

# Chrysler New Yorker 1979 – 1981 fuse box diagram

Fuse box diagram

Chrysler New Yorker – fuse box diagram

| Nº | A  | Protected Component                                                                                          |
|----|----|--------------------------------------------------------------------------------------------------------------|
| 1  | 20 | Hazard lights                                                                                                |
| 2  | 20 | Circuit Breaker: Passenger side power seat motors                                                            |
| 3  | 30 | Circuit Breaker: Power window motors, power sun roof motor and illuminated entry sense                       |
| 4  | 30 | Air conditioning and heater blower motor, heated rear window relay and deck lid release solenoid             |
| 5  | 20 | Parking, side marker, tail, license opera, clock and radio display lights                                    |
| 6  | 20 | Horn, horn relay, power antenna, cigar lighter, glove box light                                              |
| 7  | 20 | Horn, horn relay, cigar lighter, power antenna and glove box light, stop lights, clock feed and radio memory |
| 8  | 30 | Circuit Breaker: Power seats and door locks                                                                  |
| 9  | 20 | Spot light for fleet vehicles                                                                                |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |    |                                                                                                                                                                                       |
