PRICE LIST

STYLE

- Unmistakable appearance represented by the Alfa Romeo trilobe front grille
- Aerodynamic design
- Elegant dashboard layout focusing on driving experience
- Sports front seats
- High quality Italian upholsteries

EFFICIENCY

- All-New aluminium engine blocks on all Petrol & Diesel models
- ZF 8-Speed Automatic transmission
- Start&Stop
- Extensive use of aluminium and low weight materials

SAFETY & TECHNOLOGY

- Euro NCAP 5 Star rating with class leading 98% Adult Occupant Safety (2016 test)
- 9 Airbags
- Autonomous Emergency Braking (AEB)
- Forward Collision Warning (FCW)
- Integrated Braking System (IBS)
- Lane Departure Warning (LDW)
- Tyre Pressure Monitoring System (TPMS)
- Alfa Connect Infotainment system with Bluetooth®
- Rear parking sensors

DYNAMICS

- Alfa D.N.A. (Vehicle's driving mode selector)
- Alfa™ Link double wishbone front suspension
- Alfa™ Link Multilink axle rear suspension
- Ideal 50:50 balance of weight distribution
- Rear wheel drive

TOP GEAR MAGAZINE GROUP TEST (WITH BMW & JAGUAR) MAY 2017

‘It’s not just stylish but cleanly and sensibly laid out and decently constructed. The seat is good, and its relationship with steering wheel and pedals is perfectly cordial. The instruments are clear and the infotainment unambitious but pretty easy to operate. This Giulia Super trim level gets standard Tom Tom mapping with connected traffic. It’s a match for Jaguar’s and BMW’s standard systems.’

‘....the Alfa is more satisfying and engaging to drive quickly. It makes a pretty clean sweep of the day-to-day hygiene factors too.... The majority-selling diesel Giulia is a first effort that feels like Alfa has been doing it for years.’

‘The Giulia’s agility and precision give it a terrific authority over the bends.’

‘....let’s enjoy its unflappable, solid, crisp moves. It’s tautly suspended, so its body moves up and down a bit, but always snappily damped. The steering is a remarkable thing: the highest-gear set-up of the three cars, matched to a chassis that doesn’t roll and carves quickly into every turn. But while so many such quick set-ups can feel twitch on roads like this... the Alfa steering matches its agility with calm.’

The Alfa Romeo Giulia’s safety systems employ today’s most advanced technology to support intuitive driving with different levels of intervention, identifying risks and dangerous situations.

Forward Collision Warning (FCW) with Autonomous Emergency Brake (AEB) with pedestrian recognition and active braking. This device warns the driver of a potential head-on collision, using acoustic and visual signals and activating the braking system. In urban driving at speeds below 31mph, it can also detect the presence of pedestrians in the car’s path and apply the brakes automatically if the driver is unable to actively intervene.

Integrated Brake System (IBS) The Alfa Romeo Giulia is the first sedan in its segment to be equipped with this innovative electromechanical device, which combines the functions of the brake system with those of stability control. With the highly sensitive brake pedal, the system eliminates any vibration in the case of ABS braking. It responds powerfully and rapidly, and can stop the car from 62 to 0 mph in a space of just 38.5 meters.

Lane Departure Warning (LDW) A video sensor installed on the windscreen recognises the road surface markings and alerts the driver with audio and visual warnings, if the driver moves out of the lane involuntarily or fails to use turn signals.

Blind Spot Monitoring (BSM) The system continuously monitors the rear blind spots on both sides of the vehicle, using two radars set in the rear bumper. Any potential risk is signaled with lights on the exterior mirrors, warning the driver of obstacles at the sides of the vehicle.

Rear Cross-Path Detection monitors the area behind the car during reversing manoeuvres. The device signals the approach of other vehicles at a right angle to the car and at speeds lower than 22 mph.

A RANGE DESIGNED FOR YOUR BUSINESS - THE ALFA ROMEO GIULIA TECNICA

Whether you are a fleet decision maker or a company car driver, the Alfa Romeo Giulia Tecnica has been developed to deliver the complete fleet and business package. Coupling the most exciting driving dynamics with elegant Italian design, and offering exceptional fuel consumption, CO₂ levels, running costs and high levels of specification. An excellent power to weight ratio has been achieved through the use of lightweight yet strong materials; aluminium and carbon fibre components achieving efficiency without compromising on performance. Incorporating the most sophisticated safety systems, the Alfa Romeo Giulia delivers the right power to ensure extraordinary grip and cornering ability with immediate response.

The Alfa Romeo Giulia is a car without compromise, placing the driver at its heart.

PRICING & PERFORMANCE

CONNECT 3D NAV 8.8"

An interface optimised for usability, based on the latest generation TomTom platform. The interactive content makes the system an indispensable guide for every trip. On the dashboard, the information is displayed clearly and logically, for easy readability.

EFFICIENT DRIVE

A fundamental support for all types of driving, from the expert to the beginner. The qualitative analysis of the driving style, represented with an intuitive graphic, provides important information and tips on how to drive more efficiently.

MYCAR

Information at your fingertips, from technical details to maintenance. The graphics combines both flat and more textural elements, in a logical and useable design, to create a satisfying, all-encompassing experience in the world of Alfa Romeo.

MEDIA ENTERTAINMENT

Maximum connectivity with all devices. With USB/AUX/SD ports and Bluetooth, all your music can be accessed in the car's interior. The graphics and logic systems are designed to make the steering wheel controls perfect extensions for controlling all infotainment.

BENEFIT-IN-KIND TAXATION
The company car Benefit-in-Kind Taxation scale is linked to the CO₂ emissions level. The table right shows the percentage of the car price to be taxed (PIID value). Below you can also find a simple explanation useful to calculate the BIK.

- EXAMPLE OF HOW TO CALCULATE BIK**
- Look at the table on the right and find the BIK tax banding to be applied according to the CO₂ emissions of your car. (For example a Diesel car emitting 99g CO₂ is 19%).
 - Work out the car's price to be taxed (PIID value) which is calculated as: Total Retail Price (Basic Price + VAT) + Number Plate (25.53) + Delivery costs (£615) + Options (including VAT).
 - Calculate the BIK as follows: PIID value x BIK tax banding percentage.
 - Multiply BIK figure (from 3.) by your personal tax band – i.e. 20% or 40% to give your annual BIK costs.

ON THE ROAD CHARGES

CO ₂ EMISSIONS (G/KM)	% BIK TAX BANDING	DIESEL SUPPLEMENTS
0-50	9%	0%
51-75	13%	0%

MOPAR PRODUCTS & SERVICES

The mission of Mopar[®] is to ensure customers of all brands within Fiat Chrysler Automobiles receive a satisfying ownership experience for the vehicle's entire life cycle, putting their after-sales service leadership and know-how at their service. Mopar[®] looks after cars from the moment they leave the dealership onwards, guaranteeing the customer the very highest level of service, employing cutting-edge technology and innovative, original and high-quality products.

COMPREHENSIVE WARRANTY

3 Year New Car Warranty

Your 3 year new car warranty comprises of a manufacturer's 24 month warranty and a further 12 months dealer warranty, guaranteeing your vehicle against any manufacturer's defects. These warranties give you complete peace of mind during the first 3 years of ownership so that should any components fail due to manufacturing defects these will be replaced with genuine Alfa Romeo parts, free of charge. Full terms and conditions are available on request and listed in your owner's manual.

8 Year Anti-Perforation Warranty

Any perforation of the bodywork due to corrosion will be replaced free of charge during the first 8 years.

3 Year Paintwork Warranty

In the unlikely event of any paintwork defects, due to faulty materials or manufacture, we will rectify these free of charge during the first 3 years.

3 YEARS FREE ROADSIDE ASSISTANCE

The Alfa Romeo Assistance Service provides help in the event of your vehicle developing a mechanical or electrical breakdown at either the roadside or your home. The service is designed to get your car moving as soon as possible. In the event that the fault cannot be fixed at the roadside, then your car

will be taken to your nearest authorised dealership and you will be offered assistance to continue with your onward journey. Full terms and conditions are available on request.

The Alfa Romeo Assistance Service for customers is guaranteed 24 hours a day, every day of the year. If you require these services, dial the Freephone number 00800 0426 5337.

EASY CARE SERVICING PLANS

The Easy Care servicing plan is a flexible annual service plan applicable for every Alfa Romeo model. These service plans are available from one – five years and include of all the scheduled maintenance required on your vehicle depending on the term or mileage selected. They contain all of your essential servicing requirements and replicates the scheduled maintenance schedule shown. The price includes all the parts, labour and fluids required to perform the service schedule created for your car. For more information please contact your Alfa Romeo dealer.
