

How To Use the PDF Catalog

Ordering from this digital catalog is simple, fast, and secure! Follow these basic steps:

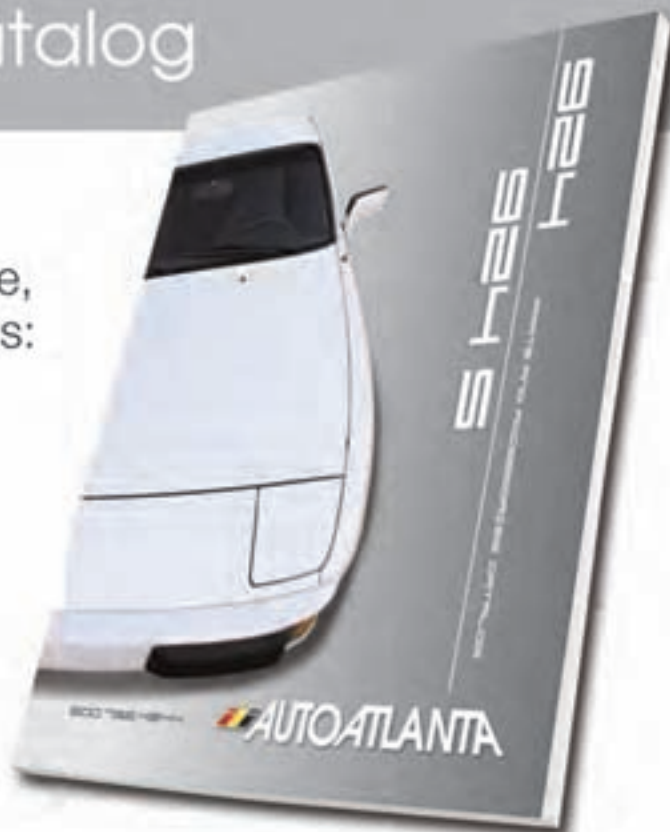

Rear Koni Shocks

A favorite among racers, and offered as a performance option by the factory. Konis are adjustable for fine tuning and carry a lifetime warranty. Sold each.

KONI

924, 924S, 944 1983-85.5, Gas	RKO 1209	\$275.00
924, 924S, 944 1983-85.5, Gas Sport	RKO 1209S	\$346.44
944 1985.5-91, 944 Turbo, Gas	RKO 1035	\$322.82
944 1985.5-91, 944 Turbo, Gas Sport	RKO 1035S	\$345.92

Choose An Item

This is an example of a typical listing in the catalog. You can see that the part numbers are highlighted in [blue](#); this is an active link. To select an item, simply click the link once and follow the instructions that follow.

Of course, you can continue to add more parts to your order as you go. They will be tabulated together at checkout.

Note: When you click on an item, you may receive a message like the one to the right. Don't be alarmed - just click "Allow" and you'll be on your way.

Questions?

As always, if you have questions about parts, you can call us at AutoAtlanta. We're here to serve you and make your shopping as easy as possible.

FOR PORSCHE OWNERS

Porsche: Excellence Was Expected

When the first edition of Porsche: Excellence Was Expected was published in 1977, reviewers sang high praises for author Karl Ludvigsen and his monumental book. Now Ludvigsen surpasses these achievements with this fully updated edition of Porsche: Excellence Was Expected. This new edition includes augmented versions of the 32 chapters from the 1977 book, as well as an additional 29 chapters that cover Porsche's history through 2002. This three-volume, 1,574-page set contains the photos and artwork from the original version, enhanced by over 742 new black and white photos and 50 new color drawings of Porsche production and racing cars which were commissioned specifically for this updated edition.

By Karl Ludvigsen.....[GPEx31070](#).....\$199.50

Two Syllable T-Shirt & Sweatshirt

Proper pronunciation is essential! Wear this shirt and correct everyone's! We know Porsche is two syllables, so now they will too! 100% Cotton, high quality. Please specify size (S, M, L, XL) and color - black or white - when ordering.

ENGINE

Rebuilt Powerplants

Why buy a rebuilt engine or transmission from us when your mechanic says he can do it cheaper? Because at Automobile Atlanta, we don't compromise your rebuild with substandard parts or machine work. We go overboard in replacing parts your mechanic would never think to or can't readily purchase. Plus, from years of experience, we know what wears out. Our rebuilt engines will, with care, last as long as the new factory one. Our setup is without compromise. We have invested thousands in Porsche factory tools to insure our engines are "spot on." Finally, they are extensively checked during each step of the rebuild process so your new engine is ready to bolt-in and drive away. Rebuilt engines need a 30 day lead time and we deliver anywhere in the world.

All rebuilt engines are sold on exchange basis of a like core.

944 Engine

944 Turbo Engine

968 Engine

924	B000 924	\$3,950.00
924 Turbo	B000 924T	\$5,950.00
944	B000 944	\$3,950.00
944S	B000 944S	\$3,950.00

944S2	B000 944S2	\$6,950.00

968	B000 968	\$6,950.00

*Core Charge on all rebuilt engines is \$2,500.00 -- Refundable upon receipt of your rebuildable core.

Engine Mounts

Does your shift handle move when your Porsche accelerates? Does your engine seem to shake at idle but is in perfect tune? Yes? You need new engine mounts! Early 944s had one of inferior design. Replacement with the new turbo sport design will guarantee long life.

924 1975-85 Left	R477 199 301	\$133.65
924 1980-85 Turbo, Left	G477 199 301A	\$115.66
924 All, Right	R477 199 303	\$126.23
944/968 Sport Mount, Left/Right	R951 375 042 04	\$136.55

Pistons

Smoking, sluggish, low compression engines usually have bad pistons and rings to blame for their anemic condition. Rebuild your engine properly with the finest parts available. Do not accept imitation or aftermarket pistons. Do it once! Do it right! If you are looking for a little extra HP and torque with your rebuild, try a set of higher compression European-spec pistons and get performance and factory reliability.

Crankshafts

The crankshafts on 924s and 944s are very strong and reliable units that will last a long time if cared for properly. However, if yours needs to be replaced due to a bearing failure or just a low oil pressure problem, we offer rebuilt units at a fraction of the new cost. All rebuilt crankshafts are magna-fluxed to check for cracks and are carefully reground. Specify year and model. All cranks are sold on exchange basis with a core charge of \$500.00, refundable upon receipt of your useable core.

Porsche Belt Tension Tool

This tool is a must for any 944/928/924S/968 owner. The timing and balance shaft belts should be adjusted at 15,000 mile intervals, according to the Porsche Maintenance schedule. If not, you could face a nuclear meltdown with broken or loose belts, which causes bent valves and major repair bills.

..... **G00072192440** **\$46.50**

Krickit Tension Measuring Gauge

It is hard to believe that's how this inexpensive tool is as accurate as the \$675 Porsche tool, and very easy to use. Pressing this gauge against the serpentine belt will produce a torque-wrench click as a signal of the completed measurement. Swing indicator will show the corresponding tension in Lbs. or Kgs. Porsche tool will show measurements in Newton Meters, when KRICKIT tool will measure in LBS or KG. You must convert NM to LB. As the result, all 944 users should set their belt using 35 LB on timing belt and 35-40 on the balance shaft. If balance belt makes too much noise, set it to 35 LB.

Krickit Tool **RKR1** **\$26.40**

Front Engine Reseal Kit

When doing a belt service you may notice a little oil around the balance shafts or cam shaft. DO NOT ignore this! If the belts become oil soaked it could cost you an engine! So save time and money with our complete reseal kit!

Water Pumps, Thermostats, & Thermo Fan Switches

A. Water Pumps

Water pump performance is crucial to a cool-running car. Scale build-up or overheating can ruin pump bearings, create a leak and subsequent failure. New factory water pumps are outrageously priced and have no real advantages over remanufactured ones. Our remanufactured water pumps have a six month, 6,000-mile warranty, yet cost hundreds of dollars less than new pumps.

924 1976-85 (New).....	R060 121 011	\$51.39

Radiator Cap

All water-cooled aluminum and iron engines experience 2 to 7 volts of electrolysis, which pulls molecules away from aluminum, eating at cylinder heads, engine covers, water pumps, radiators and heater cores. The solution is a

magnesium anode built into the Radiator Cap. It draws current away from expensive aluminum components, adding years of life to your cooling system. Not for 924 Turbo.

Air Filter Systems

Cool, high velocity air is pulled through the 360 degree breathing velocity cone air cleaner element. By passing more air into the engine, it is able to produce more horsepower. The engine also produces a well defined throttle sound. The bulky stock air box, some weighing as much as eight pounds, can now rest in your garage! There are thousands of these air cleaner systems on dozens of vehicle types in use world wide! Cooler inlet air temperature; Increased CFM air flow; Available with adapter ducts made from steel and heavy duty cast aluminum Internal velocity cone; Deep throttle sound; Up to eight horsepower gain; Permanent, reusable element.

Fuel Injector Sockets and O-Rings

Intake leaks can cause a poor idle and will not let your car run smoothly. One of the most common leaks are injector o-rings, which dry out, crack, and let air pass. An intake leak in this area can be checked by spraying carb cleaner. If the idle changes, you found the leak! First, try the o-rings. If the leak persists, replace the sockets.

Fuel Filters

Often overlooked at tune-up time, the fuel filter is one of the most important parts that should never be forgotten! A clogged fuel filter robs the engine of performance, contaminates the fuel system and may lead to very expensive fuel injection failure! NOTE: Early 924s had a rear fuel filter that is almost always forgotten. It's the black plastic one near your fuel tank!

EXHAUST

Tuned Headers

One of the simplest and most efficient performance upgrades you can do to your liquid-cooled Porsche is a set of quality headers. Bursch headers will increase exhaust flow and reduce engine temperature. What this means to you is more HP (approx. 8HP on 944) and better fuel economy. Bursch headers are a proven perfect fit (no need for hammers and crow bars) and an inexpensive performance enhancement.

924 1977-82 System	RBA 7912	\$325.00
924S 1987-88	RBA 7914	\$335.50

924 & 944 Early And Late Headers

These headers let your engine breathe better, giving you better performance. Reducer cones are supplied on all 944 headers which requires welding and joining to remainder of exhaust system under car. Ceramic coating available for \$115 extra.

924 1977-82	RMS H0924	\$227.00

Catalytic Test Pipes

Do you notice a red glow from your exhaust manifold? If so, you probably have a restricted catalytic converter. Catalytic test pipes can reduce engine

temperature by as much as 50 degrees and give you a substantial power and torque increase. You will notice the increase the first time a high speed pass is made on the racetrack.

Automatic Transmission Service Kit

Save that expensive automatic transmission with regular maintenance. Porsche recommends that you change your transmission fluid every 24,000 miles. Most automatics we see in our shop have never been serviced and may have 100,000 miles on the

original fluid! Our auto transmission service kit includes all gaskets, seals, and screens you need to complete the service! Don't forget, you will need 3 qts. (2.8 L) of transmission fluid.

Complete Clutch Packages

Does your 924 tach needle climb in high gears and not move the car like it should? Does your 924 make a grinding noise in neutral? Does your 944 seem to lurch during acceleration after shifts? These are all typical clutch problems. We offer complete packages to help you do it right!

All clutch packages include clutch disc pressure plate release bearing and the always forgotten needle bearing (the little bearing in the flywheel that ruins your drive tube when it goes bad), the pilot bearing and the rear main seal.

Lowering Spring Kit

For the ultimate in all-out cornering power, we recommend this German made, TUV approved spring set from H&R. These springs lower your car 1.0 inches in the front and the progressive rate lets them flow over small bumps easily, and stiffen for immediate response as cornering loads increase. H&R springs are the highest quality we have found, and come with a no-nonsense lifetime warranty. Sold as a pair.

968 1992-95, Pair **RHR 5659**..... **\$219.95**

Performance "Street" Springs

High performance springs are a big part of a sweet suspension system. Heavier springs provide your car with more control by reducing body roll and cross wind sensitivity and increasing high speed stability. Weltmeister's new springs are the best. Flawless chrome silicone alloy springs are perfectly wound on a digital bender. Our performance 924/944 springs are heat treated and powder-coated to last the lifetime of your car. 200 lb. springs are our choice for "street springs." They reduce body roll and nose diving under braking to give your street car a "tight" feel. Lowers about 1½."

Front Bilstein Struts

Our shop favorite, Bilsteins are original equipment on many Porsches and have won, for Porsche, countless races. Bilsteins are the highest quality shocks made and will last the lifetime of your Porsche. They come in two compression rates: "sport" (firmer than stock, but still offer good ride quality) and "rally" (firmer than sport, offers a firm ride, and recommended for track cars).

Adjustable Camber Plates

Get a dramatic increase in suspension feedback and quicker turn in with Weltmeister CamberPlates. They replace soft rubber with the same quality spherical bearings used on 220mph CART race cars. You can quickly dial in more camber, and accurately match the two sides. These are the only CamberPlates that can be used with standard diameter springs without having to make ride height adjustments. They also fit 21/2" coil racing springs. CamberPlates may be used with Cambermeister strut brace. Fits all struts; requires front realignment.

924, 944, 968..... **RDL845**..... **\$698.00**

Camber Plates

Watch out for the cracked rubber! When broken it will make loud knocking sound. Your anti-lock brakes will engage on the dry surface at braking, due to the strut's forward movement.

Billet Front A-Arms

We consider these to be the strongest and best quality control arms available. Built from a solid billet of 7075T7 aluminum. CNC machined and hard anodized to a satin finish. They feature a replaceable spherical bearing ball joint with a larger 19 mm ball joint pin made of a special alloy offering exceptional strength and durability. The original spindle ball joint pin bore must be enlarged from 17 to 19 mm. We offer this service if necessary. Additionally, a replaceable spherical bearing for the sub-frame mount with machined spacers is utilized to complete the assembly.

Steering Wheel Restoration

Restore it yourself! That's right, you do not need to spend \$600 on a new steering wheel! Over the years, sun, heat, and the sweat and oil from your hands has ruined the leather on your steering wheel. Now we have complete kits that you can sew on in the comfort of your own home! All kits are complete with instructions, new leather, needle and thread. It is easier than you might think. Stop ignoring that rotten looking steering wheel in your beautiful car. Order one of our inexpensive kits today! All factory colors available.

3 Spoke: All Models	R9284SP		\$65.99
4 Spoke: All Models	R9444SW		\$68.50

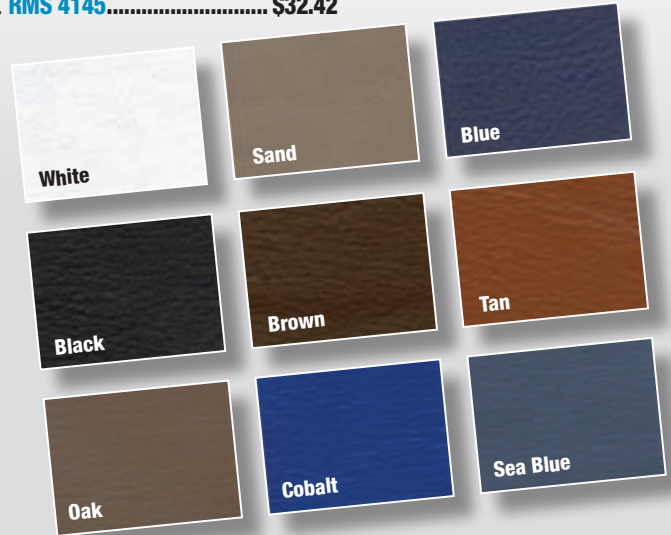

No time to do it yourself? We will do it for you. Just send us your wheel. (Optional \$150.00 charge for core to use while recovering.)

Leather Steering Wheel Covers

Leather luxury! Now add a high quality leather wheel cover that is tailor fitted to your steering wheel. Wheelskins install in minutes and are a great way to update your rubber wheel or cover your torn leather wheel. Comes in colors below. Please indicate color when ordering.

944 1985.5-91, 944 Turbo, Gas Sport	RKO 1035S	\$345.92

Rear Bilstein Shocks

Our shop favorite, Bilsteins are original equipment on many Porsches and have won, for Porsche, countless races. Bilsteins are the highest quality shocks made and will last the lifetime of your Porsche. They come in two compression rates: "sport" (firmer than stock, but still offer good ride quality) and "rally" (firmer than sport, offer a firm ride and recommended for track cars).

944 1983-84	RP300040	\$198.25
-------------------	-----------------------	-----------------

Rear Sachs/Boge Shocks

Original equipment on most 924 and 944 at a reasonable price. If Bilsteins are not in your budget, Sachs are of equal quality and offer a most comfortable ride.

924 Turbo, 944 1982-85.5	G477 513 031H	\$158.17
--------------------------------	----------------------------	-----------------

Rear KYB Shocks

Economical performance KYB gas shocks help your car ride firm and flat for added stability and have a lifetime warranty.

924 1976-83, 944 83-85½	RKG 4529	\$44.34
944 85½-91, 924S	RKG 4544	\$48.50

Tubular Torsion Bars

These are trick sticks! Weltmeister tubular torsion bars are the ultimate for your 924/944 rear suspension. They are 35 to 40% lighter! Weltmeister torsion bars are hollow from the mill so there is no danger of a cracked bar as we have seen with some "drilled" bars. They are heat treated to keep this same rate maintained over the lifetime of the bars. Priced per pair.

26 mm Effective Rate	RTT 5260	\$437.75

Rear Anti-Sway Bars

We offer Weltmeister swaybars and consider them by far the best for the money. Swaybars are the most important component in improving high performance handling. Properly sized, tuned and balanced swaybars improve control and chassis response while reducing body roll, weight transfer and speed wander. Weltmeister swaybars are adjustable so you can "fine tune" them to your chassis set-up and needs. All computer bent ultra high quality swaybars come complete w/polygraphite bushings (for better load and wear), sliders, adjustable droplinks, hardware and instructions.

DRM Wheel Spacers

Trak & Wheel Spacers

If you have room in your fender well to spacer your wheels out, here is an easy way to improve your Porsche's handling. Made of aluminum/magnesium alloy these hard anodized spacers are hub-centric and up to 70% lighter than typical steel wheel spacers. Made in Germany. Spacers come with wheel bolts, studs and nuts.

Front Brake Caliper Rebuild Kits

Does your car pull to one side when you hit the brakes or let go of the wheel? Do you notice one wheel seems to "get hot"? Are your calipers leaking or stuck even though you have cracked the bleeder nipples? You may need to rebuild your calipers. These factory kits include seals, piston clips, and boots; and with a little labor and paint, will look new as well. Reasonably priced, they sure beat the price of a new caliper!

Caliper Paint

Spice up your brake calipers with caliper paint. This durable finish resists chipping and temps up to 900 degrees.

Silver Kit **RVHTSLV** **\$13.99**
 Black Kit **RVHTBLK** **\$13.99**
 Yellow Kit **RVHTYEL** **\$13.99**
 Red Kit **RVHTRED** **\$13.99**

Brake Caliper Grease

Caliper pistons operate in temperatures over 1,000° F. To control friction and prevent seizure, they need specially formulated grease. When rebuilding or repairing calipers, we recommend a dose of this special hi-temp grease. 7 oz.

..... **RPP882941** **\$7.51**

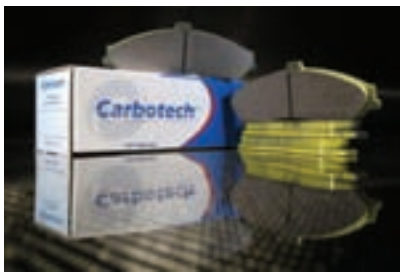

Front Brake Pads

We've grouped together several different brake pads and rated them according to driving styles and needs. Our normal pads are an excellent OEM replacement pad that produces low dust, high friction and will not squeal. Deluxe pads are for a high performance driver. They are excellent for on street high performance cars, as well as track events such as lapping days and time trials. Sport pads have excellent stopping power with extra fade resistance. Sport are recommended for low temperature asphalt and light race car applications. Racing pads will provide the maximum stopping power and will not fade. Racing provides excellent wear and braking at high temperatures. Racing are recommended for all heavy brake applications.

PERFORMANCE BRAKES

Carbotech Front Brake Pads

Carbotech Bobcat pads are a ceramic based friction material offering practically zero rotor damage. Bobcat offers outstanding performance when cold, very low dusting, and low noise with an excellent initial bite. Friction coefficient is .45 over its operating range of ambient temperature to 900° F. Bobcat is suitable for street, SCCA Solo 2 and Prosolo applications. Bobcat is not recommended for on-track driving schools or club racing.

Stainless Brake Lines

Over the years, deposits form inside your rubber brake lines, creating a hard brake pedal and sticky calipers. The permanent cure is to install a set of our stainless brake lines. They are teflon-lined to prevent mineral build-up and braided stainless steel to reduce line flex! Sold in sets of four, we have DOT and non-DOT approved lines.

Brake Pad Hardware Kits

924 All, 924S, 944 All

Front **R944 351 952 01** \$67.59

Rear **R944 352 952 00** \$77.29

Rear Brake Pad Sensor

These are the electrical leads that clip into the pads and indicate when the pads are worn out. These contacts rub against the rotor so when the brake warning light lights, these are bad. Order two per axle.

944 1985.5-89..... **R944 612 212 01** \$16.17

Brake Pad Pin Remover

Extra long 4 mm steel punch made for removing the disc brake pad retaining pins.

..... **RTL 243 93**..... \$14.24

Emergency Brake Shoe Set

Don't lose your Porsche! Don't let your beloved machine roll down that big hill and right into old man Hendrick's oak tree. Replace worn emergency brake shoes now!

924 Turbo, 944 All, 968 **R928 352 097 10R** \$93.50

Floor Jack Plates

Save that sheet metal! Keep rocker panels and floorboards dent free with our handy jack plates. Floor jack plates fit factory jack locations perfectly while the wide round base fits into the floor jack so you don't need to worry about slippage. Save your fragile factory jack for roadside emergencies and order a jack plate for your service needs.

924 & 944 '83-'85..... **RTL1039** \$21.95

944 Late '85½ up & 924S **RTL4327** \$29.95

Early Style

Late Style

Wurth Brake Cleaner

Powerful, safe chemical removes nasty brake dust build-up as well as engine grease and oils. Won't harm rubber or plastic and does not leave a bad odor.

..... **RGR3478**..... \$21.95

High Heat Paints

Great for calipers and exhaust. Withstands 1,500 degrees of heat without blistering.

White **RVHT SP740** \$21.95

Black..... **RVHT SP739** \$21.95

Grey **RVHT SP738** \$21.95

 Turbo Script [RRB 184 842](#) **\$43.95**

Alloy Shift Knob Insert with Crest

This high quality knob insert with Porsche crest is a fabulous addition to your interior to dress it up with some Porsche identity. While should at it replace that worn shift boot with new leather and finish the look.

924/944/968 Alloy Insert With Crest
 [RTY 185 487](#) **\$78.00**

Quick Shift Kit

Now you can make crisper, more positive shifts in your 924S or 944. New linkage uses an aircraft heim joint for more precise control. Kit reduces shift throw by 50% while maintaining smooth operation. Should be installed by mechanically experienced enthusiasts or Porsche shops.

944, 924S 1983-91 **RPP905 835** **\$215.75**

Shifters and Shifter Bushings

Reduce shifter slop in your 924 or 944 by replacing worn shifter parts. To check wear on these, simply pull up your shifter boot and inspect the shaft on the side of the shifter for wear. Also, check for a cracked or worn bushing under the shifter. Includes 2 pivot bushings.

924 All, 924S, 944 All

BODY

924 Carrera GT Kit

Possibly the first 924 to be taken seriously as a supercar, the Carrera GT won 6th overall in the 1980 Lemans! Not bad for a 2 liter engine. This kit recreates the Carrera GT muscular look which paved the way for the wide-bodied 944 and 968 that came after it. Include in the kit are front spoiler, front vented nose panel, front flared fenders, hood, hood scoop, rear bumper, and rear flared quarter panel extensions. All parts are made from quality fiberglass.

.....**RGT CARRERAGT** **Special Order-Call For Price**

924 to 944 Conversion Body Kit

If you like the look of the 944, but prefer the low maintenance fun of your 924, why not just change a few body panels and get the look you want. Our conversion is easy to install by any competent body shop and comes complete with spoilers and lighting.

924 to 944 Conversion Body Kit.....**RGT 33906** **\$1,760.00**

Turbo GTR Front Bumper

Front spoiler for the 944 Turbo allows for direct installation to the factory mounts without modification. Fiberglass construction offers high quality and low weight. Improvements include increased down force and greater airflow efficiency. Must be painted. Due to the difference in the shape between the Turbo and the non-turbo fenders, the GTR Front Bumper will not fit non-turbo vehicles.

Front 944 GTR Bumper.....**RGT292R** **\$355.95**

Euro Flex Spoiler

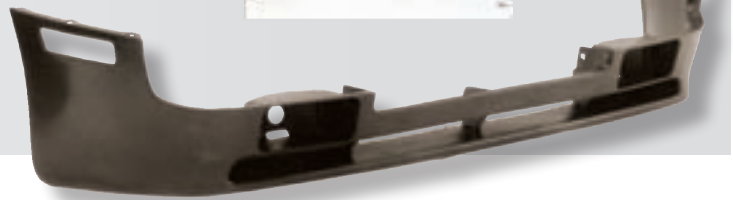

The R944NSP01 Front Nose without the R944FSP01 Front Chin Spoiler. Reuses all of your existing lights. No wiring or custom fabrication necessary. These components accent the beautiful body lines of the 944 and give it an aggressive new look. Performance is enhanced due to larger openings for brake and engine cooling, and downforce and stability is increased with the addition of the optional lower spoiler.

Front Nose.....**R944 NSP01** **\$489.00**
Chin Spoiler.....**R944 FSP01** **\$159.00**

944 Front Poly Spoiler

Introducing Automobile Atlanta's front 944 reproduction poly spoiler. Don't let that damaged front valance "spoil" the beauty of your Porsche. Since new factory spoilers are ridiculously expensive, we designed one with significant reinforcement in the areas where factory originals failed, maintained precise factory measurements, and made it inexpensive. The flexible poly will move with your 944, not crack and splinter like fiberglass.

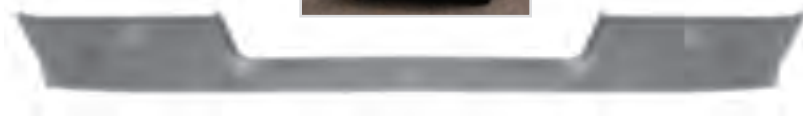

944 Front Poly Spoiler **B931 505 371 04** \$495.00

Porsche 924 Front Valance

New valance bolts easily in place of old one. Then, just paint to match your car.

924 1976-83, 924s 1986-88..... **G944 503 035 01** \$418.29

Front Bumpers and Spoilers

 Poly Cotton Cover **B4515** **\$108.90**
 Tan Flannel Cover **B4615** **Call**
 Bag and Cover Lock **RCC2000** **\$21.45**

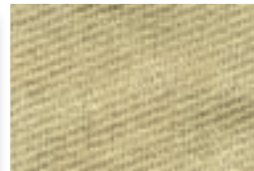

Provides protection and years of service in intense sun areas, like Arizona and other states of the sun-belt, where UV rays will rapidly degrade the paint and interior. Available in below colors.

Made with Kimberly-Clark's Technalon® 4-layer non-woven polypropylene fabric, maximum protection in all weather conditions. U.S. made. Available in blue, grey, and tan.

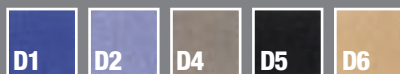

Fabric actually stops water, yet it "breathes" to allow any trapped moisture, seam seepage or condensation to easily evaporate. Highly water resistant, UV resistant and breathable. Made in the U.S.

Favored by traditional enthusiasts, tan flannel always provides a soft touch to pamper fine paint finishes. Designed primarily for indoor storage use, this woven cover is constructed from a durable polycotton blend.

Durable, woven polycotton blend offers good basic vehicle protection. Polyester is sun and water resistant, while cotton give a soft touch to the vehicle's finish.

Sunbrella Fabric Colors

D1 - Pacific Blue • D2 - Sky Blue • D4 - Cadet Gray • D5 - Jet Black • D6 - Toast

Genuine Porsche® Car Cover

These car covers feature the Porsche Crest and Logo in red, and are made from a special silver 100% polyester material that is water-resistant and breathable to protect against fading of paint and interior fabrics. The bottom edge is fully elasticized with reinforced plastic tie-down grommets on each side.

Molded Carpet Kit

Original carpeting worn out, making your vehicle look old? Replace it! We now offer a domestic alternative to the expensive original carpeting. Each section is molded to fit like the original carpeting. Carpets must be glued in as the original carpets were. Full instructions included for the do-it-yourselfers, but we recommend a professional installer for those with no previous experience with carpets. Available in black, tan, and brown. These are not original colors and as such will not match existing original carpet.

Specify year, model, and color when ordering!

..... **RWU 5547**\$785.00

Reproduction Carpet Kit

With Automobile Atlanta's kits, replacing your carpet is fast, easy, and inexpensive! Our kits are custom fit and ready to install. All you need is an afternoon and a can of 3M trim adhesive and you can restore the most noticed part of your interior to brand new. All carpet kits are cut to exactly duplicate the factory originals. We offer two styles: the German original and the high quality domestic. Compare our prices and save! *Specify color.*

Cool Seat Savers

The seat savers save your seats! They also keep them cool in the summer. Custom fit with the bold logo, they also cover unsightly cracks and tears! Specify black, brown, or tan.

Seat Savers, Set..... **RSS 5005** **\$105.88**

LEXOL

Leather upholstery belongs in all fine cars. It just smells and feels right. Preserve your expensive handsome interior with the best! Lexol cleaner is pH balanced, so even with its fantastic cleaning abilities, it will not cause your leather to dry or crack. A good cleaning should then be followed with Lexol conditioner to restore the suppleness and keep the leather from drying out (especially in the summer sun).

Corbeau Competition Belt Harness

Years of research and design have resulted in the development of the all-new Corbeau 3-inch Competition Harness Systems. Corbeau Competition Belts have been tested to meet and exceed all SFI 16.1 standards. Corbeau 5-Point Harness Systems feature state of the art Cam-Lock quick-release technology, Military Grade Nylon Webbing, Extra Strength Computerized Stitching, Lightweight Length Adjusters, Bolt-In & Wrap Around Mounting Hardware, Optional 3-Inch Harness Pads and the latest in style and design. Available in black, red and purple. State color when ordering.

.....**RCB5541** **\$163.90**

Deist Competition Belt Harness Camlock System

The quick release camlock system is designed for ease of entry and exit. Just snap in the belts to the camlock mechanism. To release belts simply twist the knob. Choose your configuration and color. Systems include sewn-in harness pads and your choice of all necessary mounting hardware. Please specify snap in, bolt in, no holes mounting or any combination. Because mounting hardware can be the weak link in any belt/harness installation, Deist has put a major emphasis on these components. Snap-in and bolt-in belt ends and the 3-bar adjusters for wrap-around mounting are manufactured exclusively for and by Deist. You're better off with Deist quality hardware! Other colors available.

4 Point Black **RDC 5542** **\$295.90**
5 Point Black **RDC 5543** **\$295.90**

Harness Guide Bar

Shoulder harness guide bar is an ABSolute must to minimize compression injuries under high "G" loading. It works by properly positioning the harnesses and mounts behind and above the "B" pillars at the "D" Ring mounting points. Retains use of stock harness. Fully adjustable for length because car widths do vary! No holes to drill. Easy in/out 1" diameter chrome moly tubing. Compact design finished in durable semi-gloss black powder coating to compliment your interior.

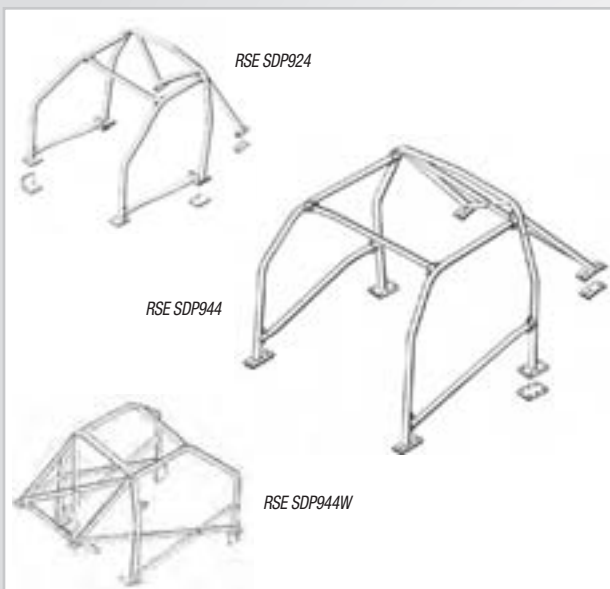

Guide Bar 924/944/968 Coupe "C" Pillar **RSE GB4R** **\$125.00**

Rollcage Kits

These competition bolt-in rollcage kits includes: Bolt on door bars, harness bar and diagonal. Optionally, the diagonal is offered in a non-removable version. Please refer to the part number to specify correctly when ordering. The bolt on harness bar is offset towards the rear to allow full movement of the front seats. This harness bar also incorporates shoulder harness guides which locate the shoulder harnesses on the harness bar. For the Club Racers, a Seat Back Brace can be attached to the harness bar as well. Advantages include extra chassis stiffening (when using a full 6 point cage) by greatly reducing the longitudinal twisting of the chassis and also allows the fitment to be as tight to the interior as possible, therefore giving you the least intrusive cage on the market. Made from Cold Drawn Seamless tubing (CDS), Safety Devices six point competition cages are the finest in the world. The revolutionary "saddle bracket" joint developed by Safety Devices is approved by the FIA, RAC, MSA. Note that shipping charges via truck freight vary depending on location and cannot be calculated until the order is processed. A quote can be provided.

Late 944 & 968 Dash Kits

Whether you want the rich, warm look of genuine Rosewood, Burl, or the crisp, modern, high-tech look of Carbon Fiber, these complete dash and interior kits will transform your interior. Each piece is precisely cut to your own specifications. These are easily installed by do-it-yourselfers; the thin, flexible material fits perfectly around the contours of your interior, and a specially developed adhesive attaches the trim securely, but without damaging the original material underneath. Make sure you note which optional holes are used in the shift plate when ordering.

Denso Compressor with Clutch Assembly

Solid, functional design. Advanced aluminum alloy. Exceptional construction. These are the core building tools behind Denso's line of remanufactured First Time Fit compressors. These superior compressors feature a lightweight aluminum alloy for increased durability. Like all Denso products, they meet or exceed OE standards for unparalleled performance. Denso First Time Fit compressors are guaranteed to fit right the first time, every time. Compressors come complete with clutch assembly and oil ready to install. Rebuilt Compressor & Clutch Assemblies must also be installed with a new receiver dryer, otherwise warranty is null and void by the manufacturer. Add \$250.00 core charge. Core charges are refundable upon return of like unit. Compressor and clutch assembly must be assembled together upon return, and the pulley and the hub must turn freely.

Rotary Compressor Conversion

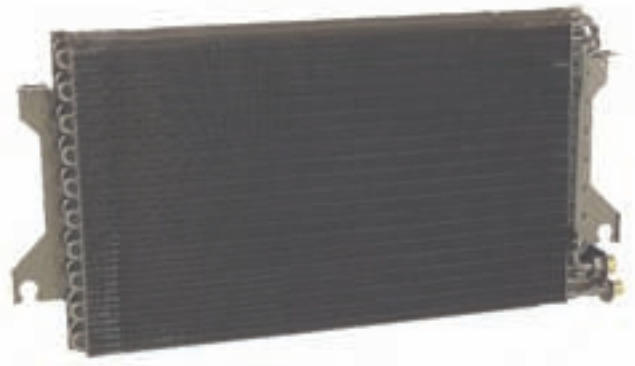

Convert your Nippondenso or York air conditioning compressor to a smooth, efficient rotary compressor and enjoy summer driving again. The rotary compressor produces air temperature drops that can't be matched by old reciprocating Nippondenso or York compressors. And you'll love the reduction in both noise and vibration. Our conversion kits include the new compressor, clutch, belt, adapter, hose fittings, and all necessary hardware for complete installation. Uses R134 or R12 coolant, not included. Coolant removal and recharging must be performed by a A/C certified shop. Note: Whenever changing coolant type, it is recommended that you install a new receiver drier.

Spark Plugs

BOSCH SUPER Copper core center electrode in heavy-duty nickel alloy jacket for greater ignition energy reserve. A heavy-duty nickel chromium side electrode assures maximum performance and prolonged service life. BOSCH PLATINUM 99.9% Platinum center electrode gives lower ignition voltage. Electrode gap remains virtually unchanged throughout its service life. All this gives you better performance and easier starting. Platinum plugs withstand temperatures up to 3200° F and are especially recommended for Turbo engines. Sold individually, order four per car.

NOLOGY

Nology Hotwires

Products have promised hotter sparks for 50 years. We almost gave up waiting, until dyno tests proved that HotWires™ really work. The secret? Each wire houses a capacitor to accumulate the energy from the ignition until it discharges a more powerful spark. Even with a nearly perfect ignition system, we saw 2-4% more horsepower, better fuel burn and reduced emissions on our own dyno tests. If you have a dirty-running engine, HotWires™ will give you a better chance of meeting the new emission standards. Note: may cause radio interference.

Ignition Wire Set

With correct wire lengths (excessively long wires can contact hot or moving parts such as exhaust manifolds or fan blades). Correct wire length eliminates stress on the boots and terminals. It also eliminates sharp bends in the wire, which can cause higher resistance and results in premature wire failure.

**Jacobs Energy Coil**

This patented design increases or decreases spark energy based on the demands of the engine. The coil produces a consistent 28,000 volts, regardless of plug condition, heat or engine rpm. It features ultra-rugged construction and heat conductivity.

.....**B4765**.....**\$54.95**

**NOLOGY****ProFire Ignition Coil**

ProFire ignition coils utilize advanced technology to supply the energy needed for trouble-free high performance and high rpm operation. They are designed to have the quickest rise time along with substantial energy reserves. Spark voltage is in excess of 55,000 volts over the entire rpm range. ProFire coils are the most potent coils available for the street or racing. Specify year and model when ordering.

.....**B4764**.....**\$112.00**

Reference Mark Sensor/Impulse Sender

2 REQUIRED: one to reference the position of the crankshaft and the other to measure the speed. If either of these fail the engine will have no spark. Easily checked with a sensitive volt meter set to AC current, each device will generate 2.5 volts as the engine is cranked. Often these are bent after a clutch is replaced or the plug broken from heat brittleness.

MSD Ignition Boxes

MSD
IGNITION

More sparks per combustion cycle help extract every last bit of energy from your fuel. You also get a smoother-running engine and improved throttle response. Instead of one spark, the MSD unit sparks continuously through 20 degrees of crankshaft rotation to burn all the air/fuel mixture. Features an adjustable rev limiter you can set to 6000, 7000 or 8000 rpm. Adding the RPM Module Selector allows you to adjust the limit from 6000 to 8200 in 200 rpm increments. Can be used on all 12-volt Porsches, is street legal in all 50 states, and requires very minor wiring modifications. Note: Cars with points and an electric tachometer need the Tach Adapter). MSD ignitions require use of the Bosch hi-spark blue coil.

Optima Battery

The Optima Battery looks like no other, and performs like no other as well! Some exclusive features of this battery include over 15 times the vibration resistance of other batteries and up to 2 times longer life. Spill-proof and maintenance-free, it installs in almost any position. Custom fit for all Porsche models.

Red Top Battery **ROP5636** **\$149.95**

Tension Terminal/Battery Clamp & Bolt

Brand new factory look, clamp to firmly secure the battery to its stand. Sold in red primer paint, is semi gloss for the concours look. Comes complete with the securing bolt, the washer and the lock washer.

..... **B914 611 233 10** **\$8.25**

Battery Cover

Keep your battery clean and dry with a factory cover and reduce risk of shorts (especially against the hood!) from exposed terminals.

50 Amp Cover **R281 915 411** **\$13.86**

63 Amp Cover **G477 915 411A** **\$12.26**

Battery Mat

The final word in acid damage protection and keep your battery area in check. Polyfoam battery mat neutralizes acid fast! A leaking battery will cause a rust through. Simple inexpensive prevention, this battery mat is a new solution to an old problem.

Battery Mat **RGR 5010** **\$10.97**

Battery Cleaner and Acid Detector **RGR 5011** **\$9.82**

Battery Tray Sealant **RGR 5018** **\$11.55**

Battery Quick Disconnect Switch

Disconnecting your battery is the best way to preserve it when your Porsche is stored. A simple twist of a knob and current no longer flows. This item is great for poor quality positive harnesses. The switch is also simple, inexpensive theft protection.

..... **RTL 1044** **\$21.95**

Grounding Kit

Tired of your Porsche turning over slowly after a little highway jaunt or an inadequate charging rate? This might be caused by weak factory grounds. Original equipment grounds were never heavy duty. Automobile Atlanta saves the day with our super heavy duty ground kit with super conductive copper/brass terminals. You may once again enjoy hot weather driving.

.....**RTG 5638**.....\$45.00

Battery Tender

Never worry about a dead battery while your car is in storage or you're away as long as you have the Battery Tender. This handy device will monitor your battery's voltage constantly. Don't worry about over charging, the Tender automatically goes into a floating mode once your battery is fully charged. This great item will increase the life of your battery.

.....**RBT4000** \$60.50

Battery Charger & Maintainer

Do you own an "occasional use" Porsche or other classic car? Our factory charger/maintainer will keep your car or boat ready to with a full battery charge. Its deep cycle slow charge will not overcharge and boil your battery. It's safe and dependable and will pay for itself with the 1st battery it saves.

.....**G000 043 202 56** \$86.35

Digital Multimeter Volt/ohm/temp/hz/duty-cycle

The multimeter gives you the automotive features you need, at the price you want.; Volts, amps, continuity and resistance; Frequency for "pulsed-DC" and AC frequency tests; Duty Cycle to verify operation of feedback carburetors, and other variable duty cycle signals; Direct Reading Dwell for 3, 4, 5, 6 and 8-cylinder engines; Temperature in °F or °C up to 1,839° F or 999° C; thermocouple bead probe and adapter plug accessories included; Min/Max Recording work with all meter functions; Precision Analog Bar Graph; RPM80 Inductive Pickup (optional accessory) for both conventional and distributorless (DIS) ignitions; 10 Megohm Input Impedance; Sleep Mode; Protective Holster with Flex-Stand.

.....**RTL34886**.....\$216.32

12-Volt Test Light

The 12 V test light is in all of our tool boxes and is a must for any electrical testing. Do not attempt electrical diagnosis unless you own one of these!

.....**RTL 1029**.....\$13.86

Electrifix

The Electrifix consists of five tools: a bullet-type connector cleaner, a fuse holder cleaner, a lamp socket cleaner, a male connector cleaner and an all-purpose contact cleaner. Removes corrosion and oxidation easily and effectively

.....**RPP 5623**\$12.05

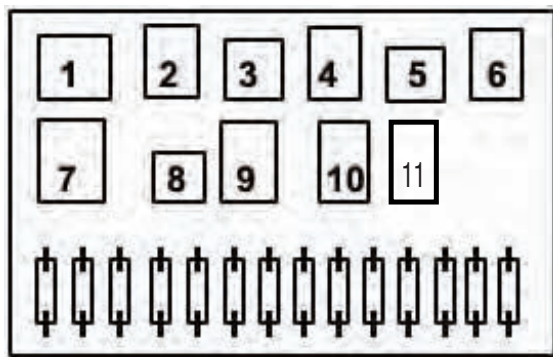

Electronic Parts Cleaner: Contact Oil

This is the problem solving spray for all of your 924/944 electrical mysteries! Cleans printed circuit boards, computer components, contact points, relays, engine sensors, and it's even NASA approved. So if you can not find some strange electrical gremlin, try a can of this electrical cure-all.

H-4 Headlamp Conversion For Bright Light

The H-4 headlamp conversion is the best thing you can do for your lighting! Bright white light illuminates much further than stock headlamps, showing you the WHOLE roadway. H-4's bolt directly in place of your headlamps. Optional 100 watt bulbs are the ultimate. Note: H-4's are a must for us near-sighted drivers!

Headlight and Foglight Film

Don't let flying rocks or road debris damage expensive headlight lenses. Simply apply our impact-resistant, non-yellowing protective film and end the risk of costly lens replacement. Precut to correct shape and self-adhesive, the 80 mil film goes on in seconds for years of protection. For other lights, as well as protecting hoods and fenders, we offer uncut 20 mil film. Safe for use with quartz, Litronic, H.I.D. and Xenon headlights.

Cluster Panel Illumination Repair Kit

The 944 VDO cluster panel has three optical-elements, which control the ambient light inside the cluster. The glazing on the elements has faded and cracked in 90% of 944/968 cars. As a result, the elements are no longer capable of transferring light correctly, making the panel unreasonably dark. 9xauto's repair kit will address all these problems by re-facing these optical elements with proper material and seal the light inside. However, you must remove the cluster to work on it. No paint or disassembly of the cluster will be required. Step by step instructions are enclosed.

**Integrated Fuel Rail Adapter**

This little adapter was designed specifically for the installation of domestic fuel-devices into the fuel-rail of the 924S and 944-type cars. The adapter is manufactured from billet aluminum, and anodized for protection. It features a "Slope" construction for undisturbed hood operation. This device will allow easy integration of the "electronic fuel pressure sender" and mounting of the standard electronic fuel pressure gauge in the cockpit for monitoring installed sender. It will also able to take various fuel pressure gauges from the different manufacturers in a standard 1/8-inch thread. We offer this adapter separately, as well as in the kit with a VDO fuel pressure gauge. For those, who plan to install a fuel pressure REGULATOR, this device is essential, since it will allow accurate adjustment of the fuel pressure, according to the gauge readings and not the "blind" guess.

Fuel Rail Adapter 924S, 944 **RMB 5646** **Call**

VDO Fuel Pressure Gauge..... **RVDO 647** **\$41.25**

Be very careful drilling and tapping the original fuel-rail plug. The plug dose not have enough "body" to safely sustain the fuel pressure gauge under 35 psi for a long period of time. Even if you are able to tap and drill, every time you close your hood, you will pressure this gauge down, eventually loosening the thread. A small fuel leak near the distributor will cause a FIRE.

Dual Gauge Pillar Pod

Double gauge pillar pod for 2 inch gauges. Replaces the existing vinyl pillar covering.

944, 968 **RVDO 648** **\$79.75**

Single Gauge Pod

Single gauge enclosure pod for 2 inch gauge. Attaches on to the existing pillar.

Billet Aluminum Gauge Panels

Replaces Storage Compartment in the newer Porsches with these extra gauge panels. They come in Aluminum Finish, Black, Cherry and Navy Blue, and custom leather finish is also available. All panels are 1/4 inch thick and feature single and double openings for 2 and 1/16-inch gauges. The single gauge panel is design to allow an extra switch control space to be implemented without alteration to your Porsche's original interior. Aluminum handles can be left in place or removed. Panels are sold without gauges.

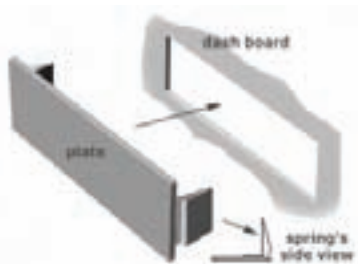

Two Gauge Openings **RMB 5642** **\$82.50**

One Opening **RMB 5643** **\$64.90**

Part Number Prefix Guide **G944 106 021 09**

AM/FM CD & MP3 Receivers

Blaupunkt radios were original equipment in 924s, 944s, and 968s. These latest units update your car to the fabulous sound of a modern system while still fitting perfectly into the dash.

Hamburg AM/FM CD/MP3 Receiver

The elegantly designed Hamburg CD/MP3 Receiver is the perfect marriage of style and function. Integrated Bluetooth compatibility provides for seamless incorporation of mobile phones and other Bluetooth enabled gear, and front-panel aux input gives drivers Plug & Play compatibility with their portable audio player. Great for drivers who need to stay connected while on-the-go but don't want to compromise their acoustical standards, the Hamburg MP57 is the ultimate in high-value, high-convenience receiver.

..... **RMP57** **\$287.00**

Laguna AM/FM CD/MP3 Receiver

The Laguna CD receiver exhibits convincing technology with it's high-quality, shock and shake-proof CD drive, easy operation and high functionality. The Sound Preset feature lets you set the ideal frequency response for different types of music (rock, pop and classical) at the touch of a button. The convenient 4-channel preamp out provides reliable control for external amplifiers and different connection options make it possible to add to your music system. AUX input for integration with car electronics such as satellite tuner, telephone, or navigation system. MP3 compatibility for up to 10 hours of music from one MP3 CD-R/RW

..... **RCD36** **\$97.99**

Blaupunkt 10-Disc CD Changer

This CD changer can be operated by any car radio equipped with CD changer control (DMS). Your 10 favourite CDs are available at the touch of a button - in impressively clear sound quality.

..... **RCDCA03** **\$196.00**

GT Series Speakers

TH Series Speakers

Blaupunkt Amplified Subwoofer

Add more bass to your sound system without major alterations to your Porsche. This unit contains an 8" woofer and an integrated 240 watt amplifier. Compact

dimensions and easy connection to factory and aftermarket stereo receivers.

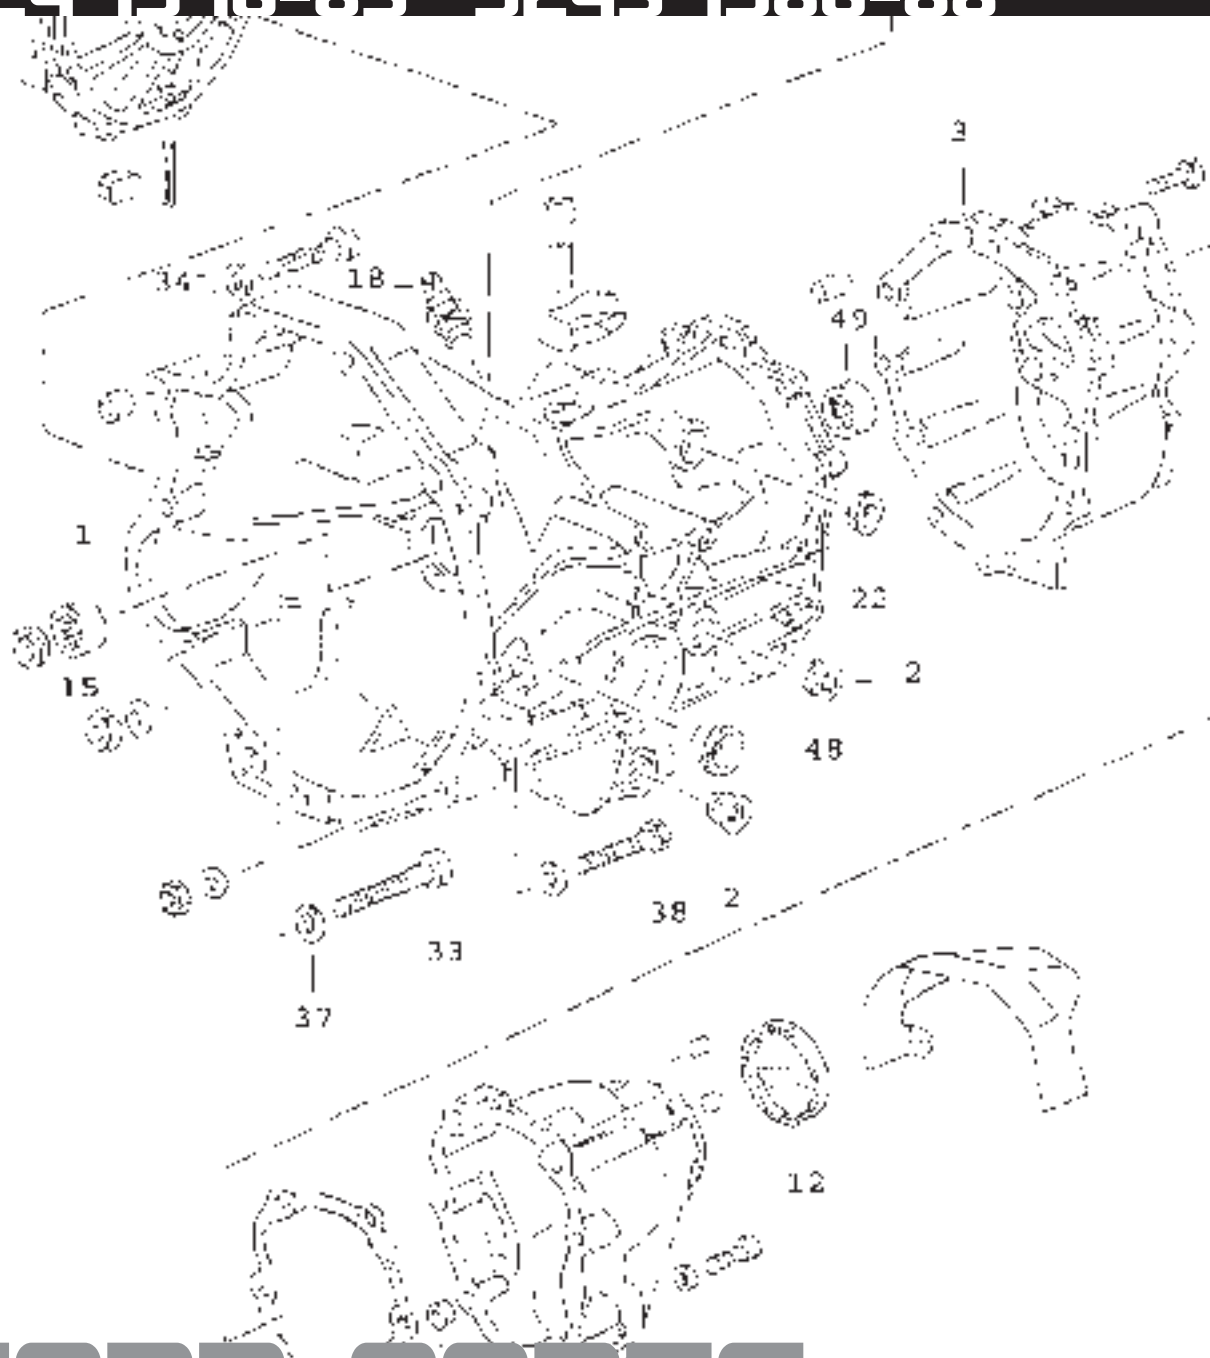

..... **RTHB210A** **Call**

Blaupunkt Performance Speaker Kits

Fabulous high powered modern coaxial speakers replace the old low power originals and fit the factory locations. The GT Series speakers handle 150 watts max power (RMS power at 35 watts), while the TH Series speakers handle 160 watts max power (RMS power at 40 watts) and are a low-profile design.

GT Series 4x6" (pair) **RGTX462** **\$25.20**
 TH Series 4x6" (pair) **RTHX462** **\$61.60**

HARD PARTS

Here, Automobile Atlanta is truly unique! The geniuses of the junk yard have accumulated a selection of used parts, dating back to the late 1970s. These parts will save you lots of money when shopping. Of course, every part is carefully selected, cleaned and checked to ensure proper functioning.

We also specially cut body parts to easily repair your worst collision or rust problem. Since we have repaired many rusty or wrecked Porsches, we know exactly what you need!

When you visit Atlanta and tour our facility, you will be amazed at the number of parts we have packed into our warehouse, just to assure you prompt delivery.

Finally, if you don't see it, we have it! Although this catalog is extensive, it would be impossible to list our vast inventory here. A brief description is all we need to rush you that rare part. Just call!

ACCESSORIES

Jump Start Pro

Never again be stuck with a dead battery! The Jumpstart Pro is completely portable, safe, and convenient! The unit may be charged from household or auto current with the included power cords. An easy to read power indicator alerts you to the power status at all times. Reverse polarity warning, keyless on/off switch, 110 volt AC power outlet, 200 watts, also includes a built in work light. The Jump Start Pro may be stored in in any position without risk of leakage. Maintenance free, heavy duty battery is also sealed for extra protection. The uses are limitless. (Appearance may be different than shown.)

.....RVEC021AC.....\$153.94

Volt Tach Dwell Meter

Every time we give tech advice, it seems that no one has one of these. Since most cars these days have electronic ignition, it was almost impossible to find a combination tool with a dwell reading, but we did, and offer this high quality instrument to you.

.....RTL2501A305.....\$86.62

Halon Fire Extinguisher

Fire Extinguishers should be installed in each of your vehicles. Halon Fire Extinguishers are the only fire extinguishers that won't choke you, won't damage your vehicle's electrical system or harm your expensive paint job. Halon is colorless, odorless, non staining (leaves no residue), non corrosive, non conductive and it will not impairment of operator's vision. These Halon Fire Extinguishers are Compact, lightweight and easy to operate.

.....RSEEXT1C.....\$260.69

Factory Tire Inflators

Missing your original one? The factory tire inflator will make short work of that of that space saving deflated spare and can be used on bicycles, balls, and rafts. Comes complete with a sturdy carrying case.

.....BPNA113104.....\$78.14

Tire Pressure Gauges

Get an accurate reading in any temperature, altitude, or climate. Digital tire gauges are the most accurate and easy to use. Chrome dial style looks good in your factory tool kit at the Concours outings. Add life to your tires! 5-99 PSI. 1 lb resolution.

Brake Bleeder/Vacuum Tester

Does your 944 high-low idle (hunt)? Is your 944 running too rich or too lean? Do you not have an assistant to help you bleed your brakes? Does Dr. 914 ask you to measure engine vacuum or evacuate your pressure sensor when you call him for technical assistance? What you need is this handheld brake bleeder/engine vacuum tester!

Good for thousands of applications the heavy duty steel version will last the life of your tool collection. Don't be without one, and save yourself lots of time and frustration!

Metal Vacuum Tester/Brake Bleeder (Pictured)

.....[RTL 2002](#).....**\$76.95**

Plastic Vacuum Tester/Bleeder[RTL 1012](#).....**\$43.45**

Power Bleeder

This professional quality pressure Power Bleeder uses pressurized brake fluid to force air and contamination out of your lines and cylinders, so you'll get all the air out of the system the first time you bleed. No more bleeding and re-bleeding to get an air-free system. Easy one person operation, durable and corrosion proof. Built in pump works anywhere. Great for home, shop or track.

.....[RMP0104](#).....**\$54.94**

Fuel Injection Pressure Tester

We receive calls daily for a high pressure fuel gauge and we are surprised one cannot be found at a local parts store. But, alas, it seems not available and it is a must when troubleshooting fuel injection problems. Besides giving extremely accurate readings of your car's fuel pressure, this high quality tester will also work on other Porsche® injection systems. Make sure you have this device handy before you call for fuel injection advice!

.....[RTL 1031](#).....**\$114.34**

Magnetic Socket

No more lost or dropped spark plugs. Plugs go where you want them with either the magnetic or lock-grip spark plug socket. Spark plug removal and installation is safer and easier. Fit all standard Bosch plugs; does not fit Beru 3-prong plugs.

.....[RTL 1027](#).....**\$68.75**

Telescopic Prop Rod

It always seems to happen when you're concentrating on your work under the hood. The hood slams down on your head. This adjustable telescoping rod keeps your hood or decklid up even on gusty days. It's the ideal mate when installing new hood shocks. Extends from 28 inches to 46 inches and rubber ends to prevent paint damage.

SHIPPING HEAVY OR BULKY ITEMS

Please call for charges. These items may require delivery by common carrier or be subject to oversize rates.

Scheduled Shipping Days for Federal Express
from the Atlanta Metro Area

Returns & Exchanges:

Damaged Goods:

If there is any damage to any of the products in your order, please contact the delivering carrier at once. Keep the shipping carton and all packing material. Automobile Atlanta cannot initiate the claim with the carrier. The carrier will only deal with the recipient of the goods. Once you have a claim number, call us for a replacement part.

Should you find it necessary to return an item:

Please contact your personal salesman (listed on your invoice) for a return authorization number, at 770-427-2844. (Our shipping department will refuse any unauthorized return.) Please enclose a copy of your invoice, wrap the item securely and send your package back to us via insured and prepaid shipping. International customers are responsible for customs on returned items. SHIPPING AND HANDLING FEES ARE NOT REFUNDABLE!

Customer Service and Order Inquiries:

Write:

AUTOMOBILE ATLANTA/Customer Service
505 South Marietta Parkway • Marietta, Georgia 30060
Please include your phone number so that we may respond quickly.

Email Us:

You may email us at customerservice@autoatlanta.com

Phone Us:

You may call us at (770) 427-2844 ext.10; Fax us at (770) 424-6833. We will be happy to answer your questions Monday-Friday 10 A.M.-4 P.M. EST. (No collect calls) Have your invoice avail for faster service.

Core Returns:

Core invoices are shipped with a core tag provided. Please attach this to your core when returning the item. Cores being returned do not need a Return Authorization Number, but must have a copy of the invoice and the word CORE clearly visible on the outside of the box containing the core. Cores must be rebuildable and complete. Deductions will be made accordingly.

Return Policy:

1. No returns accepted after 30 days.
2. Returns are for exchange or merchandise credit, good for 2 years.
3. Refunds only after 30 days.
4. Parts must be in 100% resalable condition.
5. Customer will be responsible for shipping and handling round-trip of all orders placed and not canceled prior to 4 p.m. on the day of shipment.
6. Core credit given only on cores that are rebuildable.
7. All returns are subject to a 20% restocking fee.
8. No returns on special order parts, electrical items, books or manuals.
9. When referring to parts on our website or over the phone, please be aware that the letters G, R, U, B, stand for the following: G = Genuine • R = Aftermarket / Replacement • U = Used • B = Rebuilt or Reproduction

Please be aware that 90% of G parts are special order and are by nature non-returnable. If you have questions regarding this, please ask your sales person or feel free to email us. Thank you for your cooperation.

AUTO ATLANTA [View Cart](#)

As with the history of the Porsche 356, the aftermarket was slow to respond to the need for spare parts while prices at the dealerships continued to escalate. Items shared with contemporary VWs were easy to find, as were high performance parts, but a substantial void was present when it came to providing hard-to-find pieces for restoration and maintenance. While working for Chrysler in the mid-1970s, George Hussey began buying and selling Porsches, mostly 914s, from his north suburban Atlanta apartment. He had been attracted to them by having volunteered his spare time helping out in a local foreign car repair shop. Learning the car from the inside out, he recognized the quality of construction and engineering and forgave some of the styling and performance sacrifices. By late 1978, the hobby got out of hand and Automobile Atlanta opened its doors in the guise of a used sports car lot with a Porsche emphasis. Mechanical work was a necessity, so a small shop was added.

Soon customers were asking about where to find parts and have restoration or body work performed, so these services were gradually incorporated. In 1981 Automobile Atlanta moved to a building that had once housed a porcelain factory in Marietta, GA. and George assembled the first 914 specific catalog on his living room floor. As time passed, the parts segment of the business grew faster than the other areas. Soon 924s, then 944s were added and a catalog was put together with these models in mind. Today Automobile Atlanta is a one-stop establishment unique in the Porsche world. They cater to an international audience and not only by telephone and mail; frequently walk-in customers appear from Europe and Australia!

The combination of all the different elements is what makes us unique," George Hussey explained. "That and the fact that we really love the cars. We offer tech support from our hands-on experience. I like to tell people that we are the only place where our telephone salesmen are required to have grease under their fingernails. We are also developing a line of specific repair parts based on what we know are problem areas and where available parts don't meet our standards. All Porsches were designed to be driven, not sit in museums or garages. If we can keep more on the road, then Automobile Atlanta is a success. "As for the future direction of Automobile Atlanta, George is looking toward the 356 and 911 and the Boxster Porsche arenas, as well as keeping up with current projects. "Our overall goal is to be sort of a 'vintage Porsche dealer' providing all the services for the older cars that Porsche dealers provide for new cars."
