Outer Handle/Latch Removal (cont'd)

4. Remove the outer handle as shown.

5. Remove the seat A, then loosen the bolt.

6. Slide the outer handle base, and remove it from the door. Disconnect the connector, detach the clips, then remove the latch with the outer handle base through the hole in the door. Pry the outer handle rod out from the outer handle base using diagonal cutters.

NOTE:

- To ease reassembly, note location **A** of the outer handle rod on the joint before disconnecting it.
- Take care not to bend the rods.
