It's funny that no matter how capable or old your children get you still worry about them. My youngest daughter, Rachel, has "blessed me" with 4 horses, 3 dogs and 12 hens. I have to admit the horses are my favorite. There is Dakota who spent years as a bucking horse and has the scars that show his life. He was her first. She has always been the kid to take in and help any animal that has been abused. Next there was Sergeant who had to go to a trainer because he had a naughty streak, then Sampson who spent years at a children's camp but got too big for the kids, and last Annie who is the newest addition and has only been with us since the middle of February.

The dogs are a whole different story. Gunner is a beautiful German Shepard and Lab mix and had 5 homes by the time she was 6 months old when Rachel took her in. Next there was Raleigh (not sure what breed he is) who one of her friends was going to give away and she couldn't stand the fact that someone might not take good care of him. He fell off her bed the first day she had him and broke his hip. That mom call went something like "Raleigh is hurt. Can you come to the vets?" because she knew all I had to do is look into that puppy's eyes, and I would take care of the vet bill so they wouldn't put him down or take his leg. Lastly there is Chief, who still is a puppy and joined her mix this year.

And the chickens. Well they are all named after country western singers, except for Ralph the rooster who is half the hens size but thinks he is so much more. But really, what can you do with a dozen eggs almost every day except give them away!

She trailers the horses to vets and to her friends' to trail ride and train together. I know she is capable of handling a 1,500 pound animal and getting it into a trailer and pulling it, but I still worry. A couple of weeks ago she was hauling a couple of them and my mom instincts went in to overdrive. My baby can't drive that far, it's dangerous! What if something happens? What if she drives too fast or is too aggressive (not sure where she got those driving habits from)? What if she runs out of gas? All the mom things I know I don't have to worry about but in the pit of my stomach always seem to. Text or call me when you get there /when you stop for gas/when you get home I say. She humors me and says she will.

Where would she be without her truck? It is not just a tool to haul her trailer with the horses or take the dogs somewhere or get feed for her menagerie of animals; it is part of her life. It is a part of my life, too, because I know it will help her on her journey through her life. When she is 62 like I am, she will look back much like I look at my own '55 and remember all the memories it built and all the great adventures. (And mom nagging.)

How to Read this Catalog

Throughout this catalog, the application line of the part number describes which model of GM Truck that particular part will fit. The models this catalog covers are 1988-98 2WD, 4WD, 1/2 ton and 3/4 ton trucks. Because not everyone can identify their truck by these model descriptions, here is an example of what each letter and number that appears on the description line stands for:

Part Number Examples

PART	DESCRIPTION AND APPLICATION	REQD	PRICE
38-8300	HOOD TO COWL SEAL	CHEVY GMC 88-98 (1)	$14.95

The application line states that this part, **#38-8300**, fits all Chevy GMC models from 1988-98.

PART	DESCRIPTION AND APPLICATION	REQD	PRICE
39-7402	AIR DEFLECTOR	"A" 2WD 1/2T 89-98 (1)	$39.95

The application line states that this part, **#39-7402**, fits 2WD 1/2 ton models only 1989-98. On the description line of part you see **"A"**, this means there is a special note about this particular part.

At the bottom of the page the part appears on you will find a shadow box that will describe to you what the special note for this part is.

Example:

Note: "A" With fog light holes.

This note is telling you that this part has fog light holes.

We Care for You and Our Environment

LMC TRUCK is making a concentrated effort to provide safe delivery and keep the environment as clean as possible. We use a polystyrene "peanut" as pack fill. It is photodegradable - which means that it will disintegrate in the sun, not in a landfill. It has been produced without ozone depleting chlorofluorocarbons. Codes have been given to identify recycling processes, check with your recycling center to see if they accept polystyrene code 6. If this "peanut" is not recycled and is sent to a landfill, it's still environmentally safe. You may have noticed that some of your packing materials do not have our company name and logos printed on them; we use other boxes that have misprints or are overruns to help control waste and packing cost. **LMC TRUCK** is helping you and our environment.

If You Can't Find the Part You Need in this Catalog, Here's What You Should Do:

- Check the CLASSIFIED LISTINGS of your local NEWSPAPER (usually the Sunday issue is best) for cars being "parted out" (sold in pieces).
- Check local SALVAGE YARDS. Even if they do not have a car like yours on hand, most salvage yards have access to a communication network which connects them to other salvage yards in your region of the country. Don't hesitate to ask them if you may use it.
- Check local BODY SHOPS and GARAGES for parts accumulations they may have built up over the years. You might get lucky!
- Check local WELDING and MACHINE SHOPS to see if they might be able to MAKE the part you need.

Transfer Case Identification

All Transfer Cases have an assembly tag attached to their case. The tag may be a bolted, riveted or screwed on metal tag, or a stick-on paper tag. The Transfer Case must be identified by the assembly number listed on the tag. If your tag number does not appear on the line, it will not fit your truck. See illustration.

LMC TRUCK is in no way affiliated with the General Motors Corporation nor do we intend to imply that. The names General Motors, GMC and Chevrolet are used for reference only.

Applications listed in this catalog are based on original factory information. However, variances will occur due to non-documented substitutions, and changes made during the vehicle's production.

1988-98 Truck History

1988 Totally redesigned trucks were lower, longer, more aerodynamic and were engineered for driving comfort while providing all the latest convenience features. The exterior was 3-1/2" narrower but featured more leg and shoulder room. Larger, flush mounted glass provided a 33% increase in viewing area than previous pickups. Stepside models were only offered on 1/2 ton standard cab shortbed configurations with rear fenders made of fiberglass panels with functional steps on the front and rear of the fender. Extended cab was optional for the first time on Fleetside models. Bed was a one-piece welded unit. Three trim levels were offered for Chevrolet: Cheyenne, Scottsdale and Silverado. GMC trim levels were base, SLX and SLE. 4WD trucks had independent front suspension with torsion bar springs. Insta-Trac 4WD system shift-on-the-fly allowed shifting from 2WD to 4WD high at any speed. Standard engine was a 4.3L V6. All gas engines featured throttle body fuel injection.

1989 Fleetside Sport appearance package included body color grille and bumpers, chrome plated wheels, fog lights and sport graphics. GMC Sport model was named the Sierra GT. Z71 off-road package featured engine, front differential and transmission skid plates with Bilstein shocks.

1990 454SS 2WD 1/2 ton standard cab, shortbed debuted in Onyx Black with Silverado trim. This limited edition truck was equipped with 230 horsepower and 385 lb.-ft of torque, Turbo 400 transmission, performance handling package and a 3.73 rear axle ratio. Work Truck (W/T) also introduced as a low option regular cab longbed in standard Cheyenne trim with a new grille and black bumpers. 2WD and 4WD versions were offered.

1991 7.4L engine was revised to increase its reliability and fuel economy. The 4L80E, a new 4-speed automatic electronic overdrive transmission, was available on heavy-duty models. Other options included a tachometer, high back reclining bucket seats and a bedliner.

1992 Stepside models were available with extended cabs. New exterior colors for the 454SS model were red and white. 4-speed manual transmission was dropped. 6.5L Diesel engine available with turbocharger.

1993 Sportside Sport included body color grille, side mirrors, front and rear bumpers, and cast aluminum wheels. Scottsdale trim level dropped. All models featured an anti-chip coating applied to the leading edges of the hood, roof and A-pillars. 4.3L engine received a new balance shaft and revised cylinder heads with improved flow. Hydra-Matic 4L60E 4-speed electronic overdrive automatic transmission available for trucks under 8,500 lb. GVW. Last year for the 454SS.

1994 Chevy and GMC grilles received updates. Guard beams added to both front doors for safety. Third brake light added to cargo light on roof. Air conditioning system switched to R134A. Base model GMC renamed SL and upgraded SLT trim was added. 6.2L Diesel engine dropped.

1995 4-wheel ABS and driver side airbag were standard. Interior was restyled and the audio system was improved. Remote keyless entry was optional.

1996 All engines were reengineered; Vortec designation was extended to all gas engines. 4.3L, 5.0L and 5.7L engines were equipped with central sequential fuel injection. 7.4L featured multi-point fuel injection. High-flow cylinder heads, higher compression ratio, roller valve lifters and new camshafts contributed to 30% more horsepower and 10% more torque improvement. Diesel engine only available with turbocharger. OBDII debuted. NP1 electric shift transfer case was available, eliminating the floor-mounted shifter. Daytime running lamps standard. Third door on passenger side was optional.

1997 Passenger side airbag standard on all models under 8,600 lb. GVW. Electronic speed sensitive power steering system introduced. 4L60E and 4L80E transmissions were tweaked for smoother operation and greater efficiency.

1998 OnStar system became a dealer-installed option. Passlock theft-deterrent system added.

Steel Body Panels and What to Expect

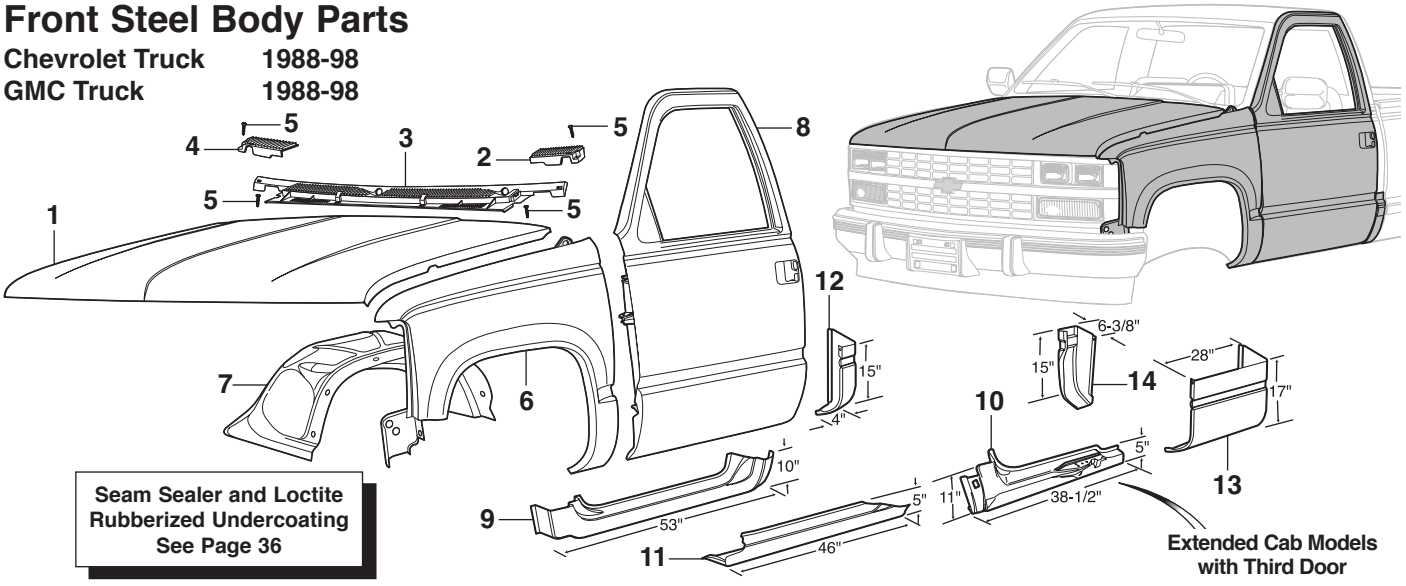

LMC Truck inspects each piece of sheet metal shipped and takes careful steps to package your parts so there is no damage during shipping. Due to the nature of the product, sheet metal is easily damaged and scratches, dents, dings and other imperfections are normal and not considered damaged. These kinds of imperfections should be expected and can be easily fixed during installation and the paint preparation, sanding and priming stages of your restoration. It is recommended you inspect all sheet metal that is delivered to you before the delivery driver leaves. Test fitting of all panels before installation is recommended and the use of alignment shims and other adjustments during the install may be required.

***** After the sell price means Oversize Part Charge. Your order will incur a charge of $20.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

-T after a part number means that part must be shipped Truck Freight. The prepaid order will include a $125.00 charge for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted. Additional delivery time required.

POR-15 Restoration Products

POR-15 is a high-performance rust preventative black paint designed to extend the life of new and rusted metal surfaces. It dries to a rock-hard, non-porous semi-gloss finish that will not rust, chip, crack or peel.

Dries in 2 to 5 hours; body fillers and paint can be applied over POR-15. For maximum effectiveness, degrease metal surfaces with Cleaner Degreaser, then prime with Metal-Prep.

Approximate product coverage:
1 pint = 48 sq. ft.; 1 quart = 96 sq. ft.

PART	DESCRIPTION	PRICE
37-8411	POR-15 BLACK PAINT-1 PINT	$31.95
37-8412	POR-15 BLACK PAINT-1 QUART	$49.95

Metal-Prep provides adhesion for POR-15 on any metal surface. Gently etches metal, neutralizes rust and creates an ideal anchor for coatings such as POR-15, while leaving a zinc phosphate finish to ensure chemical bonding of paint and steel. Metal-Prep must be used on galvanized metal, aluminum, stainless steel and smooth, polished or new metal surfaces prior to applying POR-15. Metal-Prep is water-based so it is not caustic, corrosive, toxic or flammable.

PART	DESCRIPTION		PRICE
37-8415	METAL-PREP	1 QUART	$16.95
37-8416	METAL-PREP	1 GALLON	$34.95

High Temp Paint is an extreme temperature finish that maintains color without burning off or discoloring on manifolds and headers. Withstands high temperatures up to 1200°F and resist cracking, chipping and peeling. It is weather-, salt- and moisture-resistant. Available in gray or aluminum color; can be brushed or sprayed on. Recommend sandblasting for optimal surface preparation.

Approximate coverage: 8 oz. covers a set of big block V8 headers with two coats.

PART	DESCRIPTION		PRICE
37-8484	HIGH TEMP PAINT-GRAY	8 OZ	$18.95
37-8485	HIGH TEMP PAINT-ALUM	8 OZ	$18.95

Cleaner Degreaser cleans and degreases in one application without messy residues, noxious fumes or flammable solvents. Removes grease, oil, mildew, algae, musty odors, soap films and wax from canvas, vinyl, plastics, nylon, wood, fiberglass and all metal surfaces.

Cleaner Degreaser should be used as a surface prep prior to using Metal-Prep and POR-15.

PART	DESCRIPTION		PRICE
37-8413	CLEANER DEGREASER	1 QUART	$11.95
37-8414	CLEANER DEGREASER	1 GALLON	$22.95

Bed Liner is a water-based, rubberized coating ideal for protecting truck beds, and all other metal, aluminum, fiberglass and wood surfaces exposed to impacts and scuffs. It is UV stable and offers superior adhesion, impact resistance and flexibility. Features a textured semi-gloss black finish for good looks. Prior to application, surfaces should be degreased with Cleaner Degreaser and metal surfaces should be treated with Metal Prep. Bed Liner can be applied over POR-15.

Shortbed trucks - 1 gallon for two coats on bed floor, sides and tailgate. Longbed trucks need an additional quart.

Approximate product coverage:
1 quart = 25-30 sq. ft.; 1 gallon = 100-120 sq. ft.

PART	DESCRIPTION		PRICE
37-8480	BED LINER	1 QUART	$28.95
37-8481	BED LINER	1 GALLON	$109.95

Fuel Tank Sealer coats the inside of your tank to stop rust and seal pinholes and weld seams. It's a non-porous, flexible film that is resistant to all fuels, alcohols and fuel additives. This environmentally safe sealer does not contain the harmful chemical Methyl Ethyl Ketone (MEK) and is non-flammable. Cleaner Degreaser and Metal-Prep must be used to prep fuel tank prior to using fuel tank sealer.

Approximate product coverage:
1 pint = to 12.5 gal tank; 1 quart = to 25 gal tank

PART	DESCRIPTION		PRICE
37-8488	FUEL TANK SEALER	1 PINT	$23.95
37-8489	FUEL TANK SEALER	1 QUART	$40.95

Tie Down Anchors ... Easy to Use In and Out

Tie Down Anchors

38-3237 **38-3238**

Tie Down Anchors install and uninstall in minutes with no tools required. Insert heavy-duty Tie Down Anchor into stake pocket hole and turn the eyebolt to expand the rubber block. Two loop styles to choose from: chrome-plated loop #38-3237 or standard zinc-plated loop #38-3238. Both styles have metal top plates and a rubber liner underneath to protect the truck's finish. Sold individually.

PART	DESCRIPTION AND APPLICATION	REQD	PRICE
38-3237	TIE DOWN ANCHOR-CHROME LOOP CHEVY GMC 88-98 A/R		$6.95
38-3238	TIE DOWN ANCHOR-ZINC LOOP CHEVY GMC 88-98 A/R		$4.95

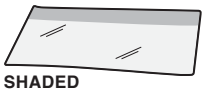

Movable Anchor Point

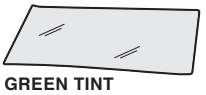

38-3239

These heavy-duty, steel anchor points have a unique "C" clamp design allowing installation where needed; just clamp to bed rail and secure the load. Point and plate are vinyl coated and will not rust or scratch the truck's finish. Can be used with "under the rail" style bed liners.

Dash Pad Reinforcement Kit

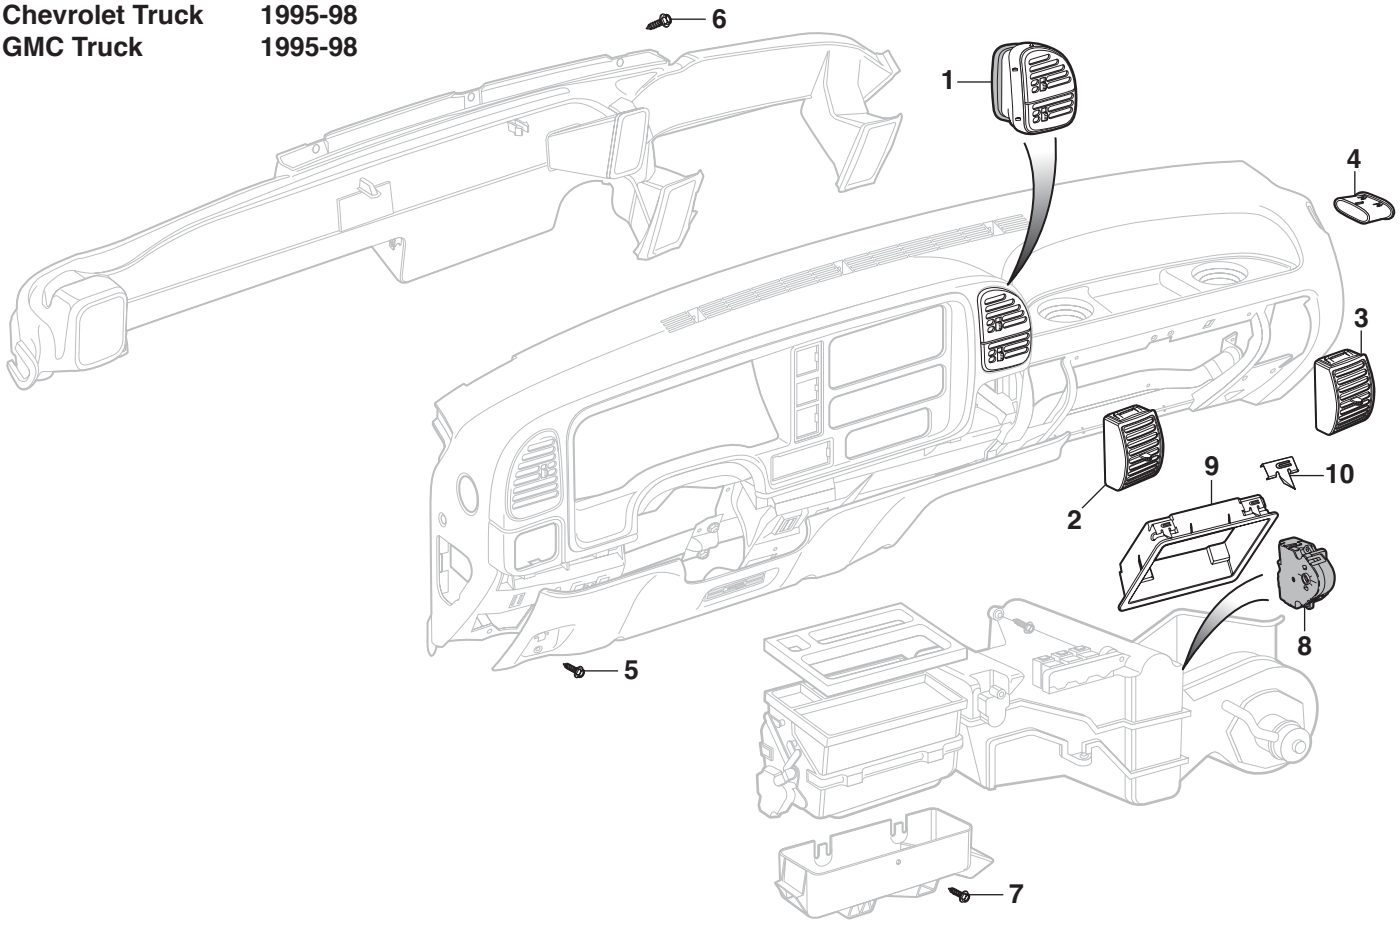

Modern dashboards are made from plastic which becomes brittle, fatigued and prone to cracking around the fasteners over time. With the Dash Pad Reinforcement Kit installed, the fastener load is spread over a greater surface area for a more secure installation and the increased stability will keep cracks from forming. Installation instructions included.

Seat Heater Kits ... Warm Yourself Up Before Your Truck Warms Up

38-2198

Seat Heaters are constructed with patented carbon fiber heating elements which give consistent and controlled warmth. Paper thin heating elements are water-resistant and install between any seat cover material and seat cushion. Kit includes heating elements for seat back and bottom, three-way switch (Off/Low/High), pre-wired relay harness with fuse and instructions.

#38-2198 contains two 11" x 11" heater elements. (One for seat back and one for seat bottom.) Ideal for use in bucket seat applications.

#38-2199 contains two 11" x 22" heater elements. (One for seat back and one for seat bottom.) Ideal for use in bench seat applications.

Loctite Ready Gasket makes leak-proof gaskets for temperatures from -75°F to 450°F. Blowout resistant, sensor-safe and ideal for sealing differential covers, valve covers, water pumps, thermostat housings and more.

#38-0767 4 oz. Can **$14.95**

Loctite RTV Red is a high-temperature silicone gasket maker and adhesive. It forms a tough, flexible seal that is resistant to most chemicals without hardening, shrinking or cracking. RTV Red has a temperature range of -75°F to +600°F and is sensor-safe.

#38-0774 2.7 oz. Tube **$4.95**

Loctite LB 8108 is a high-performance synthetic grease that provides superior lubrication and protection on bearings, hinges, latches, linkage, seat tracks, slides, springs and other automotive applications.

#38-0748 10.1 oz. Aerosol
$5.95

Loctite Freeze and Release instantly freezes rusted and seized fasteners at -45°F. The shock-freeze effect creates microscopic cracks so lubricants can penetrate into the connection, allowing easy separation after 1-2 minutes. Once released, parts remain lubricated and protected from corrosion.

#38-0764 13.5 oz. Can **$11.95**

Loctite Spray Adhesive dries clear with superior bonding strength. Excels at attaching upholstery cloth, carpeting, insulation and has many other uses. Not recommended for use on headliners.

#38-0798 10.5 oz. Can **$7.95**

Loctite Rubberized Undercoating is a heavy-duty undercoating that seals, protects and insulates frames, floor pans, wheel wells and other body panels. Rubberized for maximum durability.

#38-0766 16 oz. Aerosol
$6.95

Loctite Weatherstrip Adhesive is a strong and flexible waterproof adhesive for bonding all types of rubber weatherstripping. Withstands vibration and extreme temperature variations; dries black.

#38-0792 5 oz. Tube **$6.95**

#38-0765
20 Gram Stick
$5.95

Loctite Copper Anti-Seize Stick protects against high-temp seizing and galling of fasteners up to 1,800°F. Perfect for spark plugs, exhaust manifold bolts, thermostat housing bolts and oxygen sensors.

Loctite Threadlocker prevents loosening of threaded fasteners caused by vibrations. Seals and protects threads from rust and corrosion. Allows disassembly with standard hand tools.

#38-0771 .2 oz. Tube **$6.95**

Loctite Dielectric Grease extends the life of electrical components by protecting them from moisture, salt and corrosion. Also prevents spark plugs from fusing to boots. Use on fuses, battery terminals, ignition components and other electrical connections.

#38-0770 .33 oz. Tube **$4.95**

Permatex Windshield and Glass Sealant is a silicone sealant for windshields, windows and other glass. Flows into leaks like water and dries to form a flexible, tough, clear seal that is resistant to extreme temperatures, vibration and most chemicals.

#38-0783 1.5 oz. Tube **$5.95**

#38-0921 .3 oz. Pen **$14.95**

Vinyl Edge Sealer Pen is an ultraviolet light-blocking, fast-drying, clear acrylic sealer that protects the edges of vinyl decals, graphics and the ends of adhesive chrome body moldings. It features a wedge applicator tip for a smooth, even application.

#38-0788
$8.95

3M™ Adhesive Tape is a high-performance, double-sided tape for all types of accessories, both interior and exterior. The tape's foam core allows it to expand and contract with temperature changes and to conform to surface irregularities and gaps. Includes three 1" x 12" strips.

#38-0779
$3.95

Strip Caulk is a non-hardening, non-shrinking waterproof black caulking material with great adhesion properties and is temperature resistant from -400°F to +500°F. Perfect for sealing around hoses, tubing, wiring or any other hole, joint, seam, void or gap to prevent fumes, moisture or noise penetration. Easy to apply and can be painted immediately. Contains twelve 1/4" x 12" strips.

Penetrating Graphite Oil is a waterproof lubricant for all metal products. Keeps brake cables, speedometer cables, hinges, locks and other metal applications working smoothly. Helps prevent corrosion and rust.

#38-0747 .5 oz. Tube **$3.95**

Seam Sealer provides superior adhesion and flexibility without cracking or peeling. Its self-leveling qualities make it an excellent sealer on cowl, floor, doors and wheel house seams. Skin time is 1-2 minutes and can be painted in 30-60 minutes. Applies with a standard caulking gun.

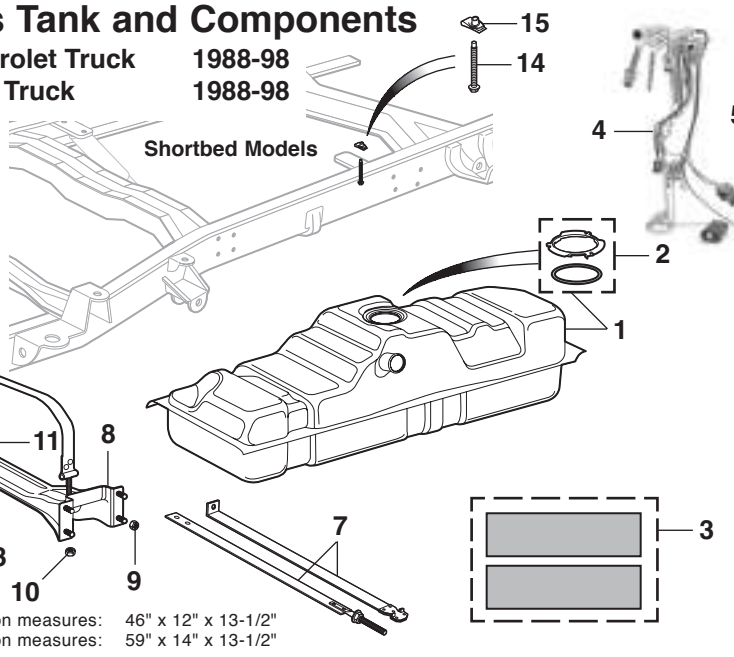

#38-0781 11 oz. Tube **$9.95**

Gas Tank and Components

Chevrolet Truck 1988-98
GMC Truck 1988-98

Sending Unit-Fuel Pump is a combination Fuel Tank Sending Unit and Fuel Pump.

How to Identify Your 1996-98 Gas Tank Sending Unit

1996-98 models have a label attached to the wiring harness on the sending unit. The label has three letters printed on it that are referred to as the ID Code. Please order by matching the letters on your gas tank sending unit with the correct part number.

Shortbed trucks were equipped with 25 gallon tanks; longbed trucks were equipped with either a 25 gallon or 34 gallon tank. Measure your gas tank to determine which gas tank you need.

***** After the sell price means Oversize Part Charge. Your order will incur a charge of $20.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

Fuel Pump Module and Relocation Kit

Chevrolet Truck 1994-98
GMC Truck 1994-98

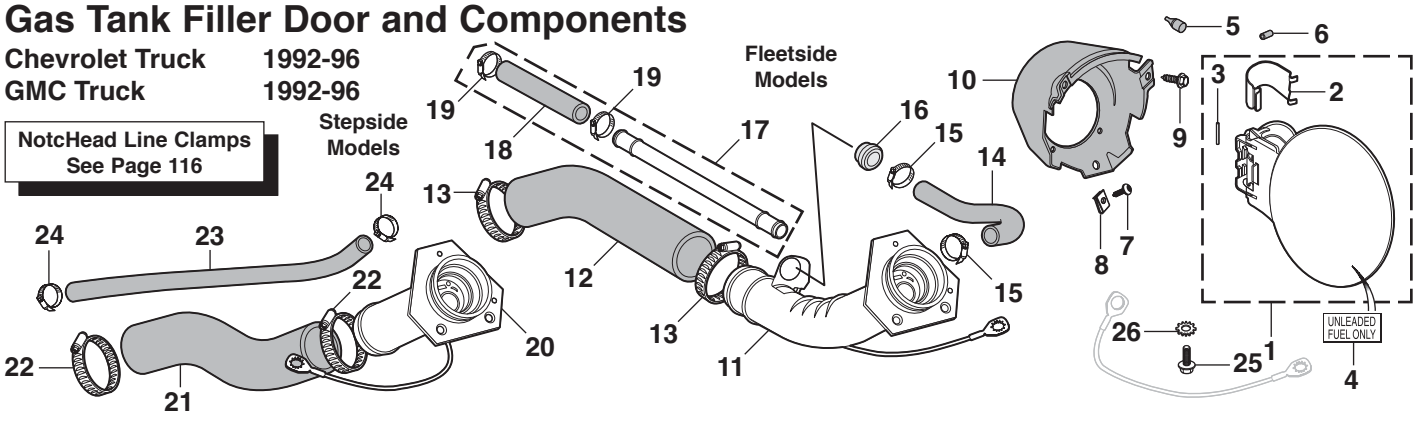

Fuel Pump Module Relocation Kit moves the fuel module up to 6 feet away from the injector pump to protect it from high temperatures and vibration, which can cause hard starting, stalling and hesitation. An aluminum heat sink mounts to the module to protect the sensitive electronics from excessive heat. Mounting hardware included.

Chevrolet Truck 1988-98
GMC Truck 1988-98

A Steering Stabilizer Kit is basically a horizontal shock absorber that helps to stabilize the steering system. The kit not only helps to stabilize the steering, but can also help in the prevention of "Bump Steer", when the steering wheel jerks suddenly as a result of hitting a pothole or object in your path. These kits will also help to reduce normal wear on vital suspension pieces, and make tires last longer. This kit is especially helpful for trucks whose original equipment tires have been replaced by larger or wider ones.

Heavy-Duty Steering Shaft Assembly

Chevrolet Truck 1988-94
GMC Truck 1988-94

Heavy-Duty Steering Shaft Assemblies are made from chrome moly steel billets and incorporate needle bearings for precise road handling. The universal joint uses sealed, permanently lubricated needle bearings making it maintenance free. This Assembly adds a measure of safety to the steering system with needle bearing U-joints and a telescoping shaft. If there is play in the steering system, your truck will have loose and vague steering. You may feel a looseness when you hit a bump or truck may wander in crosswinds. Order yours today!

Proudly made in the USA and carries a Five-Year/50,000 Mile Warranty (whichever comes first) against defects in materials and workmanship.

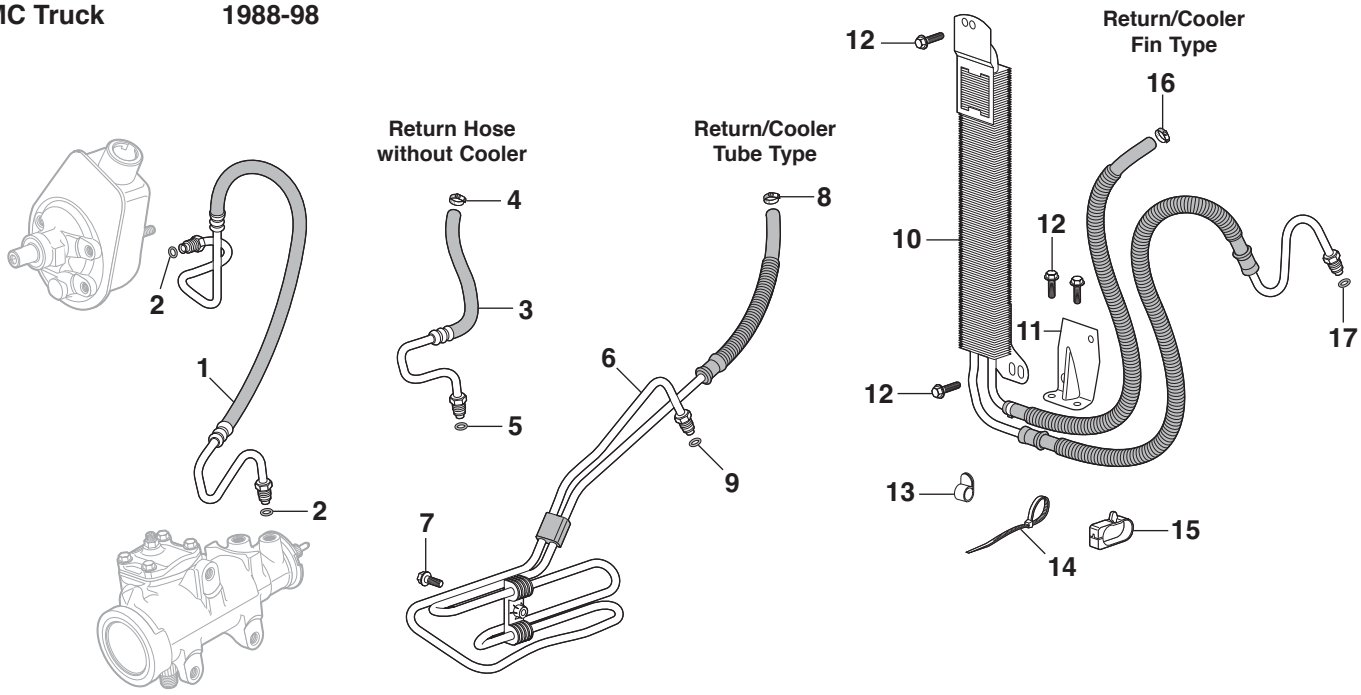

HD = Heavy Duty

Front Leveling Kit ... For Better Looks and Larger Tires

37-7630

37-7638

Front Leveling Kit lifts the front of a truck to match the rear for an improved level height and look. Adding a Front Leveling Kit is inexpensive and gives the extra space needed to accommodate larger tires on a truck. A modest front lift still maintains the factory ride quality and won't affect steering or suspension. Quick and easy bolt-on installation, the kit is designed to work with the original suspension with no need to change other components. Allows installation of up to 32" tires.

Performance Sway Bars Give You Bolt-On Handling and Control ... Drive Faster Through Turns with Improved Traction

% Increase in Resistance

Performance Sway Bar			
	1-1/4"	779%	418%
	1"	319%	171%
Stock Bar	3/4"		7/8"

Improve the handling ability and cornering traction of your vehicle with a Performance Sway Bar. Too much weight transfer in a corner destroys a vehicle's road-holding ability, causing the wheels to "drift" or "creep" sideways in the turn, resulting in poor handling and excessive tire wear. Sway bars give your vehicle the balance and stability it needs in curves, passing situations and uneven surfaces.

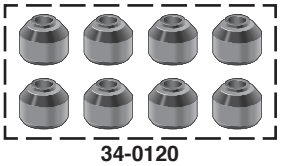

Performance Sway Bars are fully forged from hardened, high carbon steel and powder coated black for durability. Sway bars come with urethane end link and frame bushings. Brackets included for end link style attachment.

* After the sell price means Oversize Part Charge. Your order will incur a charge of $20.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

Sun Visor Set

Sun Visor Installation Tip: If your sun visor is loose on the rod and won't stay in the up position, bend the rod slightly to tighten the sun visor on the rod.

These Reproduction Sun Visors look like the originals, right down to the evenly stitched bindings. They are covered with a foam backed cloth material. There were 3 types of Sun Visor Brackets used on trucks from 1988-98. Please check yours before ordering.

1/8" Thick Molded Industrial Polyvinyl (MIP) Floor Mats

Available in

Black Gray

39-2770-BL

Heavy-duty Molded Industrial Polyvinyl (MIP) Floor Mats are made of durable 1/8" thick industrial Polyvinyl and are resistant to moisture and temperature; therefore, they will not dry rot or crack and last longer than rubber. They are vacuum molded from the original floor pan to cover the entire floor, making installation easy.

Mats are easy to clean and protect your interior from water, snow, mud and most chemicals. The MIP Floor Mat includes pre-cut 36 ounce jute padding under the passenger areas to provide a higher level of insulation against heat, cold and road noise.

Installation Tip: Allow mats to lay unfolded for 48 hours at room temperature of 72° or more to help remove creases caused by packing. Test fit prior to making any permanent installations (some trimming may be necessary).

Floor Liners ... Tough and Durable Protection for Your Truck

Front and Center Hump Floor Liners

Rear Floor Liners

Floor Liners protect your truck's carpet from water, snow, mud and most chemicals. Molded for an exact fit from a patented rubberized thermo-plastic material, guaranteed not to crack or break. Raised outer rim traps up to 2 gallons of liquid. Driver's side mat is equipped with an extra thick heel pad to offer heel protection and guard against wear in this high use area. Floor mats conform to the shape of your vehicle's floor and have an anti-slip back. Cleanup is easy, just wipe up small areas with a cloth or remove the mat and hose it off.

EVA Sound Deadener and Heat Shield Kit

EVA Sound Deadener Kit

The EVA Sound Deadener Kit is die cut for easy installation. Made from OE type, 1/16" thick Ethyl Vinyl Acetate (EVA) which is an asphalt based material used for sound dampening. Applies directly to the cab floor. Reduces road noise and cab harmonics to give you a quieter ride and also helps to insulate against heat and cold. To further insulate against heat and cold, use in combination with the Heat Shield Kit.

39-2776	EVA SOUND DEADENER KIT-2PC	CHEVY GMC 88-98 (1)	$49.95

Heat Shield Kit

Heat Shield Kit is die cut to match the EVA Sound Deadener Kit for easy installation. Consists of 1/4" thick, 24 ounce needle punched jute padding on one side which insulates against heat and cold. The other side has 2 layers of fiber reinforced aluminum foil reflecting up to 97% of radiant heat which helps to keep you warm in the winter and cool in the summer.

Installation Tip: To reach the maximum level of sound dampening and insulation, use Multi-Purpose Insulation #38-2829 to cover any areas not protected by the EVA Sound Deadener and Heat Shield Kits. Use #38-0798 Spray Adhesive, #38-0792 Weatherstrip Adhesive and #38-0716 Aluminum Tape to install sound deadener, heat shield and insulation.

Multi-Purpose Heat and Sound Insulation

Uses Space Age technology to insulate against heat, cold and noise under hoods, carpeting, headliners, door panels, firewalls or seats as well as other household uses. This 4-foot x 6-foot sheet is made of 3/8" sound deadening fiber padding. Highly reflective aluminum is bonded on one side to achieve 97% reflection of radiant heat. Use this Multi-Purpose Insulation with Sound Control Mat, page 56, for maximum sound deadening. Call or go online and order both today! Use #38-0798 Spray Adhesive and #38-0716 Aluminum Tape or #38-0792 Weatherstrip Adhesive to easily install Insulation Material.

Replacement Bench Seat Cushions

39-2375

Replacement Bench Seat Cushions are manufactured with a precision cold cure molding process that exceeds original quality and is fleet tested and reinforced with a tough Polypropylene mesh.

There were two types of bench seat cushions used from 1988-98. Check your truck before ordering to ensure that you order the correct cushion.

Without Exposed Support Springs: The seat cushion is molded around the support springs. No springs are visible underneath the seat. The cushion must be cut away from the support springs and the replacement cushion placed on top of the exposed springs.

With Exposed Support Springs: The seat cushion rests on top of the support springs visible underneath the seat. The cushion is removed and the replacement is placed on top of the springs.

Now You Can Be Sure All Your Interior Colors Match

ColorBond permanently changes the color of your interior. Sprays on and dries to the touch in 45 seconds, forming a complete bond in 10 minutes. Original grain pattern is never altered or hidden, no matter how many times ColorBond is applied. Will not crack, flake, peel or rub off from solid or flexible materials because the color becomes part of the surface.

#37-8370
$15.95

#37-8365
$15.95

ColorBond Spitshine Tire Black is a specially formulated paint, not a clear silicone dressing, designed to restore a military shine to faded and scuffed tires for a minimum of two months. Spitshine is not greasy or tacky, so it won't attract unsightly dirt and dust. Each 12 ounce can is easy to apply; first, clean tires of any existing dressings, silicones and dirt with ColorBond Prep/Cleaner. Mask the wheel or rim and apply in light coats. Reapply Spitshine Tire Black if tires become scuffed.

Not for use on tires with white lettering or sidewalls.

ColorBond Rally Wheel Paint is a specially formulated acrylic lacquer that provides a brilliant silver finish to the original rally wheels and withstands temperatures up to 250°F. Each 12 ounce can covers 6 square feet. ColorBond Prep/Cleaner should be used prior to applying ColorBond.

ABS Plastic Headliners ... The Long-Term Solution to Sagging Headliners

The original headliners are made of pressed foam board. Over time the headlining material separates from the foam board and falls down with the foam board usually deteriorated beyond repair. These ABS plastic-backed headliners are a simple, cost-effective, long-term solution to this problem.

Headliners are vacuum-formed ABS plastic covered with foam-backed cloth materials in colors that fit and function as original.

Highliner with Built-In Speakers ... For a Stereo System Above the Rest

Highliner uses four built-in, uniquely placed speakers which guarantee true stereo separation as well as less distortion and ensures clarity at lower volume levels by neutralizing the echo effect found in most pickups. Radio console is designed to accept optional aftermarket stereo cassette players, CD players or CB radios.

Highliner is manufactured from high-impact, leather-grained, black ABS plastic and can be painted to match the color of the interior. It installs easily and includes four 4" air suspension speakers with a 5.8 ounce magnet, which handles up to 10 watts of power. Features high-temperature resistant voice coils and comes with foam speaker baffle and suppression pads, antenna extension cable, bezel plate, installation hardware and instructions.

Shelf-It™ ... The Ultimate in Organized Convenience

Shelf-It™ Available in Black or Gray

Shelf-It™ is ideal for storing items within reach but out of sight. It is made of heavy-duty extruded aluminum and features a durable, soft, velvet-like finish. Installation is easy; simply remove sun visors and install mounting brackets in the existing sun visor holes. Mount Shelf-It™ to the brackets and then attach sun visors to the Shelf-It™; no drilling required. Shelf-It™ will install and function on models equipped with dual visors (two sun visors on each side) if the accessory visors are not re-attached.

Shelf-It™ will not work on models with overhead console.

Underhood Lamp Kit

36-4502

Underhood Lamp Kit adapts to any 12 volt truck and helps illuminate the engine bay. Necessary installation hardware is included. No need for wiring to a switch, bulb socket base is gravity activated; lamp comes on when hood is raised and goes out when lowered. Mount underneath hood and connect lamp wire to any constant hot vehicle wire. Moisture proof in-line fuse is integrated into wire for protection.

Installation Tip: Since all hoods and mounting locations are different, a slight adjustment to mounting bracket may be needed to assure light goes out when hood is closed. After mounting bracket and wires have been installed, apply pressure to the mounting bracket to change the angle as needed.

Superwhite Bulb Set Produces 30% More Light

Superwhite headlight bulbs produce 30% more light while retaining the street legal wattage. Superwhite bulbs use a proprietary mixture of premium gases that includes Xenon, which cools the light filament, improving the efficiency and light output of the bulb, unlike standard halogen bulbs which use less efficient argon gas.

Superwhite bulbs operate in the Kelvin color temperature range of 4000-4200K, producing a brighter, white light. Traditional halogen bulbs operate at 2600-3000K, emitting a more yellowish appearance. Sold in sets of two. Call or go online and order yours today!

Custom Chrome Front Bumper Lighted

LMC TRUCK EXCLUSIVE

Custom Front Bumpers are stamped from new tooling using OE-quality steel for strength and durability. Bumper is buffed and polished for a smooth defect-free plating surface. The Triple Nickel Plating process creates a brilliant, high-quality mirror-like finish. Bumper has a 5 Year Limited Warranty on rust-through perforations. Combination Fog/Driving Light Bumper is equipped with two 5-3/4" x 2" multi-surface reflector housing fog/driving lights. Lights are installed in the bumper, complete with all necessary wiring and installation instructions.

Lights have an aluminum die-cast housing and three-tier protective finish coating, which makes the housing corrosion free. State-of-the-art reflector, in combination with a strong semi-hardened crystal glass lens, gives maximum light output. Lights use a high efficiency halogen 12V 55W replaceable bulb and are OE quality, DOT and SAE approved and are legal for on-road use. Lights come with a 3 Year Limited Warranty on light assemblies (excluding bulb). Includes one illuminated rocker switch and one 12 volt relay.

For added style, replace the white halogen bulb with a halogen blue-coated bulb. The blue-coated bulb creates an intense white light which is popular in today's new cars and trucks. Get the cool look of HID (high intensity discharge) lighting without the high price; call or go online and order yours today!

*After the sell price means Oversize Part Charge. Your order will incur a charge of $20.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

All Chrome Grille Shell is assembled with Billet Aluminum Inserts already installed.

Billet Aluminum Inserts are bolt-on with no cutting and are made from the highest quality materials. Face edges of the billet insert are polished; sides and back have an EDP (Electro Deposit Primer) finish. Billet crossbars have been welded to V channels which give the inserts strength without the unsightly welds found on some aftermarket inserts. Emblem sold separately; mounting hardware included. Billet Aluminum Inserts come with a 2 Year Warranty.

Made Exclusively for LMC Truck, this engineer designed Special Edition Grille is made from precision machined tooling and is a blend of OEM and custom design to achieve unique and timeless styling for a Chevrolet or GMC truck. It is the next level beyond billet.

This rugged plastic all chrome grille is injection molded so there will be no bent or warped bars, no dull finish and no cumbersome brackets needed. Go from stock to style in minutes with easy installation. Grille bolts onto stock location using factory hardware.

Chevrolet Bowtie and GMC Emblems are available; sold separately.

Special Edition Grille will fit GMC models if corresponding 1988-93 or 1994-98 Chevrolet sidemarkers and reflectors are purchased. See pages 63 and 65 for Custom Sidemarker Sets or page 146 for stock replacement sidemarkers.

Tech Tip **Adhesive Roll Molding Tech Tip:** Use Vinyl Edge Sealer Pen #38-0921 on all cut ends to ensure maximum molding life.

Pre-cut, no hassle, ready-to-install truck molding with factory formed or factory die-cut end treatments. Clear top-coated chrome mylar moldings make your truck look new again. Each pre-cut section has 3M™ tape pre-attached for an easy installation. Due to varying option packages, modification of kit contents may be required for your truck.

Note: Door emblems cannot be attached to side molding.

LMC Truck Cover ... Who Knew Protecting Your Vehicle's Finish Could Be So Inexpensive!

LMC universal fit truck covers provide protection from the elements and are not affected by temperature extremes. In summer a cover keeps the interior cooler and helps protect from the sun's damaging rays, which can cause fading and deterioration. In winter it can keep the snow and ice off your glass and finish.

Fabric will not stretch, shrink, rot or mildew. Elastic is sewn in front and rear hems to ensure snug fit. Call or go online and order your truck cover today.

Antenna must be removed or an antenna grommet attached to your cover before use. See below for more information on antenna grommet.

Cowl Induction Steel Hoods ... Give Your Truck a High Performance Look

Cowl Induction Steel Hood helps cool the engine for increased airflow and increased performance. The outside cold fresh air carries a denser air/fuel mixture to an engine's combustion chambers than the warm underhood air. Hoods are made from primed high-quality steel with full inner frame that reuses original factory latch and hinges for an easy bolt-on application and must be painted.

Flexy-Flares™ ... To Cover Those Wide Tires

38-3208

Flexy-Flares™ provide protection from mud, dirt, gravel and salt and are a necessity in many states where wide tires must be covered by a fender. Constructed from EDPM synthetic rubber, they won't crack, peel or droop in extreme temperatures. These heavy-duty flares use a wire insert on outer edge for extra strength and added rigidity, and the built-in curvature allows the flare to fit the fenderwell without wrinkles or buckling. Flexy-Flares™ extend your fenders 3" and come with hardware packs for easy installation. **Set of 4**

Bed Mat and Tailgate Mat Protect Your Truck

Limited Lifetime Warranty

This rugged, virtually indestructible Bed Mat is made with 3/8" thick cord-reinforced rubber for optimum tear strength and protects the truck's bed against dents, scratches, chemical spills and shifting loads. Also available is the Tailgate Mat made from the same durable cord-reinforced rubber as the Bed Mat to protect against dents and scratches. Both Mats can be easily installed and removed. Requires minimal maintenance; cleanup is easy with soap and water.

The smooth, raised ribs running lengthwise ease loading and unloading; and the knobby underside promotes aeration and drainage to keep the truck's bed dry. A raised border around the perimeter of the mat improves appearance and definition. This is a custom molded mat with no trimming necessary. Tailgate mat includes mounting hardware.

Tuff Truck Bag

Tuff Truck Bag is heavy-duty to withstand the elements for all-season cargo protection yet lightweight and collapsible to allow for easy storage when not in use. Tuff Truck Bag can be set up and loaded into any truck bed within minutes, unlike the time required for a camper shell or tonneau cover installation.

- Made from weatherproof, waterproof, non-breathable PVC material with heat fusion epoxy sealed seams along all edges.
- Heavy-duty, commercial-grade zipper and waterproof PVC triple-fold flap that covers the zipper.
- Heavy-duty metal rings in all four bag corners (top and bottom) to retain the bag to the truck.
- Includes storage tote bag and four adjustable bungee cords.
- Provides 26 cubic feet (40"x 50"x 22") of waterproof storage for any truck bed.
- Can be used alone or in addition to existing storage boxes.

Tonneau Covers Save Gas and Protect Your Cargo

Tonneau Cover is made from heavy-duty vinyl attached to a black enameled aluminum frame which clamps to the truck's bed. No drilling needed. Frame does not attach to the tailgate so it can be opened as needed. Vinyl cover comes with a 10-year warranty and the frame has a lifetime warranty. Smooth, aerodynamic profile improves gas mileage by as much as 10%.

Tonneau Covers feature special reversible snaps, which allows adjustable tension to compensate for weather conditions. Position the snap stud low for a tight fit in hot weather or reverse the snap stud to high for looser fit in cold weather. Corners and snaps are backed with thick polymer. Strong and durable fiberglass reinforced nylon snaps will not break.

The large, adjustable bows help keep rain and snow out and are easily removed and reinstalled when hauling bulky items. Locking corners allow easy removal of the tail rail to haul longer loads.

Hinged Tonneau Cover design enables full access to the bed without unsnapping the entire cover. Simply unlock the polymer covered locking handles and lift the tonneau cover. Aluminum frame features stainless steel and brass snaps and locking corners allowing easy removal. The quick release front hinge makes removal of the entire cover and frame easy; or if the frame cannot be left, roll up the vinyl cover and secure with the convenient straps, then remove the bows and tail rail to haul that bulky load.

3-in-1 Truck Ties

Tie Down Anchors - See Page 21

37-7496

Tested to -20°F and 165°F, these 3-in-1 Truck Ties are made in the USA from durable nylon plastic and are designed to fit into the stake pockets of your truck in three different ways: by installing with the ring side facing the truck bed so multiple cargo straps can be used; with the cleat side facing the truck bed to keep tension in the rope each time it is looped around the tie; or by covering the load with a tarp over the stake pockets and inserting the truck ties into the stake pockets over the tarp (rated for highway speeds).

Ties can be installed and removed with no drilling or modifications necessary.

Switch-Ball™ Set and Cover

37-7433

37-7437

Switch-Ball™ Set - Constructed from premium grade steel with nickel-chrome plating, the Switch-Ball™ Set has an exclusive 'J' Groove design that ensures that the ball is installed on the shank and engaged by a coupler, making the hitching system safe and secure. Weight bearing capacity rests on shank to relieve stress away from the ball, thus freeing the coupler from friction and binding for a smoother and safer towing.

Change between three different trailer hitch ball sizes quickly and easily. No attachment pin to remove or tools required to switch ball sizes. Weight ratings for each hitch ball size are: 1-7/8" = 3,500 lbs., 2" = 6,000 lbs. and 2-5/16" = 8,000 lbs.

Switch-Ball™ Shank Cover provides protection from the elements when not in use.

4WD Actuator Harness Upgrade

Chevrolet Truck 1988-98
GMC Truck 1988-98

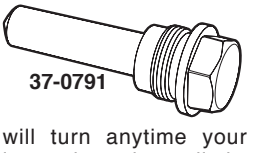

Upgrade your thermal actuator to a quicker, more dependable electronic actuator with this 4WD Actuator Harness Upgrade. Fits trucks equipped with a thermal front axle actuator using a two round pin connector. Electronic Actuator #37-0786, sold separately, is required to complete conversion.

PART	DESCRIPTION	PRICE
37-0777	ACTUATOR HARNESS UPGRADE	$54.95
37-0786	ACTUATOR-ELECTRONIC	$139.95

Front Axle Actuator Eliminator

Chevrolet Truck 1988-98
GMC Truck 1988-98

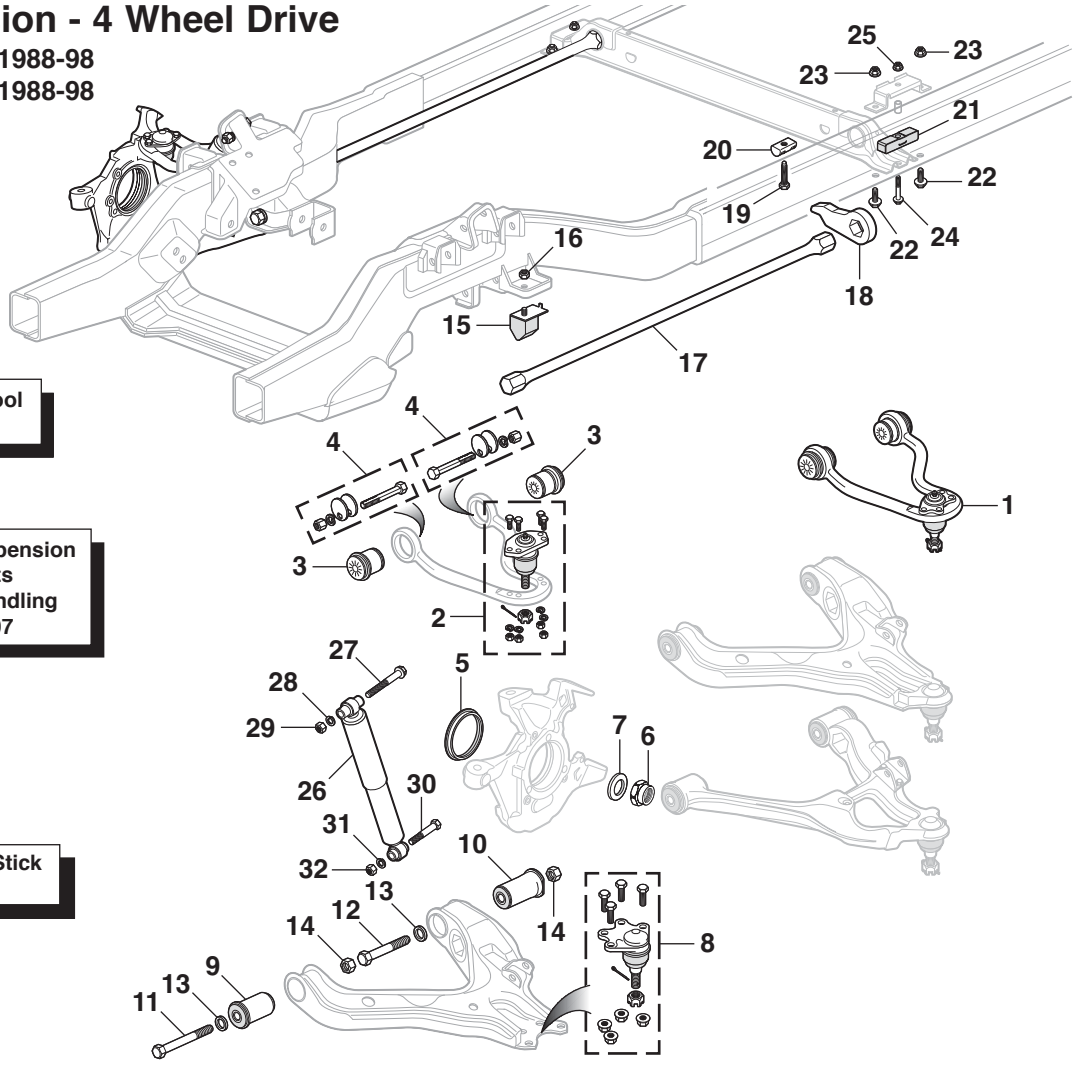

Four-wheel drive when you need it. With the actuator eliminator installed, the front driveline will turn anytime your front wheels are in motion, thus eliminating the lag time associated with thermal actuators and the need for forward motion to engage the 4WD system. The 4WD operating mode is still engaged and disengaged at the transfer case, on demand, by the driver. Call or go online and order yours today!

PART	DESCRIPTION	PRICE
37-0791	AXLE ACTUATOR ELIMINATOR "A"	$149.95

Note: "A" Fits models with thermal actuator.

3 Ways to Lower Your Truck

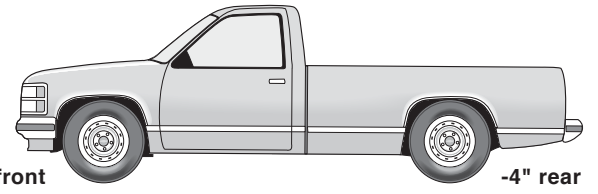

Factory Truck Stance

Drop is based on the original factory ride height as measured from the top of the wheel arch to the ground. Original ride height is approximately 2" higher in the rear. The stance (difference in height between the front and rear) is not affected when you lower the front and rear an equal amount. To make your truck look level you need to lower the rear approximately 2" more than the front.

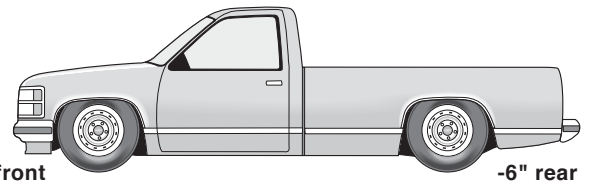

-2" front **-2" rear**

LOWER - Lower your truck with shorter Drop Coil Springs in the front and Spring Shackles in the rear. This is the most economical way to lower your truck.

-2" front **-4" rear**

DROP - Drop the front of your truck with Drop Spindles and the rear with Spring Hangers and Shackles. Drop Spindles are the best way to lower your truck because they do not affect other suspension components. Original front suspension geometry and ride quality are maintained.

-4" front **-6" rear**

SLAM - Combine Drop Spindles and Springs in the front with an Axle Flip Kit and C-Notch in the rear to take your truck as low as possible. We have the parts you need to slam your truck for a great look and a smooth ride. Take your truck to the maximum possible "lowness".

Note: If you are dropping the rear with an Axle Flip Kit and you have an extended cab, you will also need #37-8547 Carrier Bearing Relocator.

3" Body Lift Kit ... Makes Room for Larger Tires

KYB Shock Absorbers
See Page 49

A Body Lift spaces the body away from the frame to make room for larger tires without altering the suspension. Body Lift Kit includes reinforced nylon spacers, compression tested to 50,000 psi and plated grade 5 hardware. Since the stock suspension is not affected, and larger tires are normally part of the plan, new shocks are recommended.

PART	DESCRIPTION AND APPLICATION	REQD	PRICE
37-6503	3" BODY LIFT "A"B" CHEVY GMC 88-94 (1)		$259.95
37-6504	3" BODY LIFT "B"C"D" CHEVY GMC 95-98 (1)		$289.95

37-6541	REAR BUMPER RELOCATION KIT "E" CHEVY GMC 88-98 (1)		$99.95

Note: "A" Requires front bumper bracket kit #37-6540, sold separately.
"B" Will not fit models equipped with diesel engine.
"C" Front bumper brackets are included.
"D" Includes steering shaft extension.
"E" Rear bumper brackets are to enhance appearance only, bumper cannot be used for towing.

37-6503

Read This: Installation of a body lift will change the center of gravity and the handling characteristics of the vehicle. Because of the higher center of gravity and larger tires, the vehicle will handle and react differently both on and off road. You must drive it safely! Extreme care must be taken to prevent vehicle rollover or loss of control, which could result in serious injury or death. Avoid sudden sharp turns or abrupt maneuvers and always make sure all vehicle occupants have their seat belts fastened.

Drop Shackles and Spring Hangers

37-8528

37-8527

Order Parts Needed for Desired Drop
See Page 112

The Drop Shackle Set lowers the rear of your truck 1" or 2". This is the simplest way to lower the rear and is an easy way to make your truck look more level.

The Drop Spring Hanger Set replaces the original front hangers and drops the rear of your truck an additional 2". Combined with the Drop Shackle Set, you can drop the truck a total of 3" to 4". If you are dropping the rear 4" or more then you need shorter rear drop shocks listed below.

PART	DESCRIPTION AND APPLICATION	REQD	PRICE
37-8528	DROP SHACKLE SET-1"-2" REAR 2WD 1/2T	88-98 (1)	$49.95
37-8527	DROP SPRING HANGER SET-2" FRONT 2WD 1/2T	88-98 (1)	$139.95

Drop Spindle Sets

37-8507

Drop Spindles are the best way to lower the front of a truck without changing or affecting other components. Original ride quality and suspension geometry are maintained.

PART	DESCRIPTION AND APPLICATION	REQD	PRICE
37-8507	DROP SPINDLE SET-2" "A" 2WD 1/2T	88-91 (1)	$289.95
37-8508	DROP SPINDLE SET-2" "B" 2WD 1/2T	88-98 (1)	$289.95

Note: "A" For models equipped with 1" wide front brake rotors.
"B" For models equipped with 1-1/4" wide front brake rotors.

Drop Coil Spring Sets

Drop Coil Springs are a quick and easy way to lower a truck. Use just coils or combine with Drop Spindles for an even lower ride. If dropping the front of a truck 2" or more with coil springs then shorter front shocks are needed.

37-8518

PART	DESCRIPTION AND APPLICATION	REQD	PRICE
37-8517	DROP COIL SPRING SET-1" FRONT 2WD 1/2T	88-98 (1)	$169.95
37-8518	DROP COIL SPRING SET-2" FRONT 2WD 1/2T	88-98 (1)	$169.95

Drop Shocks ... For Lowered Trucks

37-8582

If dropping the front of a truck 2" or more with coil springs then shorter front shocks are needed. Drop Spindles do not affect suspension and do not require shorter shocks. If dropping the rear 4" or more then shorter rear shocks are needed.

PART	DESCRIPTION AND APPLICATION	REQD	PRICE
37-8582	DROP SHOCK-FRONT 2WD 1/2T	88-98 (2)	$59.95
37-8592	DROP SHOCK-REAR 2WD 1/2T	88-98 (2)	$59.95

Axle Flip Kit and Frame C-Notch Kit

The Axle Flip Kit repositions the rear leaf spring below the axle for a 6" drop. You will also need the Frame C-Notch Kit for suspension travel. The C-Notch Kit requires cutting and drilling your frame. If you have an extended cab you will also need the Carrier Bearing Relocator. If you are dropping the rear 4" or more then you need shorter rear drop shocks.

Front Slotted Cross Drilled Rotors

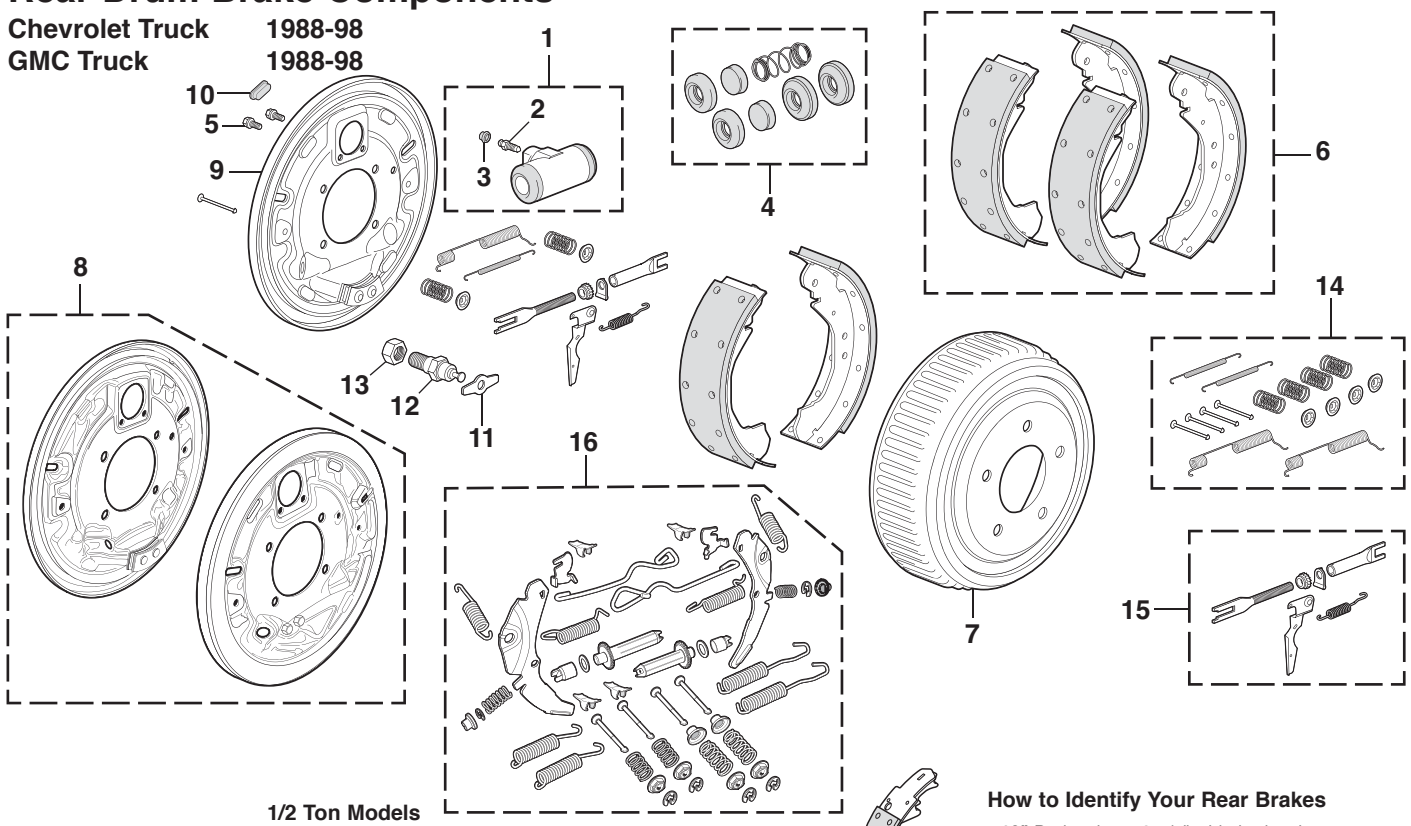

Slotted Cross Drilled Rotors provide shorter stopping distances, lessen fade and improve wet-weather braking. Chamfered cross-drilled holes allow built-up heat and gasses to dissipate, lowering the temperature to prolong rotor and pad life. Slots deglaze the brake pads, reduce brake fade and minimize brake dust.

Stainless Steel Brake Hose Sets

34-4582

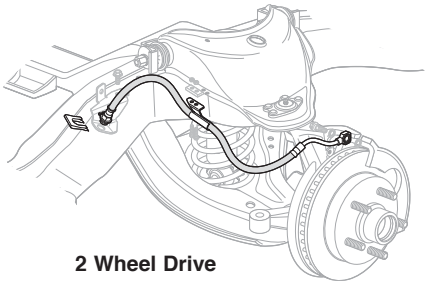

Stainless Steel Brake Hoses feature stainless steel braided hose with factory assembled, zinc-plated fittings. These hoses increase braking performance and reduce pedal travel by eliminating hose expansion common to rubber hoses. Each set comes with all necessary hardware and fittings.

NotcHead Line Clamps

30-1731

30-1736

NotcHead Line Clamps organize both hard and soft lines and clamp them in place to keep from being chafed on sharp edges or crushed under moving components. Easily secure lines without marring paint. Can also be used as separators for running hoses in parallel by bolting two line clamps together. Flexible lines easily snap in for quick installation and mock-ups. Mounting hardware included in each kit.

Disc Brake Proportioning Valve and Switch Connector

Chevrolet Truck 1988-94
GMC Truck 1988-94

The Proportioning Valve helps prevent premature rear wheel slide by limiting the amount of increase in hydraulic pressure passed to the rear brakes. This prevents the rear brakes from locking up before the full effective braking effort is produced by the front disc brakes.

How to Identify Your Rear Brakes

10" Brakes have 2-1/4" wide brake shoes.

Front Differential Cable Lock Kit ... Cures Slow to No-engagement Blues !

Not Just an Accessory, It's a Necessity

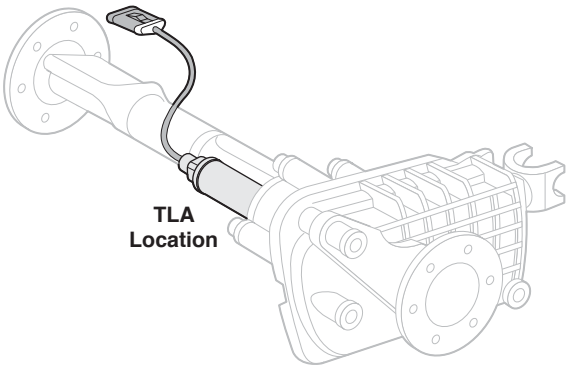

36-1585

Works like hubs with full control from inside the cab without stopping, in any temperature. Will not disengage when ignition is turned off or if differential is submerged in mud, water or snow. Two-wheel drive low range benefits from bind-free steering AND high rear axle torque. This feature is not available with factory systems and is beneficial when maneuvering trailers. Reduces front differential wear and right axle breakage.

PART	DESCRIPTION AND APPLICATION	REQD	PRICE
36-1585	DIFFERENTIAL LOCK KIT "A" 6 LUG 4WD	88-98 (1)	$169.95
36-1586	DIFFERENTIAL LOCK KIT "A" 8 LUG 4WD 3/4T	88-98 (1)	$169.95

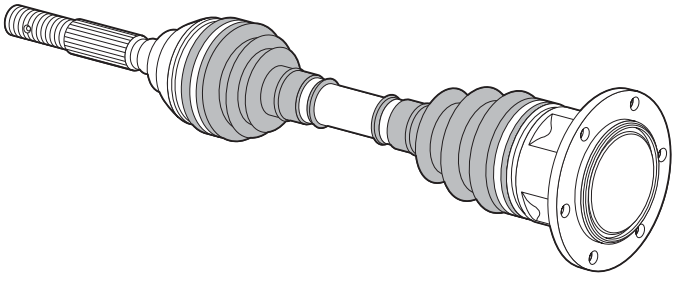

Note: "A" Does not fit 1998 models equipped with Auto-Trac transfer case. Rear of transfer case is stamped #NP246. These models are equipped with a large electric motor instead of a TLA.

The factory system uses a TLA (Thermal Linear Actuator) to engage the front axle, which is a heat-activated plunger that is prone to failure and takes longer to engage when cold outside. Differential Lock Kit replaces the TLA with a cable-operated system, guaranteeing four-wheel drive engagement every time. A one-inch pull of the Differential Lock Kit cable ensures having four-wheel drive when needed.

Differential Lock Kit is compatible with manually (lever) or electrically (push button) engaged transfer cases. Easily installed in one to two hours with basic hand tools. No internal axle or differential work required.

Oil Pump Priming Tool

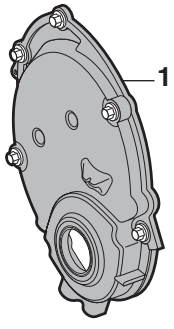

38-1308

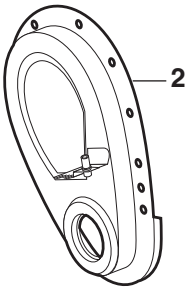

Before starting a new or rebuilt motor for the first time, it's critical to prime the lubricating system to prevent premature wear. Failure to pressurize the oil could result in a dry start that can cause camshaft, bearing and/or piston ring failure. An Oil Pump Priming Tool makes this process easy — just remove the distributor, insert the priming tool and turn it clockwise with a 3/8" drill. The tool has a machined aluminum collar that simulates the distributor and helps to eliminate damaging side loading of the oil pump drive while priming.

Harmonic Balancer Puller
Removes harmonic balancer from engine without risk of damage. Four-slot, heavy-duty yoke handles any pulling job. Extra-long center screw is machined for use with included adaptor tip that centers puller on crankshaft for quick and damage-free removal. Includes five sets of hardened, flange-head bolts in standard and metric thread sizes for most engines. Order today!

Harmonic Balancer Installer
Threaded forcing screw uses a bearing to easily slide harmonic balancer into place. Includes five standard and seven metric threaded adaptors for use on a wide range of engines.

38-4347

IMPROVES GAS MILEAGE

Kits are easy to install with no drilling, cutting or fabrication, usually in 30 minutes or less.

Air Intake System provides more than twice the airflow of restrictive OE-style filters and gives improved performance by increasing airflow, better throttle response and acceleration and will boost horsepower and torque. Features washable, reusable high-volume, cone-style filter and chrome-plated aluminum tube for durability and style.

38-4304

Increase an engine's potential with these new Cold Air Intake Kits. The more air the engine can take in, the more usable horsepower and torque throughout the engine's power range. It is designed to replace the stock air filter and inlet tube and features a washable, reusable high-flow conical-shaped filter that has deep pleats wrapped with a strong wire mesh for added strength, durability and excellent filtration properties. A custom air box is used to keep loose dirt and turbulent engine air out of the system, lowering intake air temperature to help increase performance.

Kit includes easy-to-use instructions for a quick installation.

Throttle Body Spacer

Improve performance and fuel economy … The Throttle Body Spacer causes the fuel to travel further, which improves fuel dispersion making it easier for the fuel to ignite and burn thoroughly. Receive increased throttle response, a 10-15% improvement in torque and gas mileage increase of up to 8%. Easily installs between intake manifold and throttle body injection unit. Will not affect computer function.

Fuel Line Extension Set lengthens the fuel lines and is recommended for easier installation of throttle body spacers.

Powr-Flo Throttle Body Spacers

Powr-Flo Throttle Body Spacers are CNC-machined from billet aluminum and feature a bore engineered to increase velocity of airflow into intake manifold. This allows more air to reach combustion chamber for denser air charge and increase in fuel efficiency. The result is improved throttle response and power gains in mid-range and upper rpm operating ranges. Includes gaskets, hardware and instructions for a simple, bolt-on installation with no other vehicle modifications required.

JET Adjustable Fuel Pressure Regulator Kit

The JET Performance Adjustable Fuel Pressure Regulator Kit is a direct replacement for the factory unit and contains a billet adjustable fuel pressure regulator with a steel insert on the adjuster to prevent stripped threads. Includes all necessary gaskets and a heavy-duty replacement diaphragm. The fuel pressure regulator kit allows for precise tuning of fuel pressure to accompany other performance modifications such as performance air filters, air intake kits, exhaust system modifications, throttle body spacers, performance camshafts and intake manifold upgrades, etc. Restores lost performance due to a worn out stock regulator. Kit reuses factory spring.

Shorty Headers ... Bolt-On Power and Performance

Also available with a black painted finish.

Shorty Headers are an easy, bolt-on installation that connects to stock Y-pipes and adds power and performance to your truck. They are made from mandrel-bent, 16-gauge tubing for durability and feature milled CNC-machined thick steel flanges for a better seal.

The ARMOR Coat finish is a high-temp, metallic-ceramic coating that won't discolor like paint, chrome or dull finish coatings; it reduces under-hood temperatures, resists corrosion and is easy to keep clean.

Cat-Back and Muffler-Back Performance Dual Exhaust System with Resonator Tips

Exceptional Sound With Increased Horsepower

These performance Dual Exhaust Systems have a straight-through design that reduces back pressure for more low-end torque, increased horsepower and better fuel economy. Manufactured from 16-gauge, mandrel bent aluminized steel, increasing flow up to 20% more than stock. Exhaust systems have 3-1/2" diameter resonator tips that replace the original muffler. Easy bolt-on installation, no welding required. Hangers, fasteners and steel clamps are included. Exhaust exits the rear of truck.

Header Wrap

Increase performance by keeping hot exhaust gasses inside the headers for maximum velocity, improved exhaust scavenging and protecting sensitive engine components from high temperatures.

Header Wrap is able to withstand temperatures up to 1,200°F and is made from vermiculite-coated, textured fiberglass yarn woven into a strong, flexible wrap that can easily be cut with scissors.

Available in 25 or 50 foot rolls of 1" or 2" widths. Two 50 foot rolls of 2" wide are generally enough to wrap standard V8 headers. Stainless steel locking cable ties keep the wrap securely in place. *Header Wrap can void warranty of some headers. Check header manufacturer's warranty before installing.*

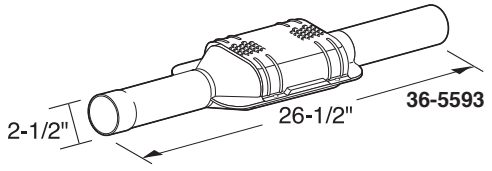

Headers with tight bends should use 1" wide wrap for coverage. Overlap wrap 1/4" for optimum heat dissipation.

Dual Electric Cooling Fan Assembly provides increased horsepower and improved MPG. Electric fans provide increased cooling at idle when needed most and eliminate the draw of a mechanical engine-driven fan. Increased airflow across A/C condenser gives cooler, more consistent A/C temperatures at low engine speeds.

Dual Electric Fan Assemblies have a quiet S-blade design and include a wiring harness, relay, adjustable fan temperature switch and installation instructions.

A/C Cooling Fan Harness activates the electric cooling fan when the A/C compressor clutch is engaged. Kit includes heavy-gauge wire harness, relay, 30 amp fuse, electrical connections and installation instructions.

33-2564	17" H	x 34" W	x 2" D	• 2 Row	W/EOC

Radiator Core Size: The height and width of the central part of the radiator, between the tanks and the side pieces. Consists of parallel rows of tubes and fins.

Rows: The number of rows refers to the number of parallel rows of tubes in the core.

Engine Oil Coolers: Some models were originally equipped with an Engine Oil Cooler mounted in the radiator. On models not originally equipped with an Engine Oil Cooler, the oil cooler portion of the radiator is simply not used.

Tech Tip

A seized A/C compressor renders your vehicle inoperable. Alleviate untimely and expensive air conditioning repair bills with an A/C Bypass Pulley. Remove A/C compressor, install A/C Bypass Pulley and original size belt, and then you are back on the road.

A/C Hose Assemblies may vary in appearance from illustration depending on your truck's model.

1990 Air Conditioning Note: In 1990 there were two different A/C configurations.

1st Design: Lower A/C condenser tube has a female fitting and the orifice tube is located near the evaporator.
2nd Design: Lower A/C condenser tube has the orifice tube and a male fitting.

Core Refund Information - A/C Compressor: A rebuildable core will have no cracks or other damage to the case or mounting locations. The drive shaft of the compressor must turn at least three full revolutions. There must be some degree of suction and discharge pressure present, this can be checked by covering the suction and discharge ports with your fingers while rotating the compressor shaft. If it does not meet the above standards, it is not rebuildable and will not be refunded. DO NOT send a non-rebuildable core.

Underhood Lamp Kit

36-4502

Underhood Lamp Kit adapts to any 12 volt truck and helps illuminate the engine bay. Necessary installation hardware is included. No need for wiring to a switch, bulb socket base is gravity activated; lamp comes on when hood is raised and goes out when lowered. Mount underneath hood and connect lamp wire to any constant hot vehicle wire. Moisture proof in-line fuse is integrated into wire for protection.

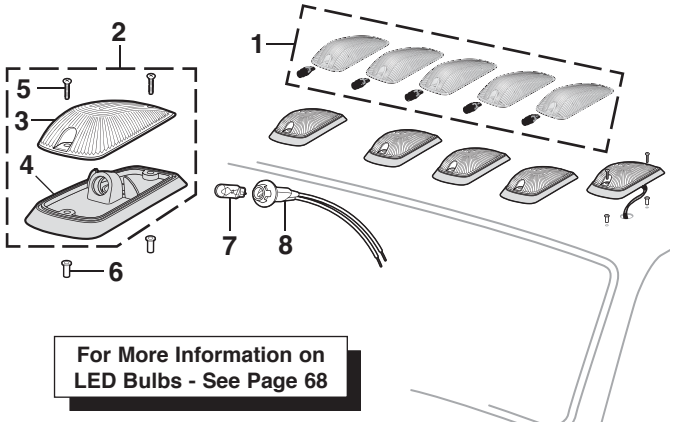

Installation Tip: Since all hoods and mounting locations are different, a slight adjustment to mounting bracket may be needed to assure light goes out when hood is closed. After mounting bracket and wires have been installed, apply pressure to the mounting bracket to change the angle as needed.

Driving Light Set

38-1274

Driving lights provide a longer, more focused beam pattern for improved long-range vision. Features include reinforced steel housing with black finish and adjustable chrome mounting bracket with 10mm mounting stud; and state-of-the-art reflector which gives maximum light output from a 4-1/2" diameter light. Lights are complete with illuminated push button switch, 12-volt relay, all necessary wiring, mounting hardware, protective lens covers and high efficiency halogen 12V 55W replaceable bulbs.

For added style, replace the white halogen bulb with a halogen blue-coated bulb. The blue-coated bulb creates an intense white light which gives the cool look of HID (high intensity discharge) lighting without the high price.

What You Need to Know Before Ordering:

We are excited that you've decided to make us a part of your journey! Whether you are rebuilding from the ground up or just adding some distinctive touches to your vehicle, we are proud to give you a hand.

In addition, we'd love to see what you've been up to with your projects, so please log on to lmctrucklife.com and share your stories and pictures.

Understand that we are not trained automotive technicians. We want you to consult with mechanics regarding technical advice. Technical information is also included in the workshop manuals shown in this catalog. Please take the time to consult these resources if you feel you need to.

On those occasions that we've run out of a part on your order, chances are that it's already on its way to us. These items are listed as backordered on your invoice and will be sent your way as soon as possible. If you're not interested in waiting for your backordered product, just call our customer service line at (800) 562-8782, and we will cancel it and refund any money that has been paid.

You can also write "No Backorders" on your order form before you send it to us, and we'll make sure only to ship the products we currently have in stock.

Some parts have extra charges. Please consult below to make sure you understand these charges and so you aren't surprised later.

Part Number Definitions

-T - After a part number means that part must be shipped Truck Freight. The prepaid order will include a $125.00 charge for delivery in the 48 contiguous United States. Orders outside of 48 states will be quoted. Due to packing and/or transportation requirements, please allow additional time for delivery.

***** - After the sell price means Oversize Part Charge. Your order will incur a charge of $20.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

-Z - After a part number means Remanufactured Part. Core charge will be applied then refunded after receipt of a rebuildable core.

-R - After a part number means Remanufactured Part. No core charge.

And one more thing, the part our lawyers make us say: We reserve the right to refuse service or shipment to anyone. We reserve the right to collect a service charge of $20 for a returned check and to hold any shipments until the fee is collected.

Thank you for your support. Best of luck with all your projects!

What You Need to Know Before Returning:

If only we lived in a perfect world! Unfortunately, we don't, and things can go wrong. When that happens, we do our best to try to make things right again. But we need your help as well.

All returns must be in like new condition and in the original packaging. Please include a copy of your invoice, as that will make the process quick and easy.

We refund your payment the same way you paid. Refunds of less than $1 will not be made except by customer request.

We can't be responsible for damages, so please package your returned items carefully.

If you can ship the item back to us UPS or USPS within the 48 contiguous states, you don't need to call for authorization. Just send it to us at:

14600 W. 107th Street, Lenexa, KS 66215

If we shipped you the wrong item, send it back, and we'll send the right item and reimburse you the UPS ground rate for your return.

We can't accept anything that has been installed (unsuccessful attempts do count), disassembled, drilled, welded, cut, painted, or modified in any way, so please make sure to check and doublecheck the fit before starting any work.

If you are returning a kit, it needs to contain all the parts you received. No partial kits may be returned.

Electronic media (CDs, DVDs) cannot be refunded once they are opened. However, if it is not working properly, it can be exchanged for the same part number.

Please call our customer service line for a return authorization if your part was delivered outside of the 48 contiguous United States.

If you want to return something you bought over a year ago, please call our customer service line for return authorization.

You must call Customer Service when returning a Truck Freight item.

Customer Service Line: (800) 562-8782
¿Habla Español? (855) 456-2288

A 20% non-refundable restocking fee will be added to anything that's over a year old (unless the extended manufacturer warranty is still in effect, of course) as well as to any unauthorized Truck Freight returns.

And the legal part again: We have the right to refuse any return we deem unfit for resale. We also have the right to refuse any shipments where the shipping charges, duties, customs, etc., are not prepaid.

We will not accept C.O.D. returns.

What You Need to Know About Shipping within the 48 Contiguous States

We do our best to keep our shipping charges as low as we can. However, some items we carry need some extra space or special handling, so these may require extra charges to ensure they get to you in the most reliable, safest way. Please check your shipment as soon as you can to make certain that everything is accounted for and nothing is damaged. We do everything in our power to ensure your product arrives undamaged.

Shipping charges are based on the "Parts Total" on your order. This chart shows the basic charges for Ground, 2nd Day Air (for delivery the second business day after the order is placed), and Next Day Air (for delivery the next business day) for shipments to the contiguous 48 states. Exceptions are listed below. Limitations may apply.

If you are ordering Oversized Parts (indicated with a * throughout this catalog), or if you are placing an extra large order, please allow for extra packing and delivery time.

In order to qualify for the free Ground shipping or free Truck Freight, your entire $1000+ order must be placed at one time. We may have to split your shipment, but we will pick up the shipping charges.

If you want delivery by 2nd Day or Next Day Air, your order must be in by 3 p.m. Central Time, Monday through Friday. This service is available only within the 48 contiguous states and not allowed to P.O. boxes or APO/FPO addresses. There are some limitations on what we can ship by air, based either on size of the products or the items themselves (ORM, Other Regulated Material, such as adhesives are not allowed on air shipments, for example). Oversize Parts (*) are not available for air delivery. Delivery can't be guaranteed on holidays. Backorders will be shipped ground when those products arrive at our warehouse unless other arrangements are made.

If you'd like Saturday delivery and are within the contiguous 48 states, we must receive your order by 3 p.m. Central time on Friday. A $15 charge will be added to your Next Day Air charge. Unfortunately, this service is not available in all areas or with all addresses. Please call our customer service line for assistance with Saturday delivery. Truck Freight and Oversized Parts are not available for Saturday delivery.

Customer Service Line: (800) 562-8782

If you are shipping within Kansas, you will be charged state and local taxes. This also applies if you pick up your order in person at the City Counter, unless you have a Kansas State Resale Exemption form on file with us.

C.O.D.s are allowed, under these conditions: There is a $12.50 fee for all C.O.D.s. You must pay by cashier's check or money order at the time of delivery. You must provide a delivery address where someone will be available 8 a.m. to 5 p.m. the day of delivery. No Truck Freight items, APO/FPO addresses, Air Delivery, or postal delivery orders. Undelivered or refused C.O.D. orders will flag your account, and future deliveries must be prepaid.

What You Need to Know About Shipping to APO and FPO Addresses

We are thrilled to be able to ship to those who are serving our country; however, there are some limitations on these shipments. We are unable to ship C.O.D. orders or Truck Freight items to you at this time. All orders will be shipped complete, via Insured Priority Mail through the USPS. Size limitations will apply. Please make sure before you place your order that what you are ordering will be accepted and is deliverable to you in your location.

What You Need to Know About Shipping *USPS Priority Mail* to Alaska, Hawaii and the U.S. Territories

This chart shows shipping charges on orders up to $500 that qualify to ship USPS Priority Mail. Parts must be 108 inches or less and weigh 70 pounds or less to qualify for USPS Priority Mail. If any part does not meet these qualifications, your order will be delivered by ground for additional charges.

❖ You will be contacted with charges.

All orders will ship complete. Any additional delivery charges will be added to your total as needed, including Oversize Part charges or overweight charges.

We will need a daytime phone number with your order. If there is a problem with your order, we will attempt to contact you three times. If we are unsuccessful, your order will be cancelled 5 days after that third failed attempt.

What You Need to Know About Shipping to Canada

Your orders will be shipped UPS "Door to Door," which includes brokerage, duty and tax. Charges will be based on the value of your shipment. Document and preparation fees are included. Please call our customer service line for assistance.

What You Need to Know About Shipping Internationally

All of our international orders ship complete. All charges must be prepaid in U.S. funds, including all transportation, brokerage, duties, taxes, and fees associated with your order. We do not accept personal checks on international orders.

What You Need to Know When Shipping Problems Occur

Please open your package(s) as soon as possible and make certain that everything is accounted for and nothing was damaged in shipment. Damaged shipments are the responsibility of the carrier and must be reported to the carrier within 15 days of receipt.

If the package looks damaged when it arrives, open it with the delivery person present, so that they can make an immediate report of damages and discrepancies. If the damage is not obvious at the time of delivery, or if the package was left for you by the shipping company, contact their customer service as soon as possible to make your claim.

On Truck Freight shipments, it is your responsibility to check your order and have the driver note any damage on the freight bill before you sign for your item(s).

Please keep all packing, packaging and contents until your claim has been settled with the shipping company.

What You Need to Know About Shipping a Rebuildable Core Part

Without the constant inflow of rebuildable cores, items can become discontinued and unavailable.

Some items carry a Core Charge which can be reimbursed by your sending in a core that can be rebuilt into a usable part for someone else. These items are marked throughout the catalog with a –Z in the part number. In order to get your Core Charge refund, the part you send in must be clean, complete and rebuildable according to the standards set on that item's catalog page.

Please send us the core part back with a copy of your invoice. If your core is acceptable, we will refund your money in the same way that you paid the Core Charge plus any shipping charges. To be reimbursed for your core return shipping charges, please include a copy of your shipping receipt.

We will not accept C.O.D.s on cores. However, we appreciate your willingness to participate in this program.

Rust Free!

Josh Watson, Research Product Analyst at LMC Truck, and His 1998 Chevy K2500

It all started shortly after selling my 1998 K3500 crew cab longbed in search of something to downsize into. When I came across an internet ad for a black 1998 K2500 extended cab longbed, I had to go look at it. Upon first sight, it looked like it had sat in a swamp for a few years. The hood, roof and windows were all covered in a sort of moss. A quick once-over of the truck revealed it was a RUST-FREE, original paint truck! Most people know, the '88-'98 trucks came from the factory with the rust option.

Being that the truck was rust free, I decided to spend a little more than I should have for a truck with solid cab corners, rockers and bedsides. Only later did I find out the truck had sat in an impound lot for three years. Since then, I've done a little mechanical work under the hood, refreshed the braking system and changed every fluid. Newer model HD wheels with brand new mud tires were added. Most of my time has been spent in the interior, which was totally removed and replaced with cloth upholstery.

Now I've got a very solid daily driver that doesn't have a problem making the 68-mile round-trip commute each day to work or working pulling other project '88-'98 trucks home.
