

Hijet

DAIHATSU

8.30 am

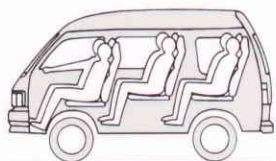

All in a day's work for the Hijet.

These days, you never quite know what you're going to want from a vehicle. One minute you want a car, the next minute it's a people carrier, then it's a goods carrier.

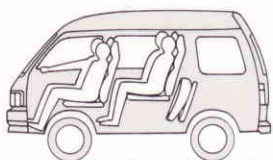

With the new Daihatsu Hijet, you get all these vehicles in one. For sheer versatility, affordability and manoeuvrability, there's nothing on four wheels to match it.

There's nothing the Hijet likes more than an early morning run. And with six comfortable seats, it takes children and adults alike in its stride.

Seats up to 6 adults in comfort

Rear seats fold down for maximum load carrying capacity

Despite an overall length of just under 3.3 metres, the Hijet can accommodate six adults with ease, in safety and comfort. Making it ideal for school runs, family outings, or any occasion when people come first.

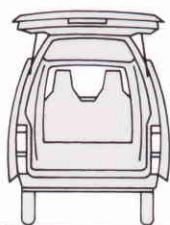

With a turning circle of just 7.4 metres, the Hijet runs rings round other people carriers when it comes to nipping in and out of tight spaces on shopping trips and sorties to the supermarket.

11.00 am

But rearrange the rear seats, and you suddenly gain a cavernous load space with a payload of up to 615kg. So it's just the thing for light removals, trips to the garden centre or the DIY Superstore.

With so much space at your disposal, we've done everything we can to make getting in and out of the Hijet as easy as possible.

There are two sliding side doors (some bigger people carriers only give you one) and a rear door that opens to maximum roof height, with an exceptionally low loading deck. At just 54cm from the ground, it's the lowest of any vehicle in this category. On top of all this, you have not one, but two tilting glass sun roofs. So even the air can get in and out effortlessly

Cavernous load area

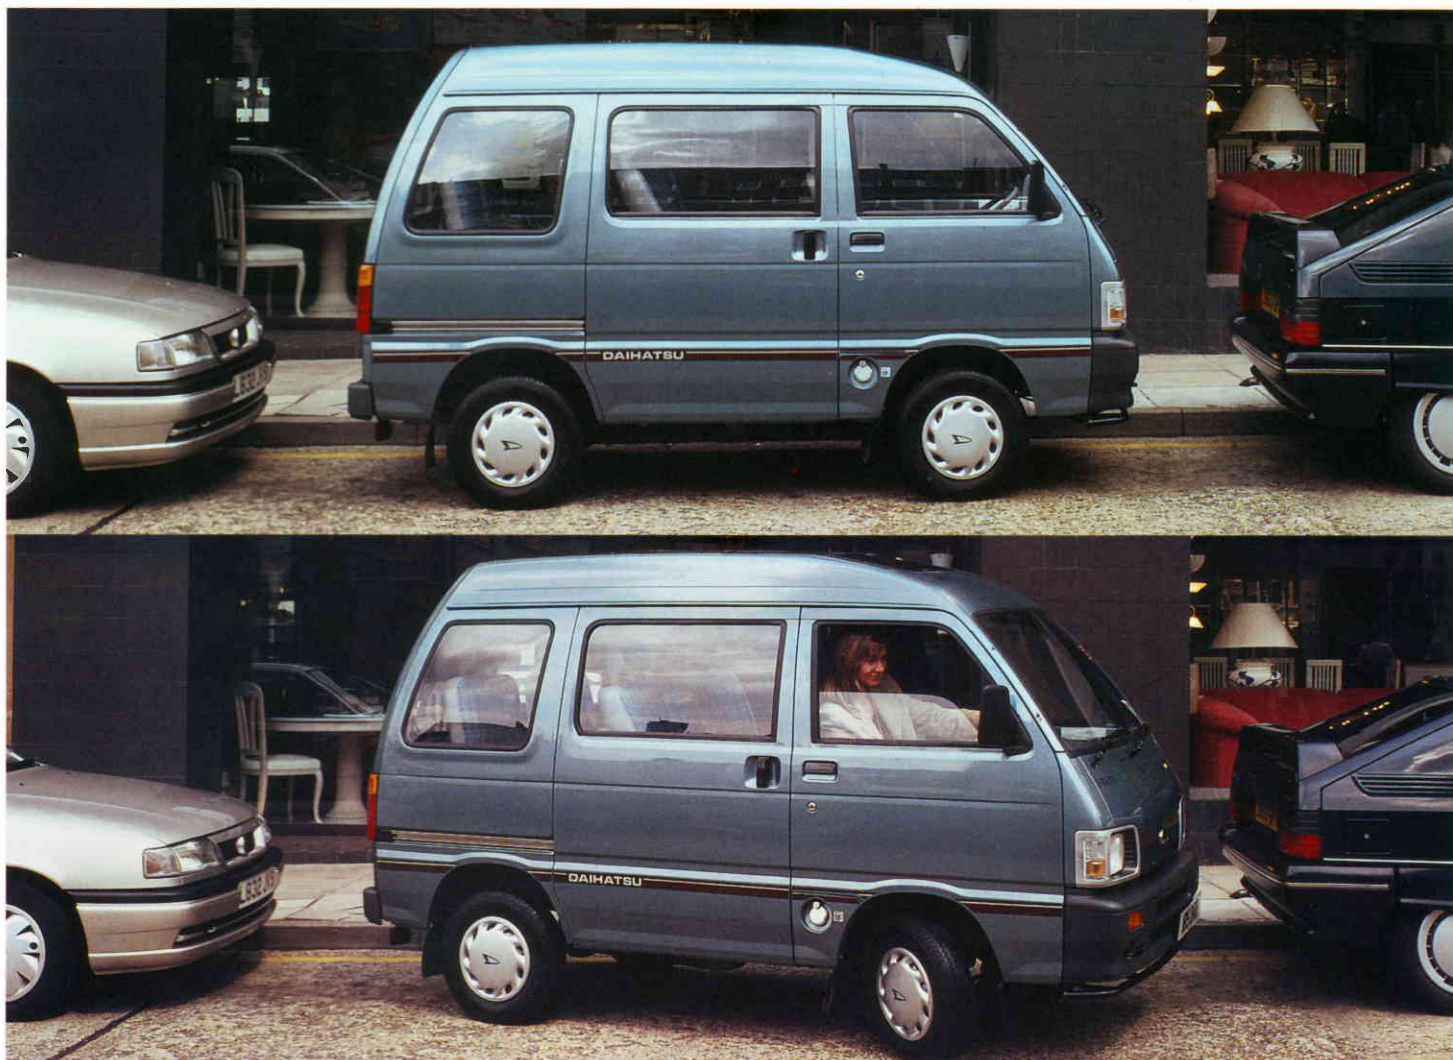

After the school run, the Hijet really shows its colours at the garden centre. Big loads suddenly seem smaller.

3.30 pm

As for creature comforts, we've not skimped on them either. The seats are finished with the type of cloth you'd expect to find on a saloon. All six seats have head restraints and three point harness seat belts. While the front and middle seats are fully reclining.

Standard features include soft padded door panels, carpeting throughout, cigarette lighter, heater, door pockets, sun visors, cargo light, heated rear window, outer rear view mirrors and lockable petrol cap.

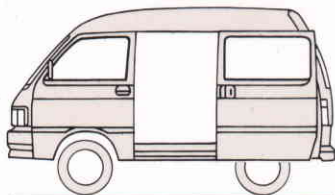

By afternoon, you'll discover that the Hijet was born to shop. With a turning circle of just 74 metres, even the tightest spaces are easy to negotiate.

As well as travelling in style and comfort in the Daihatsu Hijet, you're also travelling in a vehicle with a degree of mechanical refinement that is rare in this class.

The reliability of the Hijet CB42 fuel injected 993cc engine is legendary. Water cooled and with a catalytic converter as standard, the three cylinders deliver 35kW or 47bhp at 5,300rpm.

Fuel consumption, too, is equally impressive.

Twin sliding doors for easy access

7.00 pm

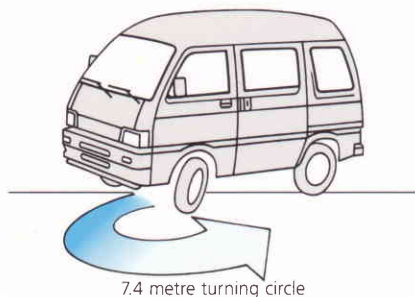

Front disc and rear drumbrakes ensure safety for all on board. Even with a full payload, the Hijet guarantees stable braking, thanks to the Load Sensing Proportioning Valve system, which adjusts braking characteristics dependent on the weight being carried.

Hijet's no-nonsense approach also extends to all-round peace of mind. You have a standard 3-year or 60,000 mile mechanical warranty together with 6 years anti-perforation protection.

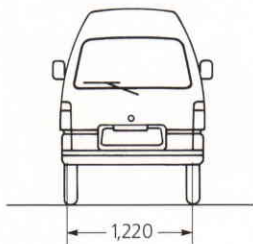

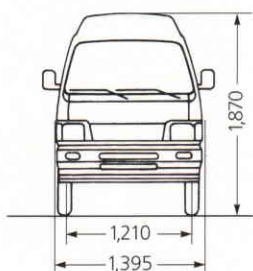

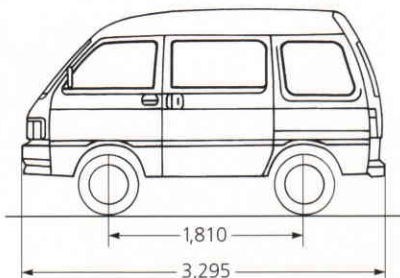

The Hijet just loves an evening out. And, with two sliding side doors, it's ready for anything. No wonder the fan club is growing so rapidly.

At the end of the day, you simply won't find another six seater that matches the value that comes as standard with every Hijet. However you judge it, it's the perfect travelling companion.

The Hijet specifications.

Engine and Transmission		Dimensions continued	
CB-42 petrol fuel injected engine, water cooled in-line 3-cylinder with catalytic converter		Loading height from ground (mm)	540
Bore x stroke (mm)	76 x 73	Wheelbase (mm)	1,810
Total displacement (cc)	993	Track (mm)	Front 1,210 Rear 1,220
Max. output	35.0kW/ 5,300rpm	Min. turning radius (tyre) m	3.7
Max. torque	76.0 N.m/ 4,000rpm	Kerb weight (kg)	935
Steering type	Rack and pinion	Payload including occupants (kg)	615
Clutch	Dry single plate with diaphragm spring and mechanical actuation	Gross vehicle weight (kg)	1,550
Transmission	Forward 5-speed synchromesh: Reverse 1-step selective sliding gear	Seating capacity	6
Transmission gear ratio	1st 4.059 2nd 2.045 3rd 1.457 4th 1.000 5th 0.838 Rev. 4.128	Fuel tank capacity (litres)	35
Final gear ratio	4.875	Tyres	155R12.8PR
Brakes		Suspension	
Tandem master cylinder, 7" booster, hydraulic dual circuit with LSPV		Front	MacPherson-strut type and double acting telescopic shock absorber
Front	Ventilated disc brake	Rear	Rigid axle with semi-elliptic leaf spring and double acting telescopic shock absorber
Rear	Drum-brake	Standard Equipment on the Hijet	
Parking brake	Mechanical internal expansion type on rear wheels	Outer rear view mirrors. Fuel cap with key. Mud guards. Body stripe. Reclining front & 2nd row seats (3rd row folding). Cloth seats. Carpet floor covering. Front door pocket. Front and rear ashtrays. Sunvisors. Urethane steering wheel. Urethane gear lever. Padded door panel. Cigarette lighter. Halogen headlights. Front and rear internal lights. Pocket on rear of front passenger seat. Rear fog light. 2-speed wipers and intermittent. Heated rear window with wash/wiper. Removable head restraints. Wheel trims. Twin sunroofs. 3 point seat belts. Metallic paint option.	
Dimensions			
Overall length (mm)	3,295		
Overall width (mm)	1,395		
Overall height (mm)	1,870

Each vehicle of this model is a passenger conversion of a Hijet registered as a commercial vehicle.

A no-nonsense approach to trouble-free motoring.

Drive away a Daihatsu, and you know that you're getting a vehicle of the highest build quality. Engineered to the most exacting technical specification. But you're getting something more, as well.

Every Daihatsu comes with peace of mind fitted as standard. A reassuring package of back-up features designed to give you trouble-free motoring for years to come.

3 year or 60,000 mile mechanical warranty

The Hijet is covered by our 3 year or 60,000 mile mechanical warranty.

6 year anti-perforation warranty

Similarly, the Hijet carries a 6 year anti-perforation warranty.

Emergency service

All new vehicles come with 12 months, emergency recovery service.

Customer care

You'll find your local Daihatsu dealer is dedicated to all aspects of customer care, and this will be reflected in the service he provides. Menu pricing operates in all Daihatsu dealers – this clearly identifies the costs of all recommended services needed to protect the warranty. These costs can be easily spread by joining our Budget Service Scheme. Simply ask your dealer for more details.

Daihatsu Secure

Daihatsu Secure is a personal contract purchase scheme and is available through participating dealers. A package can be tailor made to suit your individual requirements. Please ask your dealer for details.
