

3. Sunroof Lid

A: REMOVAL

- 1) Completely close the sunroof lid, and then open the sunshade.
- 2) Remove the four covers (A), and then remove the eight nuts.

- 3) Remove the sunroof lid carefully.

B: INSTALLATION

Install in the reverse order of removal.

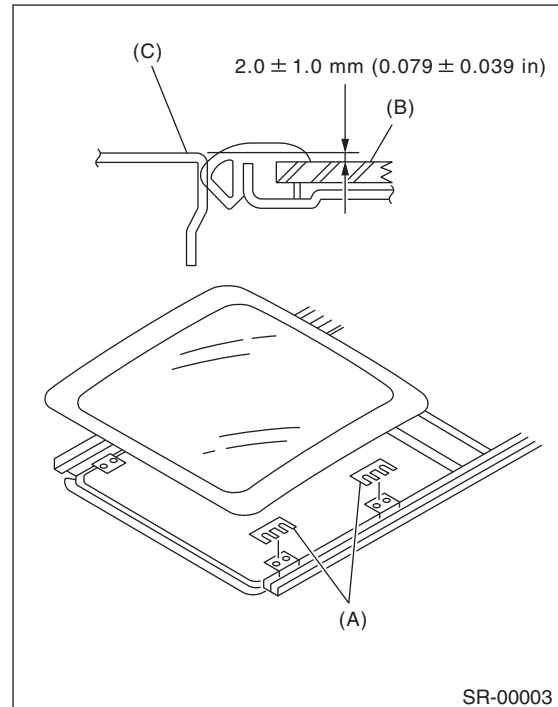

C: ADJUSTMENT

Adjust the height between sunroof lid and roof panel.

Loosen the sunroof lid nuts, and then adjust the height by adding (max: four pieces) or extracting (min: zero pieces) shims (normally two pieces) which are installed between the sunroof lid and the roof panel.

Difference in height between sunroof and roof panel

$2.0 \pm 1.0 \text{ mm}$ ($0.079 \pm 0.039 \text{ in}$)

- (A) Shim
- (B) Sunroof lid
- (C) Roof panel
