

SIMPLY CLEVER

BICYCLES 2007

ŠkodaGenuine Accessories®

BICYCLES AND ŠKODA

The history of Škoda Auto is inextricably linked with bicycles and sports, and a return to pedal machines also conveys our opinion on an active lifestyle.

Already since 2002, we have been working closely with the renowned Czech producer of Author brand bicycles. For the 2007 season, the result of this cooperation once again is an attractive selection of bicycles in the Škoda genuine accessories assortment.

In addition to traditional models, including road bikes, mountain bikes, cross bikes and children's bicycles, this year we are offering two brand-new types. The first is a fully-suspended mountain bike designed to handle very rough terrain, while the second is a comfortable, Touring-class bike, perfect for taking relaxing rides around town.

The range also features bikes in the exclusive "Roomster" design, with frames in metallic Ocean Blue, which is the colour the Škoda Roomster itself can be bought in.

Copyright Société du Tour de France

ŠKODA IN THE WORLD OF BIKES

As a major European company, Škoda cannot sit on the sidelines of what is happening in society. Supporting a wide variety of activities, whether cultural or sports-related, is therefore a key part of its work. The famous cycle races, the Tour de France and

the Giro d'Italia, are one of its most enjoyable sponsoring projects. Involvement with the Tour de France has now become a tradition, while this year Škoda Auto will be supporting the Giro d'Italia for the first time in history.

ROOMSTER KOLEKCE

ŠKODA ROOMSTER AND BICYCLES

In honour of launching the new model Roomster on the market we prepared limited collection of bicycles that includes models such as TerrainRide, FunRide and JuniorRide with an exclusive frame painting.

In an accessory range for the model Roomster you will find a special interior bicycle holder (LAH 770 002) which allows two bicycles to be transported inside of the vehicle. For those who prefer the "classic" way of transporting bicycles our assortment includes roof railing (LAH 770 001), transverse roof rack (LAS 620 002A) and two types of lockable bicycle carriers - standard (LBT 009 003A) and aluminium (LBT 009 004).

A black mountain bike is shown from a low angle, focusing on the handlebars, front fork, and front wheel. The bike has black grips, silver brake levers, and a black saddle. The background is a blurred image of green trees and a grey, cloudy sky, suggesting motion or a forest setting.

The information on technical specifications, design, equipment, materials, warranties and external appearance relates to the time when the leaflet was put into print. The manufacturer reserves the right to make a change (including a change in technical specifications). On your request, your authorised Skoda partner will provide you with more detailed information concerning the standard and optional equipment, the current prices, the terms of delivery and the delivery times.
