Component Removal/Installation

CAUTION: When prying with a flat-tip screwdriver, wrap it with protective tape, and apply protective tape around the related parts, to prevent damage.

NOTE: Take care not to scratch the dashboard and related parts.

Instrument panel:

1. Remove the center air vent.
2. Remove the climate control unit and audio unit as an assembly ('96 - 98 models see page 20-51, '99 - 01 models see page 20-52).

NOTE: Do not disconnect the connectors.

3. Remove the dashboard lower cover and driver's switch trim.
4. Remove the screws, detach the clips, then carefully pull out the instrument panel in the numbered sequence. Disconnect the connector, then remove it.

NOTE: Release the adhesive at the left side of the skirt carefully.
