the CIC and adjacent components with care.

Avoid subjecting the CIC to vibration/shocks.

Important!

Read and comply with notes on protection against electrostatic discharge ([ESD protection](#)).

Important!

Carry out installation in a dust-free workshop area only.
To avoid damage, do not touch or dirty the display field.

Necessary preliminary tasks:

Remove the [centre fresh air grille](#).

Release screws (1).

Carefully unlock the radio and air conditioning control panel (2) at the marked points, using special tool [00 9 325](#).

Slightly pull out the radio and air conditioning control panel (2) and disconnect the associated plug connection.

Remove radio and air conditioning control panel (2).
