GENESIS BRANDED VEHICLE OWNER PRIVACY POLICY

Your Genesis Branded Vehicle may be equipped with technologies and services that use information collected, generated, recorded or stored by the vehicle. Genesis Branded Vehicle has created a Vehicle Owner Privacy Policy to explain how these technologies and services collect use and share this information.

You may read our Vehicle Owner Privacy Policy on the [genesismotorsusa.com](https://www.genesismotorsusa.com/privacy-policy.html) website at:
<https://www.genesismotorsusa.com/privacy-policy.html>

If you would like to receive a hard copy of our Vehicle Owner Privacy Policy, please contact our Genesis Customer Care at:

Genesis Customer Care
PO Box 20850
Fountain Valley, CA 92728
844-340-9741
customercare@genesismotorsusa.com

Genesis Customer Care representatives are available Monday through Friday, between the hours of 5:00 AM and 7:00 PM PST and Saturday and Sunday between 6:30 AM and 3:00 PM PST (English).

For Genesis Customer Care assistance in Spanish or Korean, representatives are available Monday through Friday between 6:30 AM and 3:00 PM PST.

Thank you for purchasing this DIS Navigation system.

This user's manual explains how to use the GENESIS DIS Navigation system.

Before using the product, read the contents of this user's manual carefully and use this product safely.

- The screens shown in this manual may differ with the actual screens of the product.
- The design and specification of this product may change without prior notification for product improvement.
- When transferring the vehicle to another individual, include this user's manual so that the next driver can continue its use.

All Map Database cannot be copied without permission.

Important Notice: This is protected by U.S. copyright laws. All rights not expressly granted are reserved.

You may not otherwise reproduce, modify, and distribute the content without Hyundai MnSoft, Inc's prior written consent.

Precautions for Safety

Notations used within this User's Manual

The lightning flash with the arrowhead symbol within an equilateral triangle is intended to alert the user about the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

Always operate the vehicle in a safe manner. Do not become distracted by the vehicle while driving and always be fully aware of all driving conditions. Do not change settings or any functions.

Pull over in a safe and legal manner before attempting such operations.

To promote safety, certain functions are disabled unless the parking brake is on.

To reduce the risk of electric shock, do not remove the cover or back of this product. There are no user-serviceable parts inside. Refer servicing to qualified service personnel.

To reduce the risk of fire or electric shock, do not expose this product to dripping or splashing water, rain, or moisture.

When driving your vehicle, be sure to keep the volume of the unit low enough to allow you to hear sounds coming from the outside.

Do not drop it and avoid heavy impacts at anytime.

The driver should not watch the monitor while driving. If the driver watches the monitor while driving, it may lead to carelessness and cause an accident.

Precautions for Safety

CAUTION:

This product uses a Laser System.

To ensure proper use of this product, please read this owner's manual carefully and retain it for future reference. Should the unit require maintenance, contact an authorized service center. Performing controls, adjustments, or carrying out procedures other than those specified herein may result in hazardous radiation exposure.

To prevent direct exposure to laser beam, do not try to open the enclosure. Visible laser radiation when open. DO NOT STARE INTO BEAM.

WARNING:

- Don't use a cellular phone when you are driving. You must stop at a safe place to use a cellular phone.
- The use of the navigation radio by no means relieves the driver of his/her responsibilities. The highway code must always be observed. Always observe the current traffic situation.
- The applicable traffic regulations and the prevailing traffic situation always take precedence over the instructions issued by the navigation system if they contradict one another.
- For traffic safety reasons, use the navigation system menus only before starting a journey or when the vehicle is stationary.
- In certain areas, one-way streets and turn off and entry prohibitions (e.g. pedestrian zones) are not recorded. In areas such as these the navigation system will issue a warning. Pay particular attention to one-way streets and turn off and entry restrictions.
- The navigation system does not take the relative safety of the suggested routes into consideration. Road blocks, building sites, height or weight restrictions, traffic or weather conditions or other influences which affect the route safety or travel time are not taken into consideration for the suggested routes. Use your own discretion in order to decide on the suitability of the suggested routes.
- The current legal road traffic speed limit always takes priority over the values saved on the data. It is impossible to provide an assurance that the speed values of the navigation system will always match those of the current traffic regulations in every situation.
- Always observe the applicable legal speed limits the traffic regulations. The vehicle speedometer must always be given priority for display of the vehicle speed.
- Do not rely exclusively on the navigation system when attempting to locate an emergency service (hospital, fire service etc.). It cannot be guaranteed that all available emergency services in your vicinity are saved in the database. Use your own discretion and abilities to secure help in such situations.

Precautions for Safety

CAUTION:

- Do not keep the navigation system running with the engine stopped. Doing so may discharge the vehicle battery. When you use the navigation system, always keep the engine running.
- When the driver wants to operate the navigation system, first park the vehicle in a safe location and set the parking brake. Operating the system while driving can distract the driver and may result in a serious accident.
- Do not disassemble or modify this system. If you do, it may result in accidents, fire, or electrical shock.
- Some states/provinces may have laws limiting the use of video screens while driving. Use the system only where it is legal to do so.
- Do not use your phone in private mode when you are driving. You must stop at a safe location to use it.

FCC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the manufacturer (or party responsible) for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

IC Warning

"This device complies with Industry Canada licence-exempt RSS standard(s)."

Operation is subject to the following conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Press to move to the [Navigation] menu screen.

7. MAP/VOICE button

- Press to display the map screen of the current location.
- Press to repeat the voice guidance.

8. MENU button

Press to move to the pop-up menu in each mode.

Name of Each Component

Steering wheel remote control

The image of this product may be different from the actual product.

1. MODE button

- Each time this button is pressed, the mode is changed. You can select the accessible media manually from [Steering Mode button] menu. Only active/available media can be accessed.
- If no media or disc is inserted, the mode will be skipped.
- Press and hold the button (over 0.8 seconds) to turn the AV on/off.
- When power is off, press the button to turn power back on.

2. button

- Press the button (under 0.8 seconds) to activate voice recognition mode.
- Press and hold the button (over 0.8 seconds) to cancel voice recognition.
- Press and hold the button (over 0.8 seconds) to activate or end the Siri function if an iPhone is paired to the system.

3. Volume (VOL+/VOL-) button

Increases or decreases the volume level.

button

Press to mute the sound.

4. Seek up/down (Λ/V) button

- When pressed momentarily (less than 0.8 sec.)
 - FM/AM/SiriusXM mode: plays previous/next preset station.
 - MEDIA mode: changes the track, file, or chapter.
- When pressed and held (0.8 sec. or longer)
 - FM/AM/SiriusXM mode: changes the station until the button is released.
 - MEDIA mode: rewinds or fast forwards the track, file, or chapter.

5. button

Press to operate Bluetooth Hands-Free function.

- Press to accept a call.
- Press to make a call from last calls.
- Press and hold for redialing.

6. button

Press to hang up a call.

Radio Operation (FM/AM)

Listening to FM/AM radio

1. Press [FM/AM] on the head unit. Or press [HOME] > [FM/AM].
2. Press [FM] or [AM] on the screen.

The FM/AM screen of the most recent listened station is displayed.

3. Auto tuning:

Press [V SEEK/TRACK ▲] on the head unit.
- When a station is received, searching stops.

Manual tuning:

Turn [TUNE/FILE] on the head unit in clockwise or counter-clockwise direction.
- The stations move up and down step by step.

Preset tuning:

From the 12 presets, select the station you want to listen to.

Listening to HD Radio™ Stations (USA Only)

The HD Radio function is not supported for vehicles purchased in Canada.

You can turn HD Radio reception on from the menu and listen to HD Radio Broadcasts.

The HD Radio screen is displayed only when a HD Radio broadcast is being received.

HD Radio screen

1 HD Radio Reception & Channel buttons

Displays main HD Radio channels and used to directly select the currently available local channels.

Radio Operation (FM/AM)

② HD Channel Number

- HD Channel number saved in preset.
- Preset tuning: From the 12 presets, select the HD Channel you want to listen to.

③ Broadcast Information

Displays detailed information about the current broadcast. (Album Cover Art, Artist name, Song title, HD Radio channel, Frequency, PTY, etc...)

④ Frequency controller

When controller is focused, it moves to center of screen. Turn the controller to search for frequency and move the red line.

! Note

HD Radio reception is included when the vehicle is in Radio mode. Methods used to reorder between channels, save preset stations, or other methods of searching frequencies used for standard radios are identical for HD Radio receivers. The HD Radio icon will be displayed when the vehicle is within regions where HD Radio signals can be received.

HD Radio™ Reception On/Off (USA Only)

1. Select the band (FM, AM) you want.

If an HD Radio broadcast is received, the radio mode will switch from analog broadcast to HD Radio broadcast.

Press [Menu] > [HD Radio] on the screen.

The HD Radio receiver will be off and switch to analog broadcast.

! Note

- The default setting of [HD Radio] is set to on.
- HD Radio Technology is a digital radio technology used by FM and AM radio stations to transmit audio and data via a digital signal in conjunction with their analog signals.
- While listening to the radio, the HD Radio icon will become displayed if receiving an HD Radio broadcast.

Tag (USA Only)

If the HD Radio broadcast includes Tag information, then the tag information is displayed on the screen.

1. Press [Tag] on the HD Radio screen.

! Note

When HD Radio reception is off, the [Tag] button is deactivated.

Radio Operation (SiriusXM™)

SiriusXM™ screen

1. Category Info

Displays the category currently playing.

2. Channel Logo

Displays the logo of the channel currently playing.

3. Preset list

Displays the channels saved in the Preset list.

Smart Favorites (REC)

SXM supports 6 smart favorites. It is buffered 1 hour for the currently tuned channel (Instant Replay) and at least 1/2 hour for each of the 6 smart favorites.

4. Channel Info

Displays the current channel number and name.

5. Contents Info

Displays the artist, title and other information about the song currently playing.

6. (Category Lock)

If the Category Lock is Off, you can change or search all channels. If the Category Lock is On, you can change or search only the channels of the currently active category.

7. Live

Changes to the Live Broadcast mode.

8. 0:00 (Time difference)

Displays the time difference between the song playing and the Live broadcast.

9. ◀◀

Repeats the previously broadcasted program.

- When it is pressed shortly (less than 0.8 sec.): Moves to the previous item.
- When it is pressed and held (0.8 sec. or longer): Searches backwards until the button is released.

10. ▶/|| (Play/Pause)

Plays/Pauses the currently broadcasting program.

11. ▶▶

- When it is pressed shortly (less than 0.8 sec.): Moves to the next item.
- When it is pressed and held (0.8 sec. or longer): Searches forward until the button is released.

12. ◀ / ▶ (Category Selection Buttons)

This feature is used to select the Previous/Next category.

Radio Operation (SiriusXM™)

Listening to SiriusXM™ radio

1. Press [SXM] on the head unit. Or press [HOME] > [SiriusXM].

The SiriusXM radio screen of the most recent listened channel will be displayed.

2. Select the desired broadcast channel.
For more details, Refer to "Selecting SiriusXM broadcast channel".

Selecting SiriusXM™ broadcast channel

Selecting a channel through manual search

Turn [TUNE/FILE] on the head unit clockwise or counter-clockwise to display the previous or next channel information.

Selecting with channel up/down

Press [V SEEK/TRACK Δ] on the head unit.

- The previous or next channel will be selected.

Selecting a channel through preset

Press the preset button of the desired channel.

Selecting channel through channel/category list

1. Press [List] on the screen.
Or press [Menu] > [Channel List].

2. Select the desired category and channel.
Press [Menu] > [Now Listening] to return to the current playing channel.
Press [Menu] > [Featured Favorites] to move to the [Featured Favorites] menu.
If you want to skip a channel, press [Menu] > [Skip]. After press the channel to skip, press [↵] to confirm your selection.

Note

The channel list may be different according to the region.

Audio CD/MP3 CD Operation

Playing an Audio CD/MP3 CD

Insert a disc into the disc slot and playback will start automatically.

Audio CD

MP3 CD

! Note

To play the Audio CD or MP3 CD while a different source is playing, press [HOME] > [Media] > [CD] or [MP3 Disc].

Pause

Press [II] on screen or with the controller.
Press [▶] on screen or with the controller to play it again.

Skip

You can play the previous or next track/file.

Position	Description
Screen	- Press [◀◀/▶▶]. - Pressing [◀◀] after 3 seconds of playback time plays the current track/file from the beginning.
Head unit	- Press [V SEEK/TRACK ▲]. - Pressing [V SEEK] after 3 seconds of playback time plays the current track/file from the beginning.
Controller	- Push the controller left or right. - Push the controller left after 3 seconds of playback time plays the current track/file from the beginning.

Search

You can rewind/fast forward to a specific point of a track/file.

Position	Description
Screen	Press and hold [◀◀◀/▶▶▶] and then release at the point you want.
Head unit	Press and hold [V SEEK/TRACK ▲] and then release at the point you want.
Controller	Push and hold the controller left or right and then release at the point you want.

Audio CD/MP3 CD Operation

Seek

You can play the track/file directly by searching for the desired music.

Position	Description
Head unit	Turn [TUNE/FILE] to search for a desired track/file. If the desired track/file is displayed, press the [TUNE/FILE] to play the track/file.
Controller	Turn the controller to search for a desired track/file. If the desired track/file is displayed, press the controller to play the track/file.

List

You can play the desired track/file by searching the track/file list included in the disc.

1. Press [List].
Or press [Menu] > [List].

For example: Audio CD

- Press [Menu] > [Now Playing] to move to the current playing screen.
2. Press the desired track/file.

Shuffle

All tracks/files can be played randomly. Press [Menu] > [Shuffle].

For example: Audio CD

Note

You can set or cancel the Shuffle function by pressing [Shuffle] on the playing screen.

Audio CD/MP3 CD Operation

Repeat

The current playing track/file or folder is played repeatedly.

1. Press [Menu] > [Repeat].

For example: MP3 CD

2. Press the desired item.
 - [Repeat All]: Repeats all tracks/files.
 - [Repeat Folder]: Repeats all files within the current folder. (MP3 CD Only)
 - [Repeat One]: Repeats the current track/file.

! Note

You can change the Repeat function by pressing [↺]/[↻]/[↻] on the playing screen.

↺: Repeat All, ↻: Repeat Folder (MP3 CD Only), ↻: Repeat One

Scan

This function scans the beginning of each track/file for 10 seconds.

1. Press [Menu] > [Scan].

For example: MP3 CD

2. Press the desired item.

CD	Menu	Description
Audio CD	-	Scans the beginning of each track for 10 seconds.
MP3 CD	All	Scans the beginning of each file for 10 seconds.
	Folders	Scans the beginning of all files within the current folder for 10 seconds.

3. Press [■] to cancel the Scan function.

DVD/VCD Operation

Playing a DVD/VCD

Insert a disc into the disc slot, with the label facing up.

Playback will start automatically. In some cases, the disc menu might appear.

Note

- To play the DVD or VCD while a different source is playing, press [HOME] > [Media] > [DVD] or [VCD].
- If a menu screen is displayed, select the desired option by using the controller.
- Video is not available while driving. (Because of traffic regulations, video is only available while the vehicle is stopped.)

Not Available while Driving.
Please try again after parking the vehicle.

Switching to Menu display or Full Screen Display

Position	Description
Screen	Press the screen.
Controller	Push the controller up or down on full screen display mode.

Note

Press [Menu] > [Full Screen Display] or wait 5 seconds to display full screen mode.

Pause

Press [II] on screen or with the controller.

Press [▶] on screen or with the controller to play it again.

Skip

Using the Route Menu

Route menu overview

This allows you to change the route conditions by using the route menu when the route is activated.

Cancel Route

If you want to stop the route guidance when a route is active, press [MENU] > [Route] > [Cancel Route] or press [NAV] > [Route] > [Cancel Route].

Route Options

You can modify the route conditions or confirm the route information. Set the appropriate route condition according to your purpose.

1. Press [NAV] or [MENU] > [Route] > [Route Options].

2. Set the desired options.
 - [Faster Time]: Calculates the route based on the fastest arrival time.
 - [Shorter Distance]: Calculates the route based on the shortest distance.
 - [Avoid Freeways]: Searches for a route that minimizes or avoids the freeway.
 - [Avoid Toll Roads]: Searches for a route that minimizes or avoids toll roads.
 - [Avoid Ferries]: Searches for a route that avoids the use of ferries.

- [Avoid HOV/Carpool Lanes]: Searches for a route that avoids the use of HOV/Carpool Lanes.
- [Avoid Electronic Tolls]: Searches for a route that avoids the use of Electronic Toll.
- [Use Traffic Info]: Searches for a route reflecting the real time Traffic Information.
- [Avoid Private/Gated Roads]: Searches for a route that minimizes or avoids the Private / Gated Roads.

3. Press [Recalculate].

Note

The Items set by user may not be reflected depending on condition.

Using the Route Menu

Edit Route

This feature allows you to travel through the searched routes by editing the current route. Waypoints can be added/deleted/edited and the order can be changed.

Adding waypoints

1. Press [NAV] > [Route] > [Edit Route].

2. Press [Add Waypoint].
3. Add the waypoint through destination search function.

4. If you want to add an waypoint, follow steps 2~3.
5. Press [Done] > [Start Guidance].

Reordering Route

1. Press [NAV] > [Route] > [Edit Route].
2. Press the desired item from the list.
3. Move the selected item up and down. Or Drag it to the desired position.
4. Press [Done] > [Start Guidance].

Deleting Route

1. Press [NAV] > [Route] > [Edit Route].
2. Press [Menu] > [Delete].

3. Select the desired item, then press [Delete].
 - [Delete]: Deletes the selected items.
 - [Delete All]: Cancels the route.
 - [Unmark All]: Unmarks all items.
 - [Cancel]: Exits delete screen.

Using the Route Menu

Route Info / Avoid

This allows you to check the route information and search for new route by avoiding the selected street(s).

1. Press [NAV] > [Route] > [Route Info / Avoid].

2. Press [Avoid] to select the street(s) that you want to avoid.
3. Press [Done] to plan new route.

Route Overview

You can check the entire route between your current location and your destination.

1. Press [NAV] > [Route] > [Route Overview].

2. Press the desired item.
 - [Start Guidance]: Starts the route guidance.
 - Press [Route Options] to set the route option. For more details, refer to "Route Options" on page 48.
 - Press [Route Info / Avoid] to check route information and set a route to be avoided. For more details, refer to "Route Info / Avoid" on page 50.
 - Press [Edit Route] to edit the route. For more details, refer to "Edit Route" on page 49.
 - Press [Cancel Route] to cancel the route. For more details, refer to "Cancel Route" on page 48.

Route Preview

This allows you to check the detailed turn-by-turn list.

1. Press [NAV] > [Route] > [Route Preview].

2. Press the desired item.
 - [Home]: Move to the departure location.
 - [Previous]: Move to the previous position.
 - [Next]: Move to the next position.
 - [Destination]: Move to the destination location.
 - [Quick Move]: Quick move to the specific position.
 - [Close]: Close the route preview.

Before Using the Bluetooth Handsfree

What is Bluetooth Wireless Technology?

- Bluetooth Wireless Technology refers to a short-distance wireless networking technology which uses a 2.45GHz frequency to connect various devices within a certain distance.
- Supported within PCs, external devices, Bluetooth phones, PDAs, various electronic devices, and automotive environments, Bluetooth Wireless Technology to be transmitted at high speeds without having to use a connector cable.
- Bluetooth Handsfree refers to a device which allows the user to conveniently make phone calls with Bluetooth mobile phones through the system.
- The Bluetooth Handsfree feature may not be supported in some mobile phones.

Precautions for Safe Driving

- Bluetooth is a feature that enables drivers to use handsfree while driving. Connecting the head unit with a Bluetooth phone allows the user to conveniently make calls, receive calls, and manage the phone book. Before using Bluetooth Wireless Technology, carefully read the contents of this user's manual.
- Excessive use or operations while driving may lead to negligent driving practices and be the cause of accidents. Do not operate the device excessively while driving.
- Viewing the screen for prolonged periods of time is dangerous and may lead to accidents. When driving, view the screen only for short periods of time.

Cautions upon Connecting Bluetooth Phone

- Before connecting the head unit with the mobile phone, check to see that the mobile phone supports Bluetooth features.
- If you do not want automatic connection with your Bluetooth device, turn the Bluetooth feature off of the Bluetooth device.

- Park the vehicle when pairing the head unit with the mobile phone.
- Some Bluetooth features may occasionally not operate properly depending on the firmware version of your mobile phone. If such features can be operated after receiving a S/W upgrade from your mobile phone manufacturer, unpair all devices and pair again before use.
- When pairing and the head unit with the iPhone for the first time while your iPhone is connected to the USB port with iPhone cable, error message may be displayed on your iPhone. But, this is intended operation. You may ignore it if your iPhone has been connected to the head unit.

Pairing and connecting the unit and a Bluetooth phone

To use the Bluetooth feature, make sure the Bluetooth on your phone is turned on. Refer to your phone's user guide.

Bluetooth® Wireless Technology

When no phones have been paired

1. Press [PHONE] on the remote control for head unit or [C] on the steering wheel remote control.

2. On your phone, initiate a search for Bluetooth devices. (The default vehicle name is GENESIS G80.)

3. 1) If the SSP (Secure Simple Pairing) is not supported, input the passkey on your Bluetooth device. (The default passkey is 0000.)

- 2) If the SSP (Secure Simple Pairing) is supported, press [Yes] on the pop-up screen of the your Bluetooth device. (The pop-up screen may differ from the actual information of the Bluetooth device.)

4. Press [Yes] to connect automatically to the unit and a Bluetooth phone preferentially after ignition switch is in ON position.

When you approve in the mobile phone,

the mobile phone contacts and the latest call list are downloaded.

5. When your phone is successfully connected, the phone screen is displayed on the screen. When the connection fails, a failure message is displayed on the screen.

<Phone screen>

Once Bluetooth connection is successful, the name of the connected mobile phone will become displayed on the phone screen and Bluetooth handsfree functions will operate.

Bluetooth® Wireless Technology

When a phone is already paired

1. Press [HOME] > [Setup] > [Phone] > [Bluetooth Connection].

2. 1) Select the device you want to connect.
2) If there is no device you want to connect, press [Add New device].

3. On your phone, initiate a search for Bluetooth devices. (The default vehicle name is GENESIS G80.)

4. 1) If the SSP (Secure Simple Pairing) is not supported, input the passkey on your Bluetooth device. (The default passkey is 0000.)

- 2) If the SSP (Secure Simple Pairing) is supported, press [Yes] on the pop-up screen of the your Bluetooth device. (The pop-up screen may differ from the actual information of the Bluetooth device.)

5. Press [Yes] to connect automatically to the unit and a Bluetooth phone preferentially after ignition switch is in ON position.

When you approve in the mobile phone, the mobile phone contacts and the latest call list are downloaded.

6. When your phone is successfully connected, the Bluetooth settings screen is displayed on the screen. When the connection fails, a failure message is displayed on the screen.

<Bluetooth settings screen>

Bluetooth® Wireless Technology

! Note

- For safety reasons, pairing a Bluetooth phone is not possible when the vehicle is in motion. Park the vehicle in a safe location to pair a Bluetooth phone. It is possible to pair up to 5 mobile phones. In order to pair a new phone when there are already 5 mobile phones paired, you must first delete one of the previously paired phones.
- Some functions may not be supported due to limited Bluetooth compatibility between the car system and mobile phone.
- When a Bluetooth device is connected, a new device cannot be paired. If you want to pair a new phone, first disconnect the connected Bluetooth device.

Change Device

You can connect the head unit and another Bluetooth device already paired.

- Press [Menu] > [Change Device] on the phone screen.

- Press the desired Bluetooth device on the pop-up.

! Note

You can use the Change Device function by pressing [] on the screen.

Disconnecting the connected phone

- Press [HOME] > [Setup] > [Phone] > [Bluetooth Connection].

- Select the connected phone.

! Note

If you want to connect the disconnected phone again, select the disconnected phone.

Deleting Bluetooth Devices

If you no longer need to use a phone, you can delete the Bluetooth devices. Note that deleting a Bluetooth device will delete all call history and contact entries.

- Press [HOME] > [Setup] > [Phone] > [Bluetooth Connection].

- Press [Menu] > [Delete] on the Bluetooth settings screen.

- Select the phone you want to delete and press [Delete].
 - [Delete]: Deletes the selected items.
 - [Delete All]: Deletes all items.
 - [Unmark All]: Unmarks all items.
 - [Cancel]: Exits delete screen.
- Press [Yes] on the pop-up screen.

Making a call by entering phone number

Connect your unit and Bluetooth phone before making a call.

1. Enter the phone number using the keypad on the phone screen.
2. Press [📞] on the phone screen or [📞] on the steering wheel remote control.

! Note

If you press the wrong number, press [⬅️] to delete the inputted number one digit at a time.

Making a call by redialing

Press and hold [📞] on the phone screen or [📞] on the steering wheel remote control.

! Note

Redialing is not possible when there is no dialed call history.

Making a call with speed dial numbers

Press and hold speed dial number using the keypad on the phone screen.

Only speed dial numbers already saved on the mobile phone can be used for speed dial calls. Up to 3-digit speed dial numbers are supported.

! Note

For 3-digit speed dial numbers, press and hold the 3rd digit to make a call to the speed dial number.

Answering/Rejecting a call

1. If there is an incoming call, a popup message will appear.
2. Press [Accept] to answer the call.

To reject a call, select [Reject].

! Note

- If the Call-ID service is available, the caller's phone number is displayed.
- If caller's phone number is saved in the phone book, the caller's name is displayed on the unit.
- Upon receiving a call, the [Reject] function may not be supported in some mobile phones.

Bluetooth® Wireless Technology

Responding with messages

1. If there is an incoming call, a popup message will appear.

2. Press [Message] to respond with messages.

3. Select the desired message and press [Send].

! Note

Depending on the mobile phone model, the [Message] function may not be supported.

Switching call to the mobile phone

1. If you want to switch the call to the mobile phone while talking on the car handsfree, press [Use Private].

As shown below, the call is switched to the mobile phone.

2. If you want to switch the call to the car handsfree while talking on the mobile phone, press [Use Handsfree].
The call is switched to the car handsfree.

Ending a call

1. To end a call, press [End] on the phone screen or [End] on the steering wheel remote control.
2. The call is ended.

Using the menu during a phone call

When making a call, you can use the following menu items.

Position	Description
1 Outgoing volume	Displays the Mic Volume settings. You can adjust the in-call volume that the other party hears (level 1 - 5).
2 Mic On/Off	Turns the Mic On/Off.
3 Keypad	Moves to a screen for entering ARS numbers.

Call history

Making a call from call history

1. Press  on the phone screen.

2. Press [All], [Dialed Calls], [Received Calls], or [Missed Calls].
 - [All]: Displays entire call history list.
 - [Dialed Calls]: Displays the outgoing call history list.
 - [Received Calls]: Displays the incoming call history list.
 - [Missed Calls]: Displays the missed call history list.
3. Press the entry you want to call.

Note

The call history may not be saved in the call history list in some mobile phones.

Downloading call history

You can download the call history information from your mobile phone.

1. Press  > [Menu] > [Download] on the phone screen.

2. Press [Yes].

Note

- Up to 50 received, dialed, and missed call history lists can be downloaded.
- The download feature may not be supported in some mobile phones. Check to see that the Bluetooth device supports the download feature.

Contacts

1. Press  on the phone screen.

The contacts are displayed on the screen.

<Contacts screen>

2. Select the contact you want to call from the list of contacts.

3. Press the phone number to make a call.

Bluetooth® Wireless Technology

Downloading mobile phone contacts

Up to 5,000 mobile phone contacts can be downloaded.

The phonebook download feature will only download contacts transmitted via Bluetooth (contacts saved on a Bluetooth device or on the SIM card). Contacts saved in a third-party app or contacts without a phone number will not be downloaded.

1. Press [Contacts] > [Menu] > [Download] on the phone screen.

2. Press [Yes].

The present phone book is deleted and phone book of connected phone is duplicated.

Note

- Upon downloading mobile phone contacts, the previous data is deleted.
- This feature may not be supported on some mobile phones.

Searching for contacts

1. Press [Contacts] > [Menu] > [Search Contacts] on the phone screen.

2. Enter the name or phone number, press [Search].

3. Select the contact you want to call.

Favorites

Calling Favorites

If the phone number has been already stored in the Favorites, it can be easily called.

First of all, add the phone number in the Favorites. Refer to "Editing Favorites".

1. Press [Star] on the phone screen.

<Favorite screen>

2. Select the desired Favorite.

Editing Favorites

1. Press [★] on the phone screen.
2. Press [Menu] > [Add New] on the Favorites screen. Or Press [Menu] > [Edit] on the Favorites screen.

3. After you select the contacts you want to register, press [★] > [↻] to register them in Favorites. If you want to delete them which have already been registered, press [★] after selecting the corresponding them.

Deleting Favorites

1. Press [★] on the phone screen.
2. Press [Menu] > [Delete] on the Favorites screen.

3. Select the item you want to delete and press [Delete].
 - [Delete]: Deletes the selected items.
 - [Delete All]: Deletes all items.
 - [Unmark All]: Unmarks all items.
 - [Cancel]: Exits delete screen.

Messages

You can check the text messages or send any message on the screen. Depending on the mobile phone model, some functions may not be supported. The [Read] function of messages may not be supported in some languages.

Checking new messages

1. When a message is received, the pop-up is displayed on the screen.

2. Select a desired item.
 - [View]: Moves to the message screen.
 - [Read]: Supports the message contents by voice.
 - [Close]: Closes the message pop-up.

Note

Mark the [Message Notification] of [Message Settings] on the Bluetooth settings screen.

Bluetooth® Wireless Technology

Checking new message contents

1. Press [Message] on the phone screen.

2. Select a message.

3. Check the information on message.
 - [Read]: Supports the message contents by voice.
 - [Reply]: Replies to the message.
 - [Call]: Calls the message sender.

Note

Only the messages received after the Bluetooth connection are specified in the list.

Voice Recognition System

What is voice recognition?

Voice recognition technology runs the system as ordered by recognizing your voice command to help with the operation of multimedia while you are driving the car. Regretfully, not all possible voice commands are recognized by the system due to technological limitations. To make up for these limitations, the system displays the voice commands that are available for you to use.

There are errors in communication between people. Likewise, voice recognition sometimes misunderstands your voice command under certain circumstances. If this happens, either check the screen for the available options and say the command again, or manually select and press the button for the corresponding command on the screen.

Voice recognition features by language

Voice recognition support availability varies according to the language set for the system.

Please verify the current language setting before using the voice recognition.

- If you change the language set for the system to Korean, voice recognition will not be supported. Change the system language to other language.

Operating voice command

Condition for voice command system

Most of the functions can be operated by voice. Please follow the instructions below for optimal voice recognition performance.

- To improve the voice recognition performance, keep your car interior quiet by closing all windows and the sunroof.
- Press the voice recognition button and say the desired voice command after the beep sound.
- The microphone is positioned above the driver. Voice commands should be spoken by driver practicing proper posture.
- Pronounce the voice commands naturally and clearly as if in a normal conversation.
- Special symbols of Phonebook Name are not considered in voice recognition.
Ex) James-Smith : "James Smith"
- House number or digits in Phonebook Name should be spoken discretely.
Ex) S1234 : "South one two three four"
- Depending on the specifications, some commands may not be supported.

Starting voice recognition

1. Press [] on the steering wheel remote control.
2. Say a command.

Note

- For proper recognition, please say the command after the voice instruction and beep sound.
- When starting voice recognition, the voice command entry window with six representative commands is displayed.

Voice Recognition System

Skipping prompt messages

While a prompt is playing, press quickly on the steering wheel remote control labeled with [🔊]. The prompt is immediately ended and a beep will sound. After the beep, please say the voice command.

Re-starting voice recognition

While the system waits for input, press quickly on the steering wheel remote control labeled with [🔊]. The beep tone will sound, indicating the system is listening for a new input. Say a voice command.

Ending voice recognition

- While voice recognition is operating, press and hold the control labeled with [🔊] on the steering wheel remote control, or say 'Exit'.
- While using voice recognition, pressing other button except on the steering wheel remote control or a different button on head unit will end voice recognition.

Adjusting voice recognition volume

While voice recognition is operating, turn [VOL] knob on the head unit or press [VOL+/-VOL-] on the steering wheel remote control.

Basic operation for voice command (Setting FM)

1. Press the control on the steering wheel remote control labeled with [🔊].

The system waits for your command and displays a list of available commands on the screen.

2. Once the [🔊] icon changes into the [🔊] icon on the pop-up screen, a beep will sound. Say 'FM'.

Voice recognition quick start (Manual Control)

The usual way of activating voice recognition is waiting for the voice guide and then speaking your command for a task. Since this method requires that you wait a while for the voice guide, you can select one of the commands shown on the screen to speed up the process.

You might find this feature useful when you do

not want to wait for the full voice guide or when the system does not recognize your voice.

About voice command "Help"

1. Press the [🔊] on the steering wheel remote control.
2. Once the [🔊] icon changes into the [🔊] icon on the pop-up screen with a beep sound, say "Help".
The available commands are displayed on the screen.

3. Select or say the displayed command on the screen.

Operating Siri® command

What is Siri®?

Apple wants to integrate the Siri to specific voice control system by working with car manufacturers.

You can ask Siri through the [] button on the steering wheel remote control while driving.

The Apple device (iOS device) screen does not light up to minimize impact on the driving.

If there is "Eyes-free" function, you can operate the Siri feature. (Making phone calls, Playing music, Listening to or writing a text message, Finding the destination by using the map, Looking for calendar information, etc)

Starting Siri®

1. Connect your Apple device (iOS device) to AVN system through Bluetooth.
Please check whether your Apple device (iOS device) supports Siri and turning Siri On.
2. Press and hold [] on the steering wheel remote control.

<Siri screen>

3. Say a command.
For proper recognition, please say the command after the voice instruction and Siri beep tone.

Re-starting Siri®

- While system waits, press [] on the steering wheel remote control. The command waiting condition is ended and the beep tone will make sound. After the "beep", say the voice command.
- Press [Speak] on the Siri screen. The command waiting condition is ended and the beep tone will make sound. After the "beep", say the voice command.

Ending Siri®

- While Siri is operating, press and hold [] on the steering wheel remote control or say "Exit".
- While using voice recognition, pressing other button except on the steering wheel remote control or a different button on head unit will end Siri feature recognition.
- Press [Exit] on the Siri screen.

Adjusting Siri® volume

While Siri is operating, turn [VOL] knob on the head unit or press [VOL+/VOL-] on the steering wheel remote control.

! Note

- Please see the AVN system only supports "Music" and "Phone" related functions. Other functions will be performed in the your Apple device (iOS device).
- Eyes-Free mode would be activated automatically while you are driving. If the car is stopped (when the transmission lever is put to P), Eyes-Free mode would be deactivated automatically.

SiriusXM™ Data

About SiriusXM™ Data

The SiriusXM Data Service is a paid membership satellite radio service which provides users with weather, traffic, fuel prices, stocks, sports, and movie times information. For information on registration or related content, please visit the SiriusXM radio website (www.siriusxm.com).

Accessing SiriusXM™ Data

1. Press [HOME] > [SiriusXM Data].

<SiriusXM Data screen>

2. If you want to subscribe to the SiriusXM Data Service, press [Subscription] > [Call] to enable Services.

SiriusXM™ Weather Information (USA Only)

Current weather information (USA Only)

This service provides current weather information in your region.

1. Press [HOME] > [SiriusXM Data].

This current weather information is displayed on the screen.

<SiriusXM Data screen>

2. Press [Weather] to check the detail information.

Weather forecast (USA Only)

This service provides weather forecasts for the next five days including today in your region.

1. Press [Weather] > [Menu] in SiriusXM Data screen.

2. Press [Forecast].

- Press [Menu] > [Today] to move to current weather information screen.
- Press [Menu] > [Location List] to move to the Location List screen.

- Press [Menu] > [Weather & Security Alerts] to move to the Weather & Security Alerts screen.
- Press [Menu] > [Weather Map] to move to the Radar Map screen.

Weather information in other region (USA Only)

This service provides weather information in other region.

1. Press [Weather] > [Menu] > [Location List] > [Cities] in SiriusXM Data screen.

<Location List>

2. Select the desired region.

! Note

If you want to display weather information in your current location, press [📍].

Weather information at ski resorts (USA Only)

This service provides weather and facility information at ski resorts.

1. Press [Weather] > [Menu] > [Location List] > [Ski Resorts] in SiriusXM Data screen.

2. Select the desired ski resort.

! Note

If you want to check weather information in your current location, press [📍].

Searching for other region or ski resort (USA Only)

1. Press [Cities] or [Ski Resorts] > [Menu] > [Search] on the Location List.
2. Enter the desired region or ski resort, press [Q].

3. Select the desired item.

4. If you want to add the selected item in the Favorites, press [Add Favorite].
If you want to delete the item saved in the Favorites, press [Delete Favorite].

Favorites (USA Only)

If the city or ski resort have already been stored in the Favorites, it can be easily recalled.

Add the city or ski resort in the Favorites. Refer to "Adding to Favorites" on page 66.

1. Press [Favorites] on the Location List.

2. Select the desired item.

Adding to Favorites (USA Only)

A maximum of 10 items can be added.

1. Press [Favorites] > [Menu] > [Add Favorite] on the Location List.
2. Enter the desired location, press [Q].

3. Select the desired item.

Reordering Favorites (USA Only)

The added items in Favorites can be reordered.

1. Press [Favorites] > [Menu] > [Reorder] in Location List.
2. Press the desired item.

3. Move up and down and press the selected item, or drag it to the desired position.

Deleting Favorites (USA Only)

1. Press [Favorites] > [Menu] > [Delete] in Location List.

2. Select the item you want to delete and press [Delete].
 - [Delete All]: Deletes all items.
 - [Unmark All]: Unmarks all items.
 - [Cancel]: Exits delete screen.

Weather & Security Alerts (USA Only)

Provides weather warnings and advisories, such as Tornado, Storm, Flood, Winter, Wind etc..

1. Press [Weather] > [Menu] > [Weather & Security Alerts] in SiriusXM Data screen.

- Press [Menu] > [Prioritization Levels] > [All], [Low], [High] or [Severe] to set the prioritization levels.
- Press [Menu] > [Set Range] > [50 miles], [100 miles], [200 miles] or [300 miles] to set the distance range.
- Press [Menu] > [Marine/coastal] to set whether to include regional information of the Marine/coastal.
- Press [Menu] > [Show Popup] to set whether or not to display alert pop-up.

- Press the desired item.

Weather Map (USA Only)

Provides up-to-date weather information across the country.

Zoom in to view more detailed information in specific regions.

- Press [Weather] > [Menu] > [Weather Map] in SiriusXM Data screen.

- Press [Menu] > [Full Screen] to hide the [Menu] and [Full Screen] button.

- Press [Menu] > [Weather Front] to set whether to display cold/warm air fronts.
- Press [Menu] > [Isobar] to set whether to display the Isobar.
- Press [Menu] > [Pressure Center] to set whether to display the Pressure center.
- Press [Menu] > [NOWRad] to set whether to display the weather radar.

- Press [+] / [-] to use the zoom in and out features.

Push the controller up, down, left, or right to move to the desired location.

SiriusXM Traffic Information

Press [Traffic] to enter the Traffic Announcement mode in SiriusXM Data screen.

SiriusXM™ Fuel Prices Information (USA Only)

Finding gas station (USA Only)

- Press [Fuel Prices] in SiriusXM Data screen.

<Fuel Prices List>

- [All]: Displays all gas stations.
- [Brand]: Displays gas stations by brand.
- [Fuel Type]: Displays gas stations by fuel type.
- [Favorites]: Moves to the [Favorites] menu.
- Press [Menu] > [Sort by] > [Distance], [Price], [A - Z] to sort in Distance, Price, or Alphabetical order. The [On Route] option displays only gas stations when a route is set, starting with nearest to current location.

- Press [Menu] > [Search] to search for the gas station. For more details, refer to “Searching for gas station” on page 69.
- Press [Go] > [Yes].

Note

Within 30 miles, a maximum of 65 items can be displayed.

Searching for gas station (USA Only)

- Press [Menu] > [Search] in Fuel Prices List.
- Enter the desired gas station and press [Q].

- To store the desired item as a favorite, press [Add Favorite].

- Press [Go] > [Yes].

Favorites (USA Only)

If the gas station has been already stored in the Favorites, it can be easily recalled. First of all, add the gas station in the Favorites. Refer to “Adding to Favorites” on page 70.

- Press [Favorites] in Fuel Prices List.

- Press [Go] > [Yes].

Adding to Favorites (USA Only)

A maximum of 10 items can be added.

1. Press [Favorites] > [Menu] > [Add Favorite] in Fuel Prices List.
2. Enter the desired gas station and press [Q].

3. Select the desired item.

Deleting Favorites (USA Only)

1. Press [Favorites] > [Menu] > [Delete] in Fuel Prices List.

2. Select the item you want to delete and press [Delete].
 - [Delete All]: Deletes all items.
 - [Unmark All]: Unmarks all items.
 - [Cancel]: Exits delete screen.

SiriusXM™ Stocks Information

View real time information of the stock market.

Favorites

Press [Stocks] in SiriusXM Data screen.

Stocks added as favorites are displayed in the main screen.

<Stocks main screen>

! Note

When entering Stocks for the first time, if there are no favorites list, a [Search] screen is displayed.

Adding to Favorites

A maximum of 100 items can be added.

1. Press [Menu] > [Add Favorite] in Stocks main screen.
2. Enter the favorite stocks and press [Q].

3. Select the desired item.

Reordering Favorites

The added items in Favorites can be reordered.

1. Press [Menu] > [Reorder] in Stocks main screen.
2. Press the desired item.

3. Move up and down and press the selected item, or drag it to the desired position.

Deleting Favorites

1. Press [Menu] > [Delete] in Stocks main screen.

2. Select the item you want to delete and press [Delete].
 - [Delete All]: Deletes all items.
 - [Unmark All]: Unmarks all items.
 - [Cancel]: Exits delete screen.

Stock Search

1. Press [Search] in Stocks main screen.
2. Enter your favorite stocks and press [Q].

3. Press [Add Favorite] to save them.

4. Added stocks will display in the Favorites screen.

SiriusXM™ Sports Information

Provides real-time information on scores and schedules all major sports.

1. Press [Sports] in SiriusXM™ Data screen.

<Sports main screen>

2. Press the desired item to view related sports information.

- Press [Schedule] or [Menu] > [Schedule] to display schedules for the next seven days.
- Press [Score] or [Menu] > [Scores] to display scores for 2 days from today.
- Press [Menu] > [SXM Radio Game Zone] to tune into current games in Game Zone.
- Press [Menu] > [News] to check new information for each sport.

Favorites

1. Press [Favorites] in Sports main screen.
Football, Baseball, Basketball and Ice Hockey teams added as favorites will display in the Favorites list.

2. Select the favorite team.

! Note

If there are no favorites added, press [Search] to find and add your favorite teams.

Adding to Favorites

1. Press [Menu] > [Add Favorite] in Sports main screen.
2. Enter the favorite teams and press [Q].

3. Select the desired item.

Reordering Favorites

The added items in Favorites can be reordered.

1. Press [Menu] > [Reorder] in Sports main screen.
2. Press the desired item.

3. Move up and down and press the selected item, or drag it to the desired position.

Deleting Favorites

1. Press [Menu] > [Delete] in Sports main screen.

2. Select the item you want to delete and press [Delete].
 - [Delete All]: Deletes all items.
 - [Unmark All]: Unmarks all items.
 - [Cancel]: Exits delete screen.

SiriusXM™ Movie Times Information (USA Only)

You can check recent movies and nearby theaters, and also register your favorite theater locations.

Finding theater by searching for movie (USA Only)

1. Press [Movie Times] > [Movies] in SiriusXM™ Data screen.

The movie list is displayed in alphabetical order by default.

<Movies main screen>

- Press [Menu] > [Sort by] to sort the movies by ratings. Any movies rated higher will be filtered out.
- Press [i] to view more information about that movie.

2. Press the desired theater.
The theater list is displayed on the screen.

- Press [Menu] > [Sort by] > [Distance] or [Starting Time] to sort in Distance or Starting Time order.
3. Press [Go] > [Yes].

Viewing movie list by searching for theater (USA Only)

1. Press [Theaters] on the Movie Times main screen.

The theater list is displayed on the screen.

- Press [Menu] > [Sort by] > [Distance] or [A - Z] to sort in Distance or Alphabetical order.
- Press [Menu] > [Search] to search for the theater. For more details, refer to "Searching for gas station" on page 69.

2. Press the desired theater.
The movie list is displayed on the screen.

- Press [Go] > [Yes] to find the theater you selected.
- Press [Phone] to make a call to theater.
- Press [Info] to view more information about that movie.

Favorites (USA Only)

1. Press [Favorites] on the Movies main screen.

Favorites is displayed on the screen.
Favorites shows a list of theater added by the user.

- Press [Menu] > [Add Favorite] to add the desired theater to Favorites. For more details, refer to “Adding to Favorites” on page 76.
 - Press [Menu] > [Delete] to delete the Favorites. For more details, refer to “Deleting Favorites” on page 76.
2. Press [Go] > [Yes].

! Note

If there are no favorites added, press [Search] to find and add your favorite theaters.

Adding to Favorites (USA Only)

1. Press [Favorites] > [Menu] > [Add Favorite] on the Movie Times main screen.
2. Enter the favorite theater, press [Q].

3. Select the desired item.

Deleting Favorites (USA Only)

1. Press [Menu] > [Delete] on the Movie Times main screen.

2. Select the item you want to delete and press [Delete].
 - [Delete All]: Deletes all items.
 - [Unmark All]: Unmarks all items.
 - [Cancel]: Exits delete screen.

Android Auto/Apple CarPlay

What is Android Auto/Apple CarPlay?

Securely access your smartphone while driving. Various functions of your smartphone are displayed on and operable from the screen of the multimedia device (e.g. navigation, making a call, listening to music etc.)

When connected, an Android Auto/Apple CarPlay icon appears on the screen. Available functions and operations may differ depending on the company model.

For more information, visit the Google or Apple website.

- Google: <http://support.google.com/androidauto/>
- Apple: <http://www.apple.com/ios/carplay/>

Cautions

- Android Auto is a registered trademark of Google Inc.
- Apple CarPlay is a registered trademark of Apple Inc.
- Android Auto and Apple CarPlay are unavailable if the phone OS is not the latest version or if the phone cannot be recognized due to a shutdown caused by a failure or defect in the device itself.

- Your phone may not be recognised if its battery is low. Charge your phone then try again.
 - If your phone is shut down due to a defect in the device itself, reset your phone and try again.
 - If the USB cable of the Android Auto/ Apple CarPlay device is repeatedly disconnected and reconnected in a short period of time, the phone may malfunction. This can also cause a device failure.
 - The device recognition time may differ depending on the device type and firmware/OS version.
 - Using the USB cable that came with the phone is recommended. (Using a non-genuine product may cause noise or malfunction.)
 - Normal operations cannot be guaranteed if the phone is arbitrarily manipulated while Android Auto/Apple CarPlay is active.
 - Apple CarPlay cannot be run while making a call via Bluetooth.
 - Android Auto or Apple CarPlay may not operate normally due to mobile phone issues.
 - Carrier charges may apply when using Android Auto or Apple CarPlay.
- ※ **Some features may not operate normally according to the version of iOS and Android.**

The following problems may occur due to phone-related issues:

[Android Auto]

- Intermittent black screens appear when entering Android Auto.
- Differentiation of phones that support Android Auto and those which do not, may not be possible.
- Black screens appear in some areas of the screen due to app errors.

[Apple CarPlay]

- Intermittent black screens appear when entering Apple CarPlay.
- Black screens appear in some areas of the screen due to app errors when navigating between screens in Apple CarPlay.
- The audio volume is depending on the volume status of the phone. If the phone volume is set to 0, then no sound will be hearable even if the multimedia system's volume is set to maximum.
- The sound output of a call may be cut upon disconnecting Apple CarPlay during a call via Apple CarPlay.

※ If services do not work properly due to problems similar to the specified above, check your phone, and if necessary, reconnect your phone after restarting.

Android Auto/Apple CarPlay

Using Android Auto or Apple CarPlay

1. Make sure only genuine USB cables are used that were provided by the mobile phone's manufacturer.
2. Enter [Android Auto] or [Apple CarPlay] from the [HOME] screen.
3. Now the features such as navigation, music and phone are ready to be used.

NOTICE

- Before connecting your mobile phone, check whether Android Auto or Apple CarPlay is activated in the [Phone Projection] menu.
- After connecting the mobile phone, the phone has to be unlocked and the disclaimers on the phone have to be accepted in order to launch Android Auto or Apple CarPlay.
- The screens and features displayed on the multimedia system correspond to the screens and features provided by Google or Apple. They are subject to changes according to the policy of the respective company.

NOTICE-Android Auto

- Bluetooth media features will be disabled when Android Auto is activated. After removing the USB cable, these features will be available again.
- If Android Auto is not activated even after a successful connection, follow these steps:
 - Check whether an error occurred on the phone.
 - Check whether Android Auto has been closed on the phone.
 - Check whether Android Auto is activated in the [Phone Projection] menu.
- If Android Auto does not work normally even after a reconnection has been made, visit the Google website <http://support.google.com/androidauto>.
- Please refer to the following websites to check the available countries for the [Android Auto].
<https://www.android.com/auto>

NOTICE-Apple CarPlay

- Bluetooth phone/media features will be disabled when Apple CarPlay is activated. After removing the USB cable, these features will be available again.
- If Apple CarPlay is not activated even after a successful connection, follow these steps:
 - Check whether Apple CarPlay is disabled in the iPhone's application settings.
 - Check whether Apple CarPlay is activated in the [Phone Projection] menu.
- If Apple CarPlay does not work normally even after a reconnection has been made, visit the Apple website <http://www.apple.com/ios/carplay/>
- Please refer to the following websites to check the available countries for the [Apple CarPlay].
<http://www.apple.com/ios/feature-availability/>

Connected Services (USA Only)

The Connected Services function is supported for vehicles purchased in USA.

Before using Connected Services

What is Connected Services?

This is a telematics service based on our cutting-edge IT system that makes your driving experience more convenient and fun and features safety, security, vehicle diagnostics, remote control and even smartphone synchronization functions.

Enjoy a smarter driving style with Connected Services.

What Is Telematics?

The word "Telematics" stems from the combination of telecommunications and informatics. It refers to an information system that provides a variety of driving information through the built-in terminal by analyzing each symptom and driving state. This allows for a much safer and more comfortable driving experience.

About Transmission and Reception of Radio Waves

Connection to the Connected Center or wireless data transmission may be disrupted in the following places.

For radio wave transmission/reception status, refer to the status displayed on the Connected Services screen.

It is recommended that you use the Connected Services system when the antenna icon (📶) shows four bars or more.

Places where Connected Services may be disrupted depending on the transmission/reception status:

- Inside tunnels
- Mountainous areas or dense forest
- Roads close to cliff edges
- Densely built-up areas
- On highways or roads underneath higher interchange roads
- Inside buildings

Using the Rear View Mirror Key

Selecting the Rear View mirror key will allow you to make service required inquiries, place info searches, and emergency rescues by connecting to the Connected Center. Such features can be used only after subscribing to the Connected Services service.

1. **CS (Connected Services) button**

Calls or ends the Connected Services call.

2. **SOS (SOS) button**

Calls or ends SOS call.

Connected Services (USA Only)

Connected Services Safety and Security

Auto Crash Notification

Provides immediate assistance when an accident occurs and an airbag is deployed.

In this event, an ACN signal, containing customer and location information, will automatically be transmitted to the response center. Upon receipt of the signal, a response specialist will attempt to establish voice communications with the vehicle occupants and forward any pertinent information to Connected Services emergency services.

SOS

Customers request emergency Connected Services emergency services by pressing the dedicated "SOS" button in the vehicle. This action transmits vehicle information and location to specially trained response specialists, who assist in coordinating the dispatch of appropriate emergency assistance to the customer.

The response specialist remains on the line with the customer until advised assistance has arrived.

Stolen Vehicle Recovery

In the event a customer's vehicle is reported stolen (and a stolen vehicle report has been filed with the appropriate police department), the response center can provide assistance to the police in an attempt to recover the vehicle.

Vehicle Slowdown

Used with Stolen Vehicle Recovery, this enables law enforcement to gradually reduce the engine power of the vehicle, thus slowing it down to safe levels. A warning shall be transmitted to the driver prior to the slowdown procedure.

Vehicle Immobilization

Used with Stolen Vehicle Recovery, this enables law enforcement to send a signal to the vehicle which immobilizes the engine management system, thus preventing startup. This capability is only valid when the ignition is off, but can be saved for later immobilization if the vehicle is on or in motion at the time of signal transmission.

Connected Services (USA Only)

Getting Started with Connected Services

Use Connected Services features such as Driving Info and Vehicle Diagnostics. Connected Services features can be used after activating the service. A separate fee may be charged for using Connected Services, and features may differ according to your service plan.

1. Select [HOME] > [Connected Services].

- [Driving Info]: Displays information such as Driving Time/Idle Time, Deceleration/Acceleration Distribution, Driving Speed and Driving Distance.
- [Send to Car with Google]: Displays information about Places received via Connected Services Voice Local Search.
- [Vehicle Diagnostics]: Inspects vehicle malfunctions and provides diagnostics.
- [Apps]: Displays paid or free applications with related information for installation.

- [Connected Settings]: Activates Connected Services service, sets Wi-Fi network, and displays modem information.

Driving Info

This service can be used while your car is stopped and the engine is on.

1. Select [HOME] > [Connected Services] > [Driving Info].

2. Select [Menu] > [Update] to receive up-to-date driving information.

Connected Services (USA Only)

Send to Car with Google

You can check information about Places received via Connected Services Voice Local Search. To use the "Send to Car with Google" function, first you need to sign up to the Connected Services.

1. Select [HOME] > [Connected Services] > [Send to Car with Google].

2. Select the desired place.

Feature	Description
1 Dial	Displays the phone number of a selected place. Press the number to make a call.
2 View Map	Displays the address of a selected place. Press the address to view map.
3 ◀/▶ (Previous/Next)	Displays the previous or next place information.

Vehicle Diagnostics

You can have your vehicle inspected only after stopping the vehicle because some control units can't be diagnosed while driving.

Vehicle Diagnostics will be canceled if you switch to another screen while diagnosis is in progress.

To receive result details, you need to first sign up to the Connected Services.

1. Select [HOME] > [Connected Services] > [Vehicle Diagnostics].

2. Select the desired item.

Name	Description
1 Connected Center	Calls the Connected Center to check for vehicle problems
2 Close	Ends the Vehicle Diagnostics.

Connected Services (USA Only)

Apps

Download Center

With Download Center, you can install paid/free applications or check for related information. Only Connected Center verified applications can be installed. You can use Download Center after agreeing to the terms of service and use on the screen. (Only 1 time for initial launch is required.)

Download Center and downloaded apps require a network connection through Wi-Fi.

1. Select [HOME] > [Connected Services] > [Apps].

2. 1) Select [Download Center].

- 2) Select [Download Center] > [Menu] > [My Apps].

- [1]: Button state changes according to the application state.

Name	Description
Download	Downloads free applications.
Purchase	Downloads paid applications.
Re-download	Downloads deleted applications after previously installing them.
Retry	Downloads the applications that failed to download due to network or system errors.

Connected Services (USA Only)

Run	Runs installed applications.
Cancel	Cancels any downloads and updates.

- [2]: Updates and refreshes the app list, and shows [My Apps] screen.

Name	Description
Update	After installation, it shows applications requiring updates. The update screen shows the [Update All] button to update all applications that need updates.
Refresh	Refreshes the app list status.
My Apps	Moves to the My Apps screen.

- [3]: When the application list area is pressed, it moves to the Detailed Information screen.

- [4]: Shows more detailed information.

Name	Description
Preview	Displays application images.
Information	Displays application information.

- [5]: Button state changes according to the application state.

Name	Description
Re-download	Downloads deleted applications after previously installing them.
Update	Shows when applications require updates.
Run	Runs installed applications.

- [6]: Deletes the downloaded application.

Note

You can update applications already running only after closing them.

Apps Settings

Displays the applications that were downloaded through the Download Center.

Downloaded Apps

You can delete downloaded applications in the Download Center. To recover a deleted application, you can re-install the application with the Re-download function in the Download Center.

Select [HOME] > [Connected Services] > [Apps] > [Apps Settings] > [Downloaded Apps].

Connected Services (USA Only)

Storage

View the memory status of installed applications and available storage space.

Select [HOME] > [Connected Services] > [Apps] > [Apps Settings] > [Storage].

Connected Settings

Modem Information

This feature is used to show the MEID modem information.

Select [HOME] > [Connected Services] > [Connected Settings] > [Modem Information].

Wi-Fi Settings

This feature is used to set the Wi-Fi Application. You can share a digital-device network with the vehicle device through Wi-Fi.

1. Select [HOME] > [Connected Services] > [Connected Settings] > [Wi-Fi Settings].

2. Select the desired item.

- [Wi-Fi On/Off]: Select [On] or [Off] to turn the Wi-Fi on/off.

Displays the MAC address.

- [Wi-Fi Network]: Registers a network ID/ password to connect to a network AP (Access Point).

Connected Services (USA Only)

Name	Description
1  (Refresh)	Searches available networks near the vehicle.
2 Network Name	Displays available network AP (Access Point) names.
3 Add Wi-Fi Network	Searches for hidden APs to connect to.

The list of APs found is updated every 6 seconds when in Wi-Fi Settings. You can also search for new APs by selecting [ Refresh].

3. Select a network AP name to connect (e.g. Android_Hotspot).

- In case of a secured AP, you may be required to enter a password.

- If you cannot see the desired AP to connect to in the list, select [Menu] > [Add Wi-Fi Network]. (Up to five APs can be added.)

Name	Description
4 Network SSID	The unique name of the AP you want to connect to. (SSID is short for Service Set Identifier.)
5 Security	The pre-configured security type. (A password is required in the case of WEP and WPA/WPA2-PSK.)

4. Check the changed status of the Wi-Fi icon and the text "Connected" under the network AP name to ensure that the AP is enabled.

- If you select the currently connected AP or a previously connected AP from the list (up to 30 APs can be saved), you can view the following information.

Connected Services (USA Only)

Name	Description
6 Disconnect	Disconnects the currently connected AP.

7 Don't Save

This option is only shown in the information window of an AP that you have connected to at least once. Selecting this option deletes the AP from the saved AP list. (Note: When you reconnect to an unsaved AP, you will have to enter its connection information again.)

! Note

If you connect to a Wi-Fi network after signing up for Connected Services, then you will be preferentially connected to a Wi-Fi network whenever you use Download Center or any downloaded apps.

Service Activation

1. Select [HOME] > [Connected Services] > [Connected Settings] > [Service Activation].

2. Select [Activation].

! Note

- Activation may take up to five minutes.
- Do not turn the engine off while activation is in progress.
- If activation fails, contact the Connected Center at 844-340-9741.
- During service activation, the hard keys in the head unit do not work.
