

DOOR LOCK CONTROL SYSTEM

■ DESCRIPTION

- The Hilux has a power door lock control system with the following equipment:

Destination		Thailand	Australia	Philippines	General Countries	Central and South America	Malaysia
Grade	SR	Standard	Standard* ¹	Standard	Option	Standard	Standard
	DLX	—		—		Option* ²	—

*¹: Except 2TR-FE Engine Model

*²: Only for Double Cab Model

- This system has the following functions:

Function	Outline
Key-linked lock and unlock function	This function, which is linked with the driver's door key cylinder, can lock or unlock all doors when a lock or unlock operation is effected.
Manual lock and unlock function	This function can lock or unlock all doors by the door lock control switch of the driver operation.
Speed-sensitive automatic door lock* ¹	- All doors become locked when all doors are closed and the vehicle reaches a speed of 25 km/h (15.5 mph). This function is controlled by the theft deterrent ECU. - This function can be disabled together with the ignition switch-linked automatic door unlock function, according to user preference. For details, refer to the Hilux Repair Manual.
Ignition switch-linked automatic door unlock* ¹	- After all doors are locked through the operation of the speed-sensitive automatic door lock function, turning the ignition switch OFF will automatically unlock all the doors. - This function can be disabled together with the speed-sensitive automatic door lock function according to user preference. For details, refer to the Hilux Repair Manual.
Doors lock with transmitter function* ² (see page BE-38)	Pressing the door lock switch of the transmitter locks all doors.
Doors unlock with transmitter function* ² (see page BE-38)	Pressing the door unlock switch of the transmitter unlocks all doors.

*¹: Only for Models with Theft Deterrent System

*²: Only for Models with Wireless Door Lock System
